

Commerce City Traffic Code v2010

TABLE OF CONTENTS

PART 1 TRAFFIC REGULATION - GENERALLY

- 101. Deleted.
- 102. Deleted.
- 103. Applicability.
- 104.
- 105. Local traffic control devices.
- 106. Who may restrict right to use highways.
- 107. Obedience to police officers.
- 108. Public officers to obey provisions - exceptions for emergency vehicles.
- 109. Low-power scooters, animals, skis, skates, and toy vehicles on highways.
- 109.5. Golf cars and low-speed electric vehicles.
- 109.6. Deleted.
- 110. Provisions uniform throughout state.
- 110.5. Deleted.
- 111. Deleted.
- 112. Noninterference with the rights of owners of realty.
- 113. Deleted.
- 114. Removal of traffic hazards.
- 115. (Repealed)
- 116. Restrictions for minor drivers - definitions.
- 117. Personal mobility devices.

PART 2 EQUIPMENT

- 201. Obstruction of view or driving mechanism - hazardous situation.
- 202. Unsafe vehicles - penalty – identification plates.
- 203. Unsafe vehicles - spot inspections.
- 204. When lighted lamps are required.
- 205. Head lamps on motor vehicles.
- 206. Tail lamps and reflectors.
- 207. Clearance and identification.
- 208. Stop lamps and turn signals.
- 209. Lamp or flag on projecting load.
- 210. Lamps on parked vehicles.
- 211. Lamps on farm equipment and other vehicles and equipment.
- 212. Spot lamps and auxiliary lamps.
- 213. Audible and visual signals on emergency vehicles.
- 214. Visual signals on service vehicles.
- 215. Signal lamps and devices – additional lighting equipment.

- 215.5. Signal lamps and devices – street rod vehicles and custom motor vehicles.
- 216. Multiple-beam road lights.
- 217. Use of multiple-beam lights.
- 218. Single-beam road-lighting equipment.
- 219. Number of lamps permitted.
- 220. Low-power scooters – lighting equipment - department control - use and operation.
- 221. Bicycle and personal mobility device equipment.
- 222. Volunteer firefighters – volunteer ambulance attendants – special lights and alarm systems.
- 223. Brakes.
- 224. Horns or warning devices.
- 225. Mufflers - prevention of noise.
- 226. Mirrors - exterior placements.
- 227. Windows unobstructed – certain materials prohibited – windshield wiper requirements.
- 228. Restrictions on tire equipment.
- 229. Safety glazing material in motor vehicles.
- 230. Emergency lighting equipment - who must carry.
- 231. Parking lights.
- 232. Minimum safety standards for motorcycles and low-power scooters.
- 233. Alteration of suspension system.
- 234. Slow-moving vehicles - display of emblem.
- 235. Minimum standards for commercial vehicles
- 236. Child restraint systems required - definitions - exemptions.
- 237. Safety belt systems – mandatory use - exemptions - penalty.
- 238. Blue and red lights - illegal use or possession.
- 239. Misuse of a wireless telephone - definitions - penalty - preemption.
- 240. Low-speed electric vehicle equipment requirements.

PART 5

SIZE - WEIGHT - LOAD

- 501. Size and weight violations - penalty.
- 502. Width of vehicles.
- 503. Projecting loads on passenger vehicles.
- 504. Height and length of vehicles.
- 505. Longer vehicle combinations.
- 506. Trailers and towed vehicles.
- 507. Wheel and axle loads.
- 508. Gross weight of vehicles and loads.
- 509. Vehicles weighed – excess removed.
- 510. Permits for excess size and weight and for manufactured homes - rules.

- 511. Permit standards - state and local.
- 511.2. Deleted.
- 512. Liability for damage to highway.
- 513.
- 514. Weight limits on certain streets or parts thereof.

PART 6

SIGNALS - SIGNS - MARKINGS

- 601. Department to sign highways, where.
- 602. Local traffic control devices.
- 603. Obedience to official traffic control devices.
- 604. Traffic control signal legend.
- 605. Flashing signals.
- 606. Display of unauthorized signs or devices.
- 607. Interference with official devices.
- 608. Signals by hand or signal device.
- 609. Method of giving hand and arm signals.
- 610. Unauthorized insignia.
- 611. Paraplegic persons or persons with disabilities - distress flag.
- 612. When signals are inoperative or malfunctioning.
- 613. Failure to pay toll established by regional transportation authority.
- 614. Designation of highway maintenance, repair, or construction zones - signs - increase in penalties for speeding violations.
- 615. School zones - increase in penalties for moving traffic violations.
- 616. High traffic hazard routes.

PART 7

RIGHTS-OF-WAY

- 701. Vehicles approaching or entering intersection.
- 702. Vehicle turning left.
- 703. Entering through highway – stop or yield intersection.
- 704. Vehicle entering roadway.
- 705. Operation of vehicle approached by emergency vehicle – operation of vehicle approaching stationary emergency vehicle.
- 706. Obedience to railroad signal.
- 707. Certain vehicles must stop at railroad grade crossings.
- 708. Moving heavy equipment at railroad grade crossing.
- 709. Stop when traffic obstructed.
- 710. Emerging from or entering alley, driveway, or building.
- 711. Deleted.

- 712. Driving in highway work area.
- 713. Yielding right-of-way to transit buses - definitions - penalty.

PART 8 PEDESTRIANS

- 801. Pedestrian obedience to traffic control devices and traffic regulations.
- 802. Pedestrians' right-of-way in crosswalks.
- 803. Crossing at other than crosswalks.
- 804. (Repealed)
- 805. Pedestrians walking or traveling in a wheelchair on highways.
- 806. Driving through safety zone prohibited.
- 807. Drivers to exercise due care.
- 808. Drivers and pedestrians, other than persons in wheelchairs, to yield to persons with disabilities.

PART 9 TURNING - STOPPING

- 901. Required position and method of turning.
- 902. Limitations on turning around.
- 903. Turning movements and required signals.

PART 10 DRIVING - OVERTAKING - PASSING

- 1001. Drive on right side - exceptions.
- 1002. Passing oncoming vehicles.
- 1003. Overtaking a vehicle on the left.
- 1004. When overtaking on the right is permitted.
- 1005. Limitations on overtaking on the left.
- 1006. One-way roadways and rotary traffic islands.
- 1007. Driving on roadways laned for traffic.
- 1008. Following too closely.
- 1008.5. Crowding or threatening bicyclist.
- 1009. Coasting prohibited.
- 1010. Driving on divided or controlled access highways.
- 1011. Use of runaway vehicle ramps.
- 1012. High occupancy vehicle (HOV) and high occupancy toll (HOT) lanes.
- 1013. Passing lane - definitions - penalty.

PART 11 SPEED REGULATIONS

- 1101. Speed limits.
- 1102. Altering of speed limits.
- 1103. Minimum speed regulation.
- 1104. Speed limits on elevated structures.
- 1105. Speed contests - speed exhibitions - aiding and facilitating
– immobilization of motor vehicle - definitions.

PART 12 PARKING

- 1201. Moving parked vehicle.
- 1202. Parking or abandonment of vehicles.
- 1203. Ski areas to install signs.
- 1204. Stopping, standing, or parking prohibited in specified places.
- 1205. Parking at curb or edge of roadway.
- 1206. Unattended motor vehicle.
- 1207. Opening and closing vehicle doors.
- 1208. Parking privileges for persons with disabilities - applicability.
- 1209. Owner liability for parking violations.
- 1210. Designated areas on private property for authorized vehicles.
- 1211. Limitations on backing.
- 1212. Pay parking access for disabled.

PART 14 OTHER OFFENSES

- 1401. Reckless driving - penalty.
- 1402. Careless driving - penalty.
- 1403. Following fire apparatus prohibited.
- 1404. Crossing fire hose.
- 1405. Riding in trailers.
- 1406. Foreign matter on highway prohibited.
- 1407. Spilling loads on highways prohibited
– prevention of spilling of aggregate, trash, or recyclables.
- 1407.5. Splash guards - when required.

- 1408. Operation of motor vehicles on property under control of or owned by parks and recreation districts.
- 1409. Compulsory insurance - penalty - legislative intent.
- 1410. Proof of financial responsibility required - suspension of license.
- 1411. Use of earphones while driving.
- 1412. Operation of bicycles and other human-powered vehicles.
- 1413. Eluding or attempting to elude a police officer.
- 1414. Use of dyed fuel on highways prohibited.
- 1415. Radar jamming devices prohibited - penalty.
- 1416. Compression release brakes restricted.
- 1417. Unlawful crossing of private property.

PART 15

MOTORCYCLES

- 1501. Traffic laws apply to persons operating motorcycles – special permits.
- 1502. Riding on motorcycles – protective helmet.
- 1503. Operating motorcycles on roadways laned for traffic.
- 1504. Clinging to other vehicles.

PART 1
TRAFFIC REGULATION - GENERALLY

101. Deleted.

102. Deleted.

103. Applicability.

This Code shall apply to every street, alley, sidewalk area, driveway, park, and any other public way, public place, or public parking area, whether within or outside the corporate limits of the city, over which the city has jurisdiction and authority to regulate. In addition, sections 238 (Blue and red lights – illegal use or possession), 606 (Display of unauthorized signs or devices), 1204 (Stopping, standing, or parking prohibited in specified places), 1211 (limitations on backing), 1401 (Reckless driving), 1402 (Careless driving), 1413 (Eluding or attempting to elude a police officer), 1415 (Radar jamming devices prohibited), and 1417 (Unlawful crossing of private property) apply throughout the jurisdiction of the city.

104.

105. Local traffic control devices.

Local authorities shall place and maintain such traffic control devices upon highways under their jurisdiction as they may deem necessary to indicate and to carry out the provisions of this Code or local traffic rules or to regulate, warn, or guide traffic, subject in the case of state highways to the provisions of sections 42-4-110 and 43-2-135 (1) (g), C.R.S. All such traffic control devices shall conform to the state manual and specifications for statewide uniformity as provided in section 42-4-104 C.R.S.

106. Who may restrict right to use highways.

(1) This local government may, with respect to highways under its jurisdiction, prohibit the operation of vehicles upon any such highway or impose restrictions as to the weight of vehicles to be operated upon any such highway, for a total period of not to exceed ninety days in any one calendar year, whenever any said highway by reason of deterioration, rain, snow, or other climatic conditions will be seriously damaged or destroyed unless the use of vehicles thereon is prohibited or the permissible weights thereof reduced.

(2) After enacting any such rule, signs designating the permissible weights shall be erected and maintained.

(3) The city, with respect to highways under its jurisdiction, may also prohibit the operation of trucks or other commercial vehicles on designated highways or may impose limitations as to the weight thereof, which prohibitions and limitations shall be designated by appropriate signs placed on such highways.

107. Obedience to police officers.

No person shall willfully fail or refuse to comply with any lawful order or direction of any police officer invested by law with authority to direct, control, or regulate traffic.

108. Public officers to obey provisions - exceptions for emergency vehicles.

(1) The provisions of this Code applicable to the drivers of vehicles upon the highways shall apply to the drivers of all vehicles owned or operated by the United States, this state, or any county, city, town, district, or other political subdivision of the state, subject to such specific exceptions as are set forth in this Code with reference to authorized emergency vehicles.

(2) The driver of an authorized emergency vehicle, when responding to an emergency call, or when in pursuit of an actual or suspected violator of the law, or when responding to but not upon returning from a fire alarm, may exercise the privileges set forth in this section, but subject to the conditions stated in this Code. The driver of an authorized emergency vehicle may:

(a) Park or stand, irrespective of the provisions of this Code or State law;

(b) Proceed past a red or stop signal or stop sign, but only after slowing down as may be necessary for safe operation;

(c) Exceed the lawful speeds set forth in section 1101(2) or exceed the maximum lawful speed limits set forth in section 1101 (8) so long as said driver does not endanger life or property;

(d) Disregard regulations governing directions of movement or turning in specified directions.

(3) The exemptions and conditions provided in paragraphs (b) to (d), in their entirety, of subsection (2) of this section for an authorized emergency vehicle shall apply only when such vehicle is making use of audible or visual signals meeting the requirements of section 213, and the exemption granted in paragraph (a) of subsection (2) of this section shall apply only when such vehicle is making use of visual signals meeting the requirements of section 213 unless using such visual signals would cause an obstruction to the normal flow of traffic; except that an authorized emergency vehicle being operated as a police vehicle while in actual pursuit of a suspected violator of any provision of this title need not display or make use of audible or visual signals so long as such pursuit is being made to obtain verification of or evidence of the guilt of the suspected violator. Nothing in this section shall be construed to require an emergency vehicle to make use of audible signals when such vehicle is not moving, whether or not the vehicle is occupied.

(4) The provisions of this section shall not relieve the driver of an authorized emergency vehicle from the duty to drive with due regard for the safety of all persons, nor shall such provisions protect the driver from the consequences of such driver's reckless disregard for the safety of others.

109. Low-power scooters, animals, skis, skates, and toy vehicles on highways.

(1) A person riding a low-power scooter upon a roadway where low-power scooter travel is permitted shall be granted all of the rights and shall be subject to all of the duties and penalties applicable to the driver of a vehicle as set forth in this Code except those provisions of this Code that, by their very nature, can have no application.

(2) A person riding a low-power scooter shall not ride other than upon or astride a permanent and regular seat attached thereto.

(3) No low-power scooter shall be used to carry more persons at one time than the number for which it is designed and equipped.

(4) No person riding upon any low-power scooter, coaster, roller skates, sled, or toy vehicle shall attach the same or himself or herself to any vehicle upon a roadway.

(5) A person operating a low-power scooter upon a roadway shall ride as close to the right side of the roadway as practicable, exercising due care when passing a standing vehicle or one proceeding in the same direction.

(6) Persons riding low-power scooters upon a roadway shall not ride more than two abreast.

(6.5) A person under the age of eighteen years may not operate or carry a passenger who is under eighteen years of age on a low-power scooter unless the person and the passenger are wearing protective helmets in accordance with the provisions of section 1502 (4.5) of this Code.

(7) For the sake of uniformity and bicycle, electrical assisted bicycle, and low-power scooter safety throughout the state, the department of revenue in cooperation with the department of transportation shall prepare and make available to all local jurisdictions for distribution to bicycle, electrical assisted bicycle, and low-power scooter riders a digest of state regulations explaining and illustrating the rules of the road, equipment requirements, and traffic control devices that are applicable to such riders and their bicycles, electrical assisted bicycles, or low-power scooters.

(8) Persons riding or leading animals on or along any highway shall ride or lead such animals on the left side of said highway, facing approaching traffic. This shall not apply to persons driving herds of animals along highways.

(9) No person shall use the highways for traveling on skis, toboggans, coasting sleds, skates, or similar devices. It is unlawful for any person to use any roadway of this state as a sled or ski course for the purpose of coasting on sleds, skis, or similar devices. It is also unlawful for any person upon roller skates or riding in or by means of any coaster, toy vehicle, or similar device to go upon any roadway except while crossing a highway in a crosswalk, and when so crossing such person shall be granted all of the rights and shall be subject to all of the duties applicable to pedestrians. This subsection (9) does not apply to any public way which is set aside by proper authority as a play street and which is adequately roped off or otherwise marked for such purpose.

(10) Every person riding or leading an animal or driving any animal-drawn conveyance upon a roadway shall be granted all of the rights and shall be subject to all of the duties applicable to the driver of a vehicle by this Code, except those provisions of this Code which by their very nature can have no application.

(11) Where suitable bike paths, horseback trails, or other trails have been established on the right-of-way or parallel to and within one-fourth mile of the right-of-way of heavily traveled streets and highways, the department of transportation may, subject to the provisions of section 43-2-135, C.R.S., by resolution or order entered in its minutes, and local authorities may, where suitable bike paths, horseback trails, or other trails have been established on the right-of-way or parallel to it within four hundred fifty feet of the right-of-way of heavily traveled streets, determine and designate, upon the basis of an engineering and traffic investigation, those heavily traveled streets and highways upon which shall be prohibited any bicycle, electrical assisted bicycle, animal rider, animal-drawn conveyance, or other class or kind of nonmotorized traffic that is found to be incompatible with the normal and safe movement of traffic, and, upon such a determination, the department of transportation or local authority shall erect appropriate official signs giving notice thereof; except that, with respect to controlled access highways, section 1010 (3) shall apply. When such official signs are erected, no person shall violate any of the instructions contained thereon.

(12) The parent of any child or guardian of any ward shall not authorize or knowingly permit any child or ward to violate any provision of this section.

109.5. Golf cars and low-speed electric vehicles.

(1) No person shall operate a golf car on any roadway unless the following equipment has been properly installed:

- a. A windshield
- b. Head lamps that comply with C.R.S. § 42-4-205;
- c. Tail lamps and reflectors that comply with C.R.S. § 42-4-206;
- d. Stop lamps and turn signals that comply with C.R.S. § 42-4-208;
- e. A horn or warning device that complies with C.R.S. § 42-4-224; and
- f. Mirrors that comply with C.R.S. § 42-4-226.

(2) No person shall operate a golf car or low-speed electric vehicle on a roadway that has a speed limit in excess of thirty-five miles per hour; except that such vehicles may be operated to directly cross a roadway that has a speed limit in excess of thirty-five miles per hour at an at-grade crossing to continue traveling along a roadway with a speed limit equal to or less than thirty-five miles per hour.

(3) No person shall operate a golf car or low-speed electric vehicle on a limited-access highway.

(4) No person shall operate a golf car or low-speed vehicle on any roadway in excess of twenty-five (25) mph.

(5) No person shall operate a golf car or low-speed vehicle on any roadway unless such person holds a valid driver's license.

(6) No person shall operate a golf car or low-speed vehicle on any roadway if the golf car or low-speed vehicle is carrying a greater number of passengers or greater load than that specified by the manufacturer.

(7) No person shall operate a golf car or low-speed vehicle upon any sidewalk or trail unless such sidewalk or trail is specifically posted for such use.

(8) Golf cars and low-speed vehicles shall be driven in the right-hand lane. When being overtaken by another vehicle, golf cars and low-speed vehicles shall be driven as close to the right-hand as practicable. Where a bicycle lane or paved shoulder suitable for bicycle riding is present, persons operating golf cars or low-speed vehicles shall drive in the bicycle lane or paved shoulder. These provisions apply except under any of the following situations:

- (a) When overtaking and passing a bicycle or vehicle proceeding in the same direction;
- (b) When preparing for a left turn at an intersection or into a private road or driveway;
- (c) When reasonably necessary to avoid hazardous conditions, including, but not limited to, fixed or moving objects, parked or moving vehicles, pedestrians, animals, or surface hazards.

110. Provisions uniform throughout jurisdiction.

(1) The provisions of this Code shall be applicable and uniform throughout this local government.

(2) This local government shall regulate and enforce all traffic and parking restrictions on streets which are state highways as provided in sections 42-4-110 (1)(e) and 43-2-135 (1)(g), C.R.S.

(3) This local government may enact, adopt, or enforce traffic regulations which cover the same subject matter as the various sections of this Code or state law and such additional regulations as are included in section 42-4-111, C.R.S.

(4) The appropriate local court shall have jurisdiction over violations of traffic regulations enacted or adopted by City or Town Council or County Commissioners.

110.5.

111.

112. Noninterference with the rights of owners of realty.

Subject to the exception provided in section 103 (2), nothing in this Code shall be construed to prevent the owner of real property used by the public for purposes of vehicular travel by permission of the owner and not as matter of right from prohibiting such use, or from requiring other or different or additional conditions than those specified in this Code, or from otherwise regulating such use as may seem best to such owner.

113.

114. Removal of traffic hazards.

(1) Local authorities, within their respective jurisdictions, may by written notice sent by certified mail require the owner of real property abutting on the right-of-way of any highway, sidewalk, or other public way to trim or remove, at the expense of said property owner, any tree limb or any shrub, vine, hedge, or other plant which projects beyond the property line of such owner onto or over the public right-of-way and thereby obstructs the view of traffic, obscures any traffic control device, or otherwise constitutes a hazard to drivers or pedestrians.

(2) It is the duty of the property owner to remove any dead, overhanging boughs of trees located on the premises of such property owner that endanger life or property on the public right-of-way.

(3) In the event that any property owner fails or neglects to trim or remove any such tree limb or any such shrub, vine, hedge, or other plant within ten days after receipt of written notice from said local authority to do so, said local authority may do or cause to be done the necessary work incident thereto, and said property owner shall reimburse the state or local authority for the cost of the work performed.

115. (Repealed)

116. Restrictions for minor drivers - definitions.

(1) (a) Except as provided in paragraph (c) of this subsection (1), a minor driver shall not operate a motor vehicle containing a passenger who is under twenty-one years of age and who is not a member of the driver's immediate family until such driver has held a valid driver's license for at least six months.

(b) Except as provided in paragraph (c) of this subsection (1), a minor driver shall not operate a motor vehicle containing more than one passenger who is under twenty-one years of age and who is not a member of the driver's immediate family until such driver has held a valid driver's license for at least one year.

(c) Paragraphs (a) and (b) of this subsection (1) shall not apply if:

(I) The motor vehicle contains the minor's parent or legal guardian or other responsible adult described in section 42-2-108 C.R.S.;

(II) The motor vehicle contains an adult twenty-one years of age or older who currently holds a valid driver's license and has held such license for at least one year;

(III) The passenger who is under twenty-one years of age is in the vehicle on account of a medical emergency;

(IV) All passengers who are under twenty one years of age are members of the driver's immediate family and all such passengers are wearing a seatbelt.

(2) (a) Except as provided in paragraph (b) of this subsection (2), a minor driver shall not operate a motor vehicle between 12 midnight and 5 a.m. until such driver has held a driver's license for at least one year.

(b) This subsection (2) shall not apply if:

(I) The motor vehicle contains the minor's parent or legal guardian or other responsible adult described in section 42-2-108;

(II) The motor vehicle contains an adult twenty-one years of age or older who currently holds a valid driver's license and has held such license for at least one year;

(III) The minor is driving to school or a school-authorized activity when the school does not provide adequate transportation, so long as the driver possesses a signed statement from the school official containing the date the activity will occur;

(IV) The minor is driving on account of employment when necessary, so long as the driver possesses a signed statement from the employer verifying employment;

(V) The minor is driving on account of a medical emergency; or

(VI) The minor is an emancipated minor.

(3) Deleted.

(4) For the purposes of this section:

(a) "Emancipated minor" means an individual under eighteen years of age whose parents or guardian has surrendered parental responsibilities, custody, and the right to the care and earnings of such person, and are no longer under a duty to support such person.

(b) "Minor driver" means a person who is operating a motor vehicle and who is under eighteen years of age.

(5) No driver in a motor vehicle shall be cited for a violation of this section unless such driver was stopped by a law enforcement officer for an alleged violation of Codes 1 to 4 of Title 42, CRS other than a violation of this section.

117. Personal mobility devices.

(1) A rider of an EPAMD shall have all the same rights and duties as an operator of any other vehicle under this Code, except as to those provisions that by their nature have no application.

(2) Unless otherwise prohibited, an EPAMD may be operated on a roadway in conformity with vehicle use.

(3) An EPAMD shall not be operated:

(a) On a limited-access highway;

(b) On a bike or pedestrian path; or

(c) At a speed of greater than twelve and one-half miles per hour.

(4) A person who violates this section commits a class B traffic infraction.

PART 2 EQUIPMENT

201. Obstruction of view or driving mechanism - hazardous situation.

(1) No person shall drive a vehicle when it is so loaded or when there are in the front seat such number of persons, exceeding three, as to obstruct the view of the driver to the front or sides of the vehicle or as to interfere with the driver's control over the driving mechanism of the vehicle.

(2) No person shall knowingly drive a vehicle while any passenger therein is riding in any manner which endangers the safety of such passenger or others.

(3) No person shall drive any motor vehicle equipped with any television viewer, screen, or other means of visually receiving a television broadcast which is located in the motor vehicle at any point forward of the back of the driver's seat or which is visible to the driver while operating the motor vehicle. The provisions of this subsection (3) shall not be interpreted to prohibit the usage of any computer, data terminal, or other similar device in a motor vehicle.

(4) No vehicle shall be operated upon any highway unless the driver's vision through any required glass equipment is normal and unobstructed.

(5) No passenger in a vehicle shall ride in such position as to create a hazard for such passenger or others, or to interfere with the driver's view ahead or to the sides, or to interfere with the driver's control over the driving mechanism of the vehicle; nor shall the driver of a vehicle permit any passenger therein to ride in such manner.

(6) No person shall hang on or otherwise attach himself or herself to the outside, top, hood, or fenders of any vehicle, or to any other portion thereof, other than the specific enclosed portion of such vehicle intended for passengers or while in a sitting position in the cargo area of a vehicle if such area is fully or partially enclosed on all four sides, while the same is in motion; nor shall the operator knowingly permit any person to hang on or otherwise attach himself or herself to the outside, top, hood, or fenders of any vehicle, or any other portion thereof, other than the specific enclosed portion of such vehicle intended for passengers or while in a sitting position in the cargo area of a vehicle if such area is fully or partially enclosed on all four sides, while the same is in motion. This subsection (6) shall not apply to parades, caravans, or exhibitions which are officially authorized or otherwise permitted by law.

(7) The provisions of subsection (6) of this section shall not apply to a vehicle owned by the United States government or any agency or instrumentality thereof, or to a vehicle owned by the state of Colorado or any of its political subdivisions, or to a privately owned vehicle when operating in a governmental capacity under contract with or permit from any governmental subdivision or under permit issued by the public utilities commission of the state of Colorado, when in the performance of their duties persons are required to stand or sit on the exterior of the vehicle and said vehicle is equipped with adequate handrails and safeguards.

(8) Deleted.

202. Unsafe vehicles - penalty – identification plates.

(1) It is unlawful for any person to drive or move or for the owner to cause or knowingly permit to be driven or moved on any highway any vehicle or combination of vehicles which is in such unsafe condition as to endanger any person, or which does not contain those parts or is not at all times equipped with such lamps and other equipment in proper condition and adjustment as

required in this section and sections 204 to 231 and part 3 of this Code, or which is equipped in any manner in violation of said sections and part 3 or for any person to do any act forbidden or fail to perform any act required under said sections and part 3.

(2) The provisions of this section and sections 204 to 231 and part 3 of this Code with respect to equipment on vehicles shall not apply to implements of husbandry or farm tractors, except as made applicable in said sections and part 3.

(3) Nothing in this Code shall be construed to prohibit the use of additional parts and accessories on any vehicle, consistent with the provisions of this Code.

(4) Deleted.

203. Unsafe vehicles - spot inspections.

(1) Uniformed police officers, at any time upon reasonable cause, may require the driver of a vehicle to stop and submit such vehicle and its equipment to an inspection and such test with reference thereto as may be appropriate. The fact that a vehicle is an older model vehicle shall not alone constitute reasonable cause. In the event such vehicle is found to be in an unsafe condition or the required equipment is not present or is not in proper repair and adjustment, the officer may give a written notice and issue a summons to the driver. Said notice shall require that such vehicle be placed in safe condition and properly equipped or that its equipment be placed in proper repair and adjustment, the particulars of which shall be specified on said notice.

(2) In the event any such vehicle is, in the reasonable judgment of such police officer, in such condition that further operation would be hazardous, the officer may require, in addition to the instructions set forth in subsection (1) of this section, that the vehicle be moved at the operator's expense and not operated under its own power or that it be driven to the nearest garage or other place of safety.

(3) Every owner or driver upon receiving the notice and summons issued pursuant to subsection (1) of this section shall secure a certification by a law enforcement officer that such vehicle is in safe condition and its equipment has been placed in proper repair and adjustment and otherwise made to conform to the requirements of this Code. Said certification shall be returned to the owner or driver for presentation in court.

(4) Deleted.

204. When lighted lamps are required.

(1) Every vehicle upon a highway within this state, between sunset and sunrise and at any other time when, due to insufficient light or unfavorable atmospheric conditions, persons and vehicles on the highway are not clearly discernible at a distance of one thousand feet ahead, shall display lighted lamps and illuminating devices as required by this Code for different classes of vehicles, subject to exceptions with respect to parked vehicles.

(2) Whenever requirement is declared by this Code as to distance from which certain lamps and devices shall render objects visible or within which such lamps or devices shall be visible, said provisions shall apply during the times stated in subsection (1) of this section in respect to a vehicle without load when upon a straight, level, unlighted highway under normal atmospheric conditions, unless a different time or condition is expressly stated.

(3) Whenever requirement is declared by this Code as to the mounted height of lamps or devices, it shall mean from the center of such lamp or device to the level ground upon which the vehicle stands when such vehicle is without a load.

(4) Deleted.

205. Head lamps on motor vehicles.

(1) Every motor vehicle other than a motorcycle shall be equipped with at least two head lamps with at least one on each side of the front of the motor vehicle, which head lamps shall comply with the requirements and limitations set forth in sections 202 and 204 to 231 and part 3 of this Code where applicable.

(2) Every motorcycle shall be equipped with at least one and not more than two head lamps that shall comply with the requirements and limitations of sections 202 and 204 to 231 and part 3 of this Code where applicable.

(3) Every head lamp upon every motor vehicle, including every motorcycle, shall be located at a height measured from the center of the head lamp of not more than fifty-four inches nor less than twenty-four inches, to be measured as set forth in section 204 (3).

(4) Deleted.

206. Tail lamps and reflectors.

(1) Every motor vehicle, trailer, semitrailer, and pole trailer and any other vehicle which is being drawn at the end of a train of vehicles shall be equipped with at least one tail lamp mounted on the rear, which, when lighted as required in section 204, shall emit a red light plainly visible from a distance of five hundred feet to the rear; except that, in the case of a train of vehicles, only the tail lamp on the rear-most vehicle need actually be seen from the distance specified, and except as provided in section 215.5. Furthermore, every such vehicle registered in this state and manufactured or assembled after January 1, 1958, shall be equipped with at least two tail lamps mounted on the rear, on the same level and as widely spaced laterally as practicable, which, when lighted as required in section 204, shall comply with the provisions of this section.

(2) Every tail lamp upon every vehicle shall be located at a height of not more than seventy-two inches nor less than twenty inches, to be measured as set forth in section 204 (3).

(3) Either a tail lamp or a separate lamp shall be so constructed and placed as to illuminate with a white light the rear registration plate and render it clearly legible from a distance of fifty feet to the rear. Any tail lamp, together with any separate lamp for illuminating the rear registration plate, shall be so wired as to be lighted whenever the head lamps or auxiliary driving lamps are lighted.

(4) Every motor vehicle operated on and after January 1, 1958, upon a highway in the state of Colorado shall carry on the rear, either as part of a tail lamp or separately, one red reflector meeting the requirements of this section; except that vehicles of the type mentioned in section 207 shall be equipped with reflectors as required in those sections applicable thereto and except as provided in section 215.5.

(5) Every new motor vehicle sold and operated on and after January 1, 1958, upon a highway shall carry on the rear, whether as a part of the tail lamps or separately, two red reflectors; except that every motorcycle shall carry at least one reflector meeting the requirements of this section, and vehicles of the type mentioned in section 207 shall be equipped with reflectors as required in those sections applicable thereto.

(6) Every reflector shall be mounted on the vehicle at a height of not less than twenty inches nor more than sixty inches, measured as set forth in section 204 (3) and shall be of such size and characteristics and so mounted as to be visible at night from all distances within three hundred fifty feet to one hundred feet from such vehicle when directly in front of lawful upper

beams and head lamps; except that visibility from a greater distance is required by law of reflectors on certain types of vehicles.

(7) Deleted.

207. Clearance and identification.

(1) Every vehicle designed or used for the transportation of property or for the transportation of persons shall display lighted lamps at the times mentioned in section 204 when and as required in this section.

(2) Clearance lamps.

(a) Every motor vehicle or motor-drawn vehicle having a width at any part in excess of eighty inches shall be equipped with four clearance lamps located as follows:

(I) Two on the front and one at each side, displaying an amber light visible from a distance of five hundred feet to the front of the vehicle;

(II) Two on the rear and one at each side, displaying a red light visible only to the rear and visible from a distance of five hundred feet to the rear of the vehicle, which said rear clearance lamps shall be in addition to the rear red lamp required in section 206.

(b) All clearance lamps required shall be placed on the extreme sides and located on the highest stationary support; except that, when three or more identification lamps are mounted on the rear of a vehicle on the vertical center line and at the extreme height of the vehicle, rear clearance lamps may be mounted at optional height.

(c) Any trailer, when operated in conjunction with a vehicle which is properly equipped with front clearance lamps as provided in this section, may be, but is not required to be, equipped with front clearance lamps if the towing vehicle is of equal or greater width than the towed vehicle.

(d) All clearance lamps required in this section shall be of a type approved by the department of revenue.

(3) **Side marker lamps.**

(a) Every motor vehicle or motor-drawn vehicle or combination of such vehicles which exceeds thirty feet in overall length shall be equipped with four side marker lamps located as follows:

(I) One on each side near the front displaying an amber light visible from a distance of five hundred feet to the side of the vehicle on which it is located;

(II) One on each side near the rear displaying a red light visible from a distance of five hundred feet to the side of the vehicle on which it is located; but the rear marker light shall not be so placed as to be visible from the front of the vehicle.

(b) Each side marker lamp required shall be located not less than fifteen inches above the level on which the vehicle stands.

(c) If the clearance lamps required by this section are of such a design as to display lights visible from a distance of five hundred feet at right angles to the sides of the vehicles, they shall be deemed to meet the requirements as to marker lamps in this subsection (3).

(d) All marker lamps required in this section shall be of a type approved by the department of revenue.

(4) **Clearance reflectors.**

(a) Every motor vehicle having a width at any part in excess of eighty inches shall be equipped with clearance reflectors located as follows:

(I) Two red reflectors on the rear and one at each side, located not more than one inch from the extreme outside edges of the vehicle;

(II) All such reflectors shall be located not more than sixty inches nor less than fifteen inches above the level on which the vehicle stands.

(b) One or both of the required rear red reflectors may be incorporated within the tail lamp or tail lamps if any such tail lamps meet the location limits specified for reflectors.

(c) All such clearance reflectors shall be of a type approved by the department of revenue.

(5) Side marker reflectors.

(a) Every motor vehicle or motor-drawn vehicle or combination of vehicles which exceeds thirty feet in overall length shall be equipped with four side marker reflectors located as follows:

(I) One amber reflector on each side near the front;

(II) One red reflector on each side near the rear.

(b) Each side marker reflector shall be located not more than sixty inches nor less than fifteen inches above the level on which the vehicle stands.

(c) All such side marker reflectors shall be of a type approved by the department of revenue.

(6) Deleted.

(7) Nothing in this section shall be construed to supersede any federal motor vehicle safety standard established pursuant to the "National Traffic and Motor Vehicle Safety Act of 1966", Public Law 89-563, as amended.

208. Stop lamps and turn signals.

(1) Every motor vehicle or motor-drawn vehicle shall be equipped with a stop light in good working order at all times and shall meet the requirements of section 215 (1).

2) No person shall sell or offer for sale or operate on the highways any motor vehicle registered in this state and manufactured or assembled after January 1, 1958, unless it is equipped with at least two stop lamps meeting the requirements of section 215 (1); except that a motorcycle manufactured or assembled after said date shall be equipped with at least one stop lamp meeting the requirements of section 215 (1).

(3) No person shall sell or offer for sale or operate on the highways any motor vehicle, trailer, or semitrailer registered in this state and manufactured or assembled after January 1, 1958, and no person shall operate any motor vehicle, trailer, or semitrailer on the highways when the distance from the center of the top of the steering post to the left outside limit of the body, cab, or load of such motor vehicle exceeds twenty-four inches, unless it is equipped with electrical turn signals meeting the requirements of section 215 (2). This subsection (3) shall not apply to any motorcycle or low-power scooter.

4) Deleted.

209. Lamp or flag on projecting load.

Whenever the load upon any vehicle extends to the rear four feet or more beyond the bed or body of such vehicle, there shall be displayed at the extreme rear end of the load, at the time specified in section 204, a red light or lantern plainly visible from a distance of at least five hundred feet to the sides and rear. The red light or lantern required under this section shall be in addition to the red rear light required upon every vehicle. At any other time, there shall be displayed at the extreme rear end of such load a red flag or cloth not less than twelve inches

square and so hung that the entire area is visible to the driver of a vehicle approaching from the rear.

210. Lamps on parked vehicles.

(1) Whenever a vehicle is lawfully parked upon a highway during the hours between sunset and sunrise and in the event there is sufficient light to reveal any person or object within a distance of one thousand feet upon such highway, no lights need be displayed upon such parked vehicle.

(2) Whenever a vehicle is parked or stopped upon a roadway or shoulder adjacent thereto, whether attended or unattended, during the hours between sunset and sunrise and there is not sufficient light to reveal any person or object within a distance of one thousand feet upon such highway, such vehicle so parked or stopped shall be equipped with one or more operating lamps meeting the following requirements: At least one lamp shall display a white or amber light visible from a distance of five hundred feet to the front of the vehicle, and the same lamp or at least one other lamp shall display a red light visible from a distance of five hundred feet to the rear of the vehicle, and the location of said lamp or lamps shall always be such that at least one lamp or combination of lamps meeting the requirements of this section is installed as near as practicable to the side of the vehicle that is closer to passing traffic. This subsection (2) shall not apply to a low-power scooter.

(3) Any lighted head lamps upon a parked vehicle shall be depressed or dimmed.

(4) Deleted.

(5) This section shall not apply to low-speed electric vehicles.

211. Lamps on farm equipment and other vehicles and equipment.

(1) Every farm tractor and every self-propelled farm equipment unit or implement of husbandry not equipped with an electric lighting system shall, at all times mentioned in section 204, be equipped with at least one lamp displaying a white light visible from a distance of not less than five hundred feet to the front of such vehicle and shall also be equipped with at least one lamp displaying a red light visible from a distance of not less than five hundred feet to the rear of such vehicle.

(2) Every self-propelled unit of farm equipment not equipped with an electric lighting system shall, at all times mentioned in section 204, in addition to the lamps required in subsection (1) of this section, be equipped with two red reflectors visible from all distances within six hundred feet to one hundred feet to the rear when directly in front of lawful upper beams of head lamps.

(3) Every combination of farm tractor and towed unit of farm equipment or implement of husbandry not equipped with an electric lighting system shall, at all times mentioned in section 204, be equipped with the following lamps:

(a) At least one lamp mounted to indicate as nearly as practicable to the extreme left projection of said combination and displaying a white light visible from a distance of not less than five hundred feet to the front of said combination;

(b) Two lamps each displaying a red light visible when lighted from a distance of not less than five hundred feet to the rear of said combination or, as an alternative, at least one lamp displaying a red light visible from a distance of not less than five hundred feet to the rear thereof and two red reflectors visible from all distances within six hundred feet to one hundred feet to the rear thereof when illuminated by the upper beams of head lamps.

(4) Every farm tractor and every self-propelled unit of farm equipment or implement of husbandry equipped with an electric lighting system shall, at all times mentioned in section 204, be equipped with two single-beam head lamps meeting the requirements of section 216 or 218, respectively, and at least one red lamp visible from a distance of not less than five hundred feet to the rear; but every such self-propelled unit of farm equipment other than a farm tractor shall have two such red lamps or, as an alternative, one such red lamp and two red reflectors visible from all distances within six hundred feet to one hundred feet when directly in front of lawful upper beams of head lamps.

(5) (a) Every combination of farm tractor and towed farm equipment or towed implement of husbandry equipped with an electric lighting system shall, at all times mentioned in section 204, be equipped with lamps as follows:

(I) The farm tractor element of every such combination shall be equipped as required in subsection (4) of this section.

(II) The towed unit of farm equipment or implement of husbandry element of such combination shall be equipped with two red lamps visible from a distance of not less than five hundred feet to the rear or, as an alternative, two red reflectors visible from all distances within six hundred feet to the rear when directly in front of lawful upper beams of head lamps.

(b) Said combinations shall also be equipped with a lamp displaying a white or amber light, or any shade of color between white and amber, visible from a distance of not less than five hundred feet to the front and a lamp displaying a red light visible when lighted from a distance of not less than five hundred feet to the rear.

(6) The lamps and reflectors required in this section shall be so positioned as to show from front and rear as nearly as practicable the extreme projection of the vehicle carrying them on the side of the roadway used in passing such vehicle. If a farm tractor or a unit of farm equipment, whether self-propelled or towed, is equipped with two or more lamps or reflectors visible from the front or two or more lamps or reflectors visible from the rear, such lamps or reflectors shall be so positioned that the extreme projections, both to the right and to the left of said vehicle, shall be indicated as nearly as practicable.

(7) Every vehicle, including animal-drawn vehicles and vehicles referred to in section 202 (2), not specifically required by the provisions of this Code to be equipped with lamps or other lighting devices shall at all times specified in section 204 be equipped with at least one lamp displaying a white light visible from a distance of not less than five hundred feet to the front of said vehicle and shall also be equipped with two lamps displaying red lights visible from a distance of not less than five hundred feet to the rear of said vehicle or, as an alternative, one lamp displaying a red light visible from a distance of not less than five hundred feet to the rear and two red reflectors visible for distances of one hundred feet to six hundred feet to the rear when illuminated by the upper beams of head lamps.

(8) Deleted.

212. Spot lamps and auxiliary lamps.

(1) Any motor vehicle may be equipped with not more than two spot lamps, and every lighted spot lamp shall be so aimed and used upon approaching another vehicle that no part of the high intensity portion of the beam will be directed to the left of the prolongation of the extreme left side of the vehicle nor more than one hundred feet ahead of the vehicle.

(2) Any motor vehicle may be equipped with not more than two fog lamps mounted on the front at a height of not less than twelve inches nor more than thirty inches above the level

surface upon which the vehicle stands and so aimed that, when the vehicle is not loaded, none of the high-intensity portion of the light to the left of the center of the vehicle shall at a distance of twenty-five feet ahead project higher than a level of four inches below the level of the center of the lamp from which it comes. Lighted fog lamps meeting the requirements of this subsection (2) may be used with lower head-lamp beams as specified in section 216 (1) (b).

(3) Any motor vehicle may be equipped with not more than two auxiliary passing lamps mounted on the front at a height of not less than twenty inches nor more than forty-two inches above the level surface upon which the vehicle stands. The provisions of section 216 shall apply to any combination of head lamps and auxiliary passing lamps.

(4) Any motor vehicle may be equipped with not more than two auxiliary driving lamps mounted on the front at a height of not less than sixteen inches nor more than forty-two inches above the level surface upon which the vehicle stands. The provisions of section 216 shall apply to any combination of head lamps and auxiliary driving lamps.

(5) Deleted.

213. Audible and visual signals on emergency vehicles.

(1) Except as otherwise provided in this section or in section 222 in the case of volunteer fire vehicles and volunteer ambulances, every authorized emergency vehicle shall, in addition to any other equipment and distinctive markings required by this Code, be equipped as a minimum with a siren and a horn. Such devices shall be capable of emitting a sound audible under normal conditions from a distance of not less than five hundred feet.

(2) Every authorized emergency vehicle, except those used as undercover vehicles by governmental agencies, shall, in addition to any other equipment and distinctive markings required by this Code, be equipped with at least one signal lamp mounted as high as practicable, which shall be capable of displaying a flashing, oscillating, or rotating red light to the front and to the rear having sufficient intensity to be visible at five hundred feet in normal sunlight. In addition to the required red light, flashing, oscillating, or rotating signal lights may be used which emit blue, white, or blue in combination with white.

(3) A police vehicle, when used as an authorized emergency vehicle, may but need not be equipped with the red lights specified in this section.

(4) Any authorized emergency vehicle, including those authorized by section 222, may be equipped with green flashing lights, mounted at sufficient height and having sufficient intensity to be visible at five hundred feet in all directions in normal daylight. Such lights may only be used at the single designated command post at any emergency location or incident and only when such command post is stationary. The single command post shall be designated by the on-scene incident commander in accordance with local or state government emergency plans. Any other use of a green light by a vehicle shall constitute a violation of this section.

(5) The use of either the audible or the visual signal equipment described in this section shall impose upon drivers of other vehicles the obligation to yield right-of-way and stop as prescribed in section 705.

(6) Deleted.

214. Visual signals on service vehicles.

(1) Except as otherwise provided in this section, on or after January 1, 1978, every authorized service vehicle shall, in addition to any other equipment required by this Code, be equipped with one or more warning lamps mounted as high as practicable, which shall be capable

of displaying in all directions one or more flashing, oscillating, or rotating yellow lights. Only yellow and no other color or combination of colors shall be used as a warning lamp on an authorized service vehicle; except that an authorized service vehicle snowplow operated by a general purpose government may also be equipped with and use no more than two flashing, oscillating, or rotating blue lights as warning lamps. Lighted directional signs used by police and highway departments to direct traffic need not be visible except to the front and rear. Such lights shall have sufficient intensity to be visible at five hundred feet in normal sunlight.

(2) The warning lamps authorized in subsection (1) of this section shall be activated by the operator of an authorized service vehicle only when the vehicle is operating upon the roadway so as to create a hazard to other traffic. The use of such lamps shall not relieve the operator from the duty of using due care for the safety of others or from the obligation of using any other safety equipment or protective devices that are required by this Code. Service vehicles authorized to operate also as emergency vehicles shall also be equipped to comply with signal requirements for emergency vehicles.

(3) Whenever an authorized service vehicle is performing its service function and is displaying lights as authorized in subsection (1) of this section, drivers of all other vehicles shall exercise more than ordinary care and caution in approaching, overtaking, or passing such service vehicle and, in the case of highway and traffic maintenance equipment engaged in work upon the highway, shall comply with the instructions of section 712.

(4) On or after January 1, 1978, only authorized service vehicles shall be equipped with the warning lights authorized in subsection (1) of this section.

(5) The department of transportation shall determine by rule which types of vehicles render an essential public service when operating on or along a roadway and warrant designation as authorized service vehicles under specified conditions, including, without limitation, vehicles that sell or apply chains or other equipment to motor vehicles necessary to enable compliance with section 106.

(6) Deleted.

215. Signal lamps and devices – additional lighting equipment.

(1) Any motor vehicle may be equipped, and when required under this Code shall be equipped, with a stop lamp or lamps on the rear of the vehicle which, except as provided in section 215.5, shall display a red or amber light, or any shade of color between red and amber, visible from a distance of not less than one hundred feet to the rear in normal sunlight, and which shall be actuated upon application of the service (foot) brake, and which may but need not be incorporated with one or more other rear lamps. Such stop lamp or lamps may also be automatically actuated by a mechanical device when the vehicle is reducing speed or stopping. If two or more stop lamps are installed on any motor vehicle, any device actuating such lamps shall be so designed and installed that all stop lamps are actuated by such device.

(2) Any motor vehicle may be equipped, and when required under this Code shall be equipped, with lamps showing to the front and rear for the purpose of indicating an intention to turn either to the right or to the left. Such lamps showing to the front shall be located on the same level and as widely spaced laterally as practicable and when in use shall display a white or amber light, or any shade of color between white and amber, visible from a distance of not less than one hundred feet to the front in normal sunlight, and the lamps showing to the rear shall be located at the same level and as widely spaced laterally as practicable and, except as provided in section 215.5, when in use shall display a red or amber light, or any shade of color between red and

amber, visible from a distance of not less than one hundred feet to the rear in normal sunlight. When actuated, such lamps shall indicate the intended direction of turning by flashing the light showing to the front and rear on the side toward which the turn is made.

(3) No stop lamp or signal lamp shall project a glaring or dazzling light.

(4) Any motor vehicle may be equipped with not more than two side cowl or fender lamps which shall emit an amber or white light without glare.

(5) Any motor vehicle may be equipped with not more than one runningboard courtesy lamp on each side thereof, which shall emit a white or amber light without glare.

(6) Any motor vehicle may be equipped with not more than two back-up lamps either separately or in combination with other lamps, but no such back-up lamp shall be lighted when the motor vehicle is in forward motion.

(7) Any vehicle may be equipped with lamps which may be used for the purpose of warning the operators of other vehicles of the presence of a vehicular traffic hazard requiring the exercise of unusual care in approaching, overtaking, or passing and, when so equipped and when the said vehicle is not in motion or is being operated at a speed of twenty-five miles per hour or less and at no other time, may display such warning in addition to any other warning signals required by this Code. The lamps used to display such warning to the front shall be mounted at the same level and as widely spaced laterally as practicable and shall display simultaneously flashing white or amber lights, or any shade of color between white and amber. The lamps used to display such warning to the rear shall be mounted at the same level and as widely spaced laterally as practicable and, except as provided in section 215.5, shall show simultaneously flashing amber or red lights, or any shade of color between amber and red. These warning lights shall be visible from a distance of not less than five hundred feet under normal atmospheric conditions at night.

(8) Any vehicle eighty inches or more in overall width may be equipped with not more than three identification lamps showing to the front which shall emit an amber light without glare and not more than three identification lamps showing to the rear which shall emit a red light without glare. Such lamps shall be mounted horizontally.

(9) Deleted.

215.5. Signal lamps and devices – street rod vehicles and custom motor vehicles.

(1) As used in this section, unless the context otherwise requires:

(a) “Blue dot tail light” means a red lamp installed in the rear of a motor vehicle containing a blue or purple insert that is not more than one inch in diameter.

(b) Repealed.

(2) A street rod vehicle or custom motor vehicle may use blue dot tail lights for stop lamps, rear turning indicator lamps, rear hazard lamps, and rear reflectors. Such lamps shall comply with all requirements provided in this Code other than color requirements.

216. Multiple-beam road lights.

(1) Except as provided in this Code, the head lamps or the auxiliary driving lamp or the auxiliary passing lamp or combination thereof on motor vehicles, other than motorcycles or low-power scooters, shall be so arranged that the driver may select at will between distributions of light projected to different elevations, and such lamps may, in addition, be so arranged that such selection can be made automatically, subject to the following limitations:

(a) There shall be an uppermost distribution of light or composite beam so aimed and of such intensity as to reveal persons and vehicles at a distance of at least three hundred fifty feet ahead for all conditions of loading.

(b) There shall be a lowermost distribution of light or composite beam so aimed and of sufficient intensity to reveal persons and vehicles at a distance of at least one hundred feet ahead; and on a straight level road under any condition of loading, none of the high-intensity portion of the beam shall be directed to strike the eyes of an approaching driver.

(1.5) Head lamps arranged to provide a single distribution of light not supplemented by auxiliary driving lamps shall be permitted for low-speed electric vehicles in lieu of multiple beam, road-lighting equipment specified in this section if the single distribution of light complies with paragraph (b) of subsection (1) of this section.

(2) A new motor vehicle, other than a motorcycle or low-power scooter, that has multiple beam road-lighting equipment, shall be equipped with a beam indicator, which shall be lighted whenever the uppermost distribution of light from the head lamps is in use and shall not otherwise be lighted. Said indicator shall be so designed and located that when lighted it will be readily visible without glare to the driver of the vehicle so equipped.

(3) Deleted.

217. Use of multiple-beam lights.

(1) Whenever a motor vehicle is being operated on a roadway or shoulder adjacent thereto during the times specified in section 204, the driver shall use a distribution of light, or composite beam, directed high enough and of sufficient intensity to reveal persons and vehicles at a safe distance in advance of the vehicle, subject to the following requirements and limitations:

(a) Whenever a driver of a vehicle approaches an oncoming vehicle within five hundred feet, such driver shall use a distribution of light or composite beam so aimed that the glaring rays are not projected into the eyes of the oncoming driver. The lowermost distribution of light or composite beam specified in section 216 (1)(b) shall be deemed to avoid glare at all times, regardless of road contour and loading.

(b) Whenever the driver of a vehicle follows another vehicle within two hundred feet to the rear, except when engaged in the act of overtaking and passing, such driver shall use a distribution of light permissible under this title other than the uppermost distribution of light specified in section 216 (1) (a).

(c) A low-speed electric vehicle may use the distribution of light authorized in section 216 (1.5).

(2) Deleted.

218. Single-beam road-lighting equipment.

(1) Head lamps arranged to provide a single distribution of light not supplemented by auxiliary driving lamps shall be permitted on motor vehicles manufactured and sold prior to July 15, 1936, in lieu of multiple-beam road-lighting equipment specified in section 216 if the single distribution of light complies with the following requirements and limitations:

(a) The head lamps shall be so aimed that when the vehicle is not loaded none of the high intensity portion of the light shall, at a distance of twenty-five feet ahead, project higher than a level of five inches below the level of the center of the lamp from which it comes and in no case higher than forty-two inches above the level on which the vehicle stands at a distance of seventy-five feet ahead.

(b) The intensity shall be sufficient to reveal persons and vehicles at a distance of at least two hundred feet.

(2) Deleted.

219. Number of lamps permitted.

Whenever a motor vehicle equipped with head lamps as required in this Code is also equipped with any auxiliary lamps or a spot lamp or any other lamp on the front thereof projecting a beam of an intensity greater than three hundred candlepower, not more than a total of four of any such lamps on the front of a vehicle shall be lighted at any one time when upon a highway.

220. Low-power scooters – lighting equipment - department control - use and operation.

(1) (a) A low-power scooter when in use at the times specified in section 204 shall be equipped with a lamp on the front that shall emit a white light visible from a distance of at least five hundred feet to the front and with a red reflector on the rear, of a type approved by the department, that shall be visible from all distances from fifty feet to three hundred feet to the rear when directly in front of lawful upper beams of head lamps on a motor vehicle. A lamp emitting a red light visible from a distance of five hundred feet to the rear may be used in addition to the red reflector.

(b) No person shall operate a low-power scooter unless it is equipped with a bell or other device capable of giving a signal audible for a distance of at least one hundred feet; except that a low-power scooter shall not be equipped with nor shall any person use upon a low-power scooter a siren or whistle.

(c) A low-power scooter shall be equipped with a brake that will enable the operator to make the braked wheels skid on dry, level, clean pavement.

(2) (Deleted by amendment, L. 2009, (HB09-1026), ch. 281, p. 1274, § 44, effective October 1, 2009.)

(3) (a) Any lighted lamp or illuminating device upon a motor vehicle, other than head lamps, spot lamps, auxiliary lamps, flashing turn signals, emergency vehicle warning lamps, and school bus warning lamps, which projects a beam of light of an intensity greater than three hundred candlepower shall be so directed that no part of the high-intensity portion of the beam will strike the level of the roadway on which the vehicle stands at a distance of more than seventy-five feet from the vehicle.

(b) Repealed.

(c) This subsection (3) shall not be construed to prohibit the use on any vehicle of simultaneously flashing hazard warning lights as provided by section 215 (7).

(4) No person shall have for sale, sell, or offer for sale, for use upon or as a part of the equipment of a motor vehicle, trailer, or semitrailer or for use upon any such vehicle, any head lamp, auxiliary or fog lamp, rear lamp, signal lamp, or reflector, which reflector is required under this Code, or parts of any of the foregoing which tend to change the original design or performance thereof, unless of a type which has been approved by the department of revenue.

(5) No person shall have for sale, sell, or offer for sale, for use upon or as a part of the equipment of a motor vehicle, trailer, or semitrailer, any lamp or device mentioned in this section which has been approved by the department unless such lamp or device bears thereon the trademark or name under which it is approved so as to be legible when installed.

(6) No person shall use upon any motor vehicle, trailer, or semitrailer any lamps mentioned in this section unless said lamps are mounted, adjusted, and aimed in accordance with instructions of the department of revenue.

(7) Deleted.

221. Bicycle and personal mobility device equipment.

(1) No other provision of this part 2 and no provision of part 3 of this Code shall apply to a bicycle, electrical assisted bicycle, or EPAMD or to equipment for use on a bicycle, electrical assisted bicycle, or EPAMD except those provisions in this Code made specifically applicable to such a vehicle.

(2) Every bicycle, electrical assisted bicycle, or EPAMD in use at the times described in section 204 shall be equipped with a lamp on the front emitting a white light visible from a distance of at least five hundred feet to the front.

(3) Every bicycle, electrical assisted bicycle, or EPAMD shall be equipped with a red reflector of a type approved by the department, which shall be visible for six hundred feet to the rear when directly in front of lawful lower beams of head lamps on a motor vehicle.

(4) Every bicycle, electrical assisted bicycle, or EPAMD when in use at the times described in section 204 shall be equipped with reflective material of sufficient size and reflectivity to be visible from both sides for six hundred feet when directly in front of lawful lower beams of head lamps on a motor vehicle or, in lieu of such reflective material, with a lighted lamp visible from both sides from a distance of at least five hundred feet.

(5) A bicycle, electrical assisted bicycle, or EPAMD or its rider may be equipped with lights or reflectors in addition to those required by subsections (2) to (4) of this section.

(6) A bicycle or electrical assisted bicycle shall not be equipped with, nor shall any person use upon a bicycle or electrical assisted bicycle, any siren or whistle.

(7) Every bicycle or electrical assisted bicycle shall be equipped with a brake or brakes that will enable its rider to stop the bicycle or electrical assisted bicycle within twenty-five feet from a speed of ten miles per hour on dry, level, clean pavement.

(8) A person engaged in the business of selling bicycles or electrical assisted bicycles at retail shall not sell any bicycle or electrical assisted bicycle unless the bicycle or electrical assisted bicycle has an identifying number permanently stamped or cast on its frame.

(9) Deleted.

222. Volunteer firefighters – volunteer ambulance attendants - special lights and alarm systems.

(1) (a) All members of volunteer fire departments regularly attached to the fire departments organized within incorporated towns, counties, cities, and fire protection districts and all members of a volunteer ambulance service regularly attached to a volunteer ambulance service within an area that the ambulance service would be reasonably expected to serve may have their private automobiles equipped with a signal lamp or a combination of signal lamps capable of displaying flashing, oscillating, or rotating red lights visible to the front and rear at five hundred feet in normal sunlight. In addition to the red light, flashing, oscillating, or rotating signal lights may be used that emit white or white in combination with red lights. At least one of such signal lamps or combination of signal lamps shall be mounted on the top of the automobile. Said automobiles may be equipped with audible signal systems such as sirens, whistles, or bells. Said lights, together with any signal systems authorized by this subsection (1), may be used only

as authorized by subsection (3) of this section or when a member of a fire department is responding to or attending a fire alarm or other emergency or when a member of an ambulance service is responding to an emergency requiring the member's services. Except as authorized in subsection (3) of this section, neither such lights nor such signals shall be used for any other purpose than those set forth in this subsection (1). If used for any other purpose, such use shall constitute a violation of this subsection (1), and the violator commits a class B traffic infraction.

(b) Notwithstanding the provisions of paragraph (a) of this subsection (1), a member of a volunteer fire department or a volunteer ambulance service may equip his or her private automobile with the equipment described in paragraph (a) of this subsection (1) only after receiving a permit for the equipment from the fire chief of the fire department or chief executive officer of the ambulance service through which the volunteer serves.

(2) (Deleted by amendment, L. 96, p. 957, §3, effective July 1, 1996.)

(3) A fire engine collector or member of a fire department may use the signal system authorized by subsection (1) of this section in a funeral, parade, or for other special purposes if the circumstances would not lead a reasonable person to believe that such vehicle is responding to an actual emergency.

223. Brakes.

(1) Brake equipment required:

(a) Every motor vehicle, other than a motorcycle, when operated upon a highway shall be equipped with brakes adequate to control the movement of and to stop and hold such vehicle, including two separate means of applying the brakes, each of which means shall be effective to apply the brakes to at least two wheels. If these two separate means of applying the brakes are connected in any way, they shall be so constructed that failure of any one part of the operating mechanism shall not leave the motor vehicle without brakes on at least two wheels.

(b) Every motorcycle and low-power scooter, when operated upon a highway, shall be equipped with at least one brake, which may be operated by hand or foot.

(c) Every trailer or semitrailer of a gross weight of three thousand pounds or more, when operated upon a highway, shall be equipped with brakes adequate to control the movement of and to stop and to hold such vehicle and so designed as to be applied by the driver of the towing motor vehicle from the cab, and said brakes shall be so designed and connected that in case of an accidental breakaway of the towed vehicle the brakes shall be automatically applied. The provisions of this paragraph (c) shall not be applicable to any trailer which does not meet the definition of "commercial vehicle" as that term is defined in section 235 (1) (a) and which is owned by a farmer when transporting agricultural products produced on the owner's farm or supplies back to the farm of the owner of the trailer, tank trailers not exceeding ten thousand pounds gross weight used solely for transporting liquid fertilizer or gaseous fertilizer under pressure, or distributor trailers not exceeding ten thousand pounds gross weight used solely for transporting and distributing dry fertilizer when hauled by a truck capable of stopping within the distance specified in subsection (2) of this section.

(d) Every motor vehicle, trailer, or semitrailer constructed or sold in this state or operated upon the highways shall be equipped with service brakes upon all wheels of every such vehicle; except that:

(I) Any trailer or semitrailer of less than three thousand pounds gross weight, or any horse trailer of a capacity of two horses or less, or any trailer which does not meet the definition of

“commercial vehicle” as that term is defined in section 235 (1) (a) and which is owned by a farmer when transporting agricultural products produced on the owner’s farm or supplies back to the farm of the owner of the trailer, or tank trailers not exceeding ten thousand pounds gross weight used solely for transporting liquid fertilizer or gaseous fertilizer under pressure, or distributor trailers not exceeding ten thousand pounds gross weight used solely for transporting and distributing dry fertilizer when hauled by a truck capable of stopping with loaded trailer attached in the distance specified by subsection (2) of this section need not be equipped with brakes, and any two-wheel motor vehicle need have brakes on only one wheel.

(II) Any truck or truck tractor, manufactured before July 25, 1980, and having three or more axles, need not have brakes on the wheels of the front or tandem steering axles if the brakes on the other wheels meet the performance requirements of subsection (2) of this section.

(III) Every trailer or semitrailer of three thousand pounds or more gross weight must have brakes on all wheels.

(e) Provisions of this subsection (1) shall not apply to manufactured homes.

(2) Performance ability of brakes:

(a) The service brakes upon any motor vehicle or combination of vehicles shall be adequate to stop such vehicle when traveling twenty miles per hour within a distance of forty feet when upon dry asphalt or concrete pavement surface free from loose material where the grade does not exceed one percent.

(b) Under the conditions stated in paragraph (a) of this subsection (2), the hand brakes shall be adequate to stop such vehicle within a distance of fifty-five feet, and said hand brake shall be adequate to hold such vehicle stationary on any grade upon which operated.

(c) Under the conditions stated in paragraph (a) of this subsection (2), the service brakes upon a motor vehicle equipped with two-wheel brakes only, when permitted under this section, shall be adequate to stop the vehicle within a distance of fifty-five feet.

(d) All braking distances specified in this section shall apply to all vehicles mentioned, whether such vehicles are not loaded or are loaded to the maximum capacity permitted under this title.

(e) All brakes shall be maintained in good working order and shall be so adjusted as to operate as equally as possible with respect to the wheels on opposite sides of the vehicle.

(2.5) The department of public safety is specifically authorized to adopt rules relating to the use of surge brakes.

(3) Deleted.

224. Horns or warning devices.

(1) Every motor vehicle, when operated upon a highway, shall be equipped with a horn in good working order and capable of emitting sound audible under normal conditions from a distance of not less than two hundred feet, but no horn or other warning device shall emit an unreasonably loud or harsh sound, except as provided in section 213(1) in the case of authorized emergency vehicles or as provided in section 222. The driver of a motor vehicle, when reasonably necessary to ensure safe operation, shall give audible warning with the horn but shall not otherwise use such horn when upon a highway.

(2) No vehicle shall be equipped with nor shall any person use upon a vehicle any audible device except as otherwise permitted in this section. It is permissible but not required that any vehicle be equipped with a theft alarm signal device which is so arranged that it cannot be used by the driver as a warning signal unless the alarm device is a required part of the vehicle. Nothing

in this section is meant to preclude the use of audible warning devices that are activated when the vehicle is backing. Any authorized emergency vehicle may be equipped with an audible signal device under section 213 (1), but such device shall not be used except when such vehicle is operated in response to an emergency call or in the actual pursuit of a suspected violator of the law or for other special purposes, including, but not limited to, funerals, parades, and the escorting of dignitaries. Such device shall not be used for such special purposes unless the circumstances would not lead a reasonable person to believe that such vehicle is responding to an actual emergency.

(3) No bicycle, electrical assisted bicycle, or low-power scooter shall be equipped with nor shall any person use upon such vehicle a siren or whistle.

(4) Snowplows and other snow-removal equipment shall display flashing yellow lights meeting the requirements of section 214 as a warning to drivers when such equipment is in service on the highway.

(5) (a) When any snowplow or other snow removal equipment displaying flashing yellow lights is engaged in snow and ice removal or control, drivers of all other vehicles shall exercise more than ordinary care and caution in approaching, overtaking, or passing such snowplow.

(b) The driver of a snowplow, while engaged in the removal or control of snow and ice on any highway open to traffic and while displaying the required flashing yellow warning lights as provided by section 214, shall not be charged with any violation of the provisions of this Code relating to parking or standing, turning, backing, or yielding the right-of-way. These exemptions shall not relieve the driver of a snowplow from the duty to drive with due regard for the safety of all persons, nor shall these exemptions protect the driver of a snowplow from the consequences of a reckless or careless disregard for the safety of others.

(6) Deleted.

225. Mufflers - prevention of noise.

(1) Every motor vehicle subject to registration and operated on a highway shall at all times be equipped with an adequate muffler in constant operation and properly maintained to prevent any excessive or unusual noise, and no such muffler or exhaust system shall be equipped with a cut-off, bypass, or similar device. No person shall modify the exhaust system of a motor vehicle in a manner which will amplify or increase the noise emitted by the motor of such vehicle above that emitted by the muffler originally installed on the vehicle, and such original muffler shall comply with all of the requirements of this section.

(1.5) Any commercial vehicle, as defined in section 235 (1) (a), subject to registration and operated on a highway, that is equipped with an engine compression brake device is required to have a muffler.

(2) A muffler is a device consisting of a series of chamber or baffle plates or other mechanical design for the purpose of receiving exhaust gas from an internal combustion engine and effective in reducing noise.

(3) Any person who violates subsection (1) of this section commits a class B traffic infraction. Any person who violates subsection (1.5) of this section shall, upon conviction, be punished by a fine of five hundred dollars. Fifty percent of any fine for a violation of subsection (1.5) of this section occurring within the corporate limits of a city or town, or within the unincorporated area of a county, shall be transmitted to the treasurer or chief financial officer of said city, town, or county, and the remaining fifty percent shall be transmitted to the state

treasurer, credited to the highway users tax fund, and allocated and expended as specified in section 205 (5.5)(a), C.R.S.

(4) This section shall not apply to electric motor vehicles.

226. Mirrors - exterior placements.

(1) Every motor vehicle shall be equipped with a mirror or mirrors so located and so constructed as to reflect to the driver a free and unobstructed view of the highway for a distance of at least two hundred feet to the rear of such vehicle.

(2) Whenever any motor vehicle is not equipped with a rear window and rear side windows or has a rear window and rear side windows composed of, covered by, or treated with any material or component that, when viewed from the position of the driver, obstructs the rear view of the driver or makes such window or windows nontransparent, or whenever any motor vehicle is towing another vehicle or trailer or carrying any load or cargo or object that obstructs the rear view of the driver, such vehicle shall be equipped with an exterior mirror on each side so located with respect to the position of the driver as to comply with the visual requirement of subsection (1) of this section.

(3) Deleted.

227. Windows unobstructed – certain materials prohibited - windshield wiper requirements.

(1) (a) Except as provided in this paragraph (a), no person shall operate any motor vehicle registered in Colorado on which any window, except the windshield, is composed of, covered by, or treated with any material or component which presents an opaque, nontransparent, or metallic or mirrored appearance in such a way that it allows less than twenty-seven percent light transmittance. The windshield shall allow seventy percent light transmittance. The provisions of this paragraph (a) shall not apply to the windows to the rear of the driver, including the rear window, on any motor vehicle; however, if such windows allow less than twenty-seven percent light transmittance, then the front side windows and the windshield on such vehicles shall allow seventy percent light transmittance.

(b) Notwithstanding any provision of paragraph (a) of this subsection (1), nontransparent material may be applied, installed, or affixed to the topmost portion of the windshield subject to the following:

(I) The bottom edge of the material extends no more than four inches measured from the top of the windshield down;

(II) The material is not red or amber in color, nor does it affect perception of primary colors or otherwise distort vision or contain lettering that distorts or obstructs vision;

(III) The material does not reflect sunlight or headlight glare into the eyes of occupants of oncoming or preceding vehicles to any greater extent than the windshield without the material.

(c) Nothing in this subsection (1) shall be construed to prevent the use of any window which is composed of, covered by, or treated with any material or component in a manner approved by federal statute or regulation if such window was included as a component part of a vehicle at the time of the vehicle manufacture, or the replacement of any such window by such covering which meets such guidelines.

(d) No material shall be used on any window in the motor vehicle that presents a metallic or mirrored appearance.

(e) Nothing in this subsection (1) shall be construed to deny or prevent the use of certificates or other papers which do not obstruct the view of the driver and which may be required by law to be displayed.

(2) The windshield on every motor vehicle shall be equipped with a device for cleaning rain, snow, or other moisture from the windshield, which device shall be so constructed as to be controlled or operated by the driver of the vehicle.

(3) (a) Except as provided in paragraph (b) of this subsection (3), any person who violates any provision of this section commits a class B traffic infraction.

(b) Any person who installs, covers, or treats a windshield or window so that the windshield or window does not meet the requirements of paragraph (a) of subsection (1) of this section is guilty of a misdemeanor and shall be punished by a fine of not less than five hundred dollars nor more than five thousand dollars.

(4) This section shall apply to all motor vehicles; except that subsection (2) of this section shall not apply to low-speed electric vehicles.

228. Restrictions on tire equipment.

(1) Every solid rubber tire on a vehicle shall have rubber on its entire traction surface at least one inch thick above the edge of the flange of the entire periphery.

(2) No person shall operate or move on any highway any motor vehicle, trailer, or semitrailer having any metal tire in contact with the roadway, and it is unlawful to operate upon the highways of this state any motor vehicle, trailer, or semitrailer equipped with solid rubber tires.

(3) No tire on a vehicle moved on a highway shall have on its periphery any block, stud, flange, cleat, or spike or any other protuberances of any material other than rubber which projects beyond the tread on the traction surface of the tire; except that, on single-tired passenger vehicles and on other single-tired vehicles with rated capacities up to and including three-fourths ton, it shall be permissible to use tires containing studs or other protuberances which do not project more than one-sixteenth of an inch beyond the tread of the traction surface of the tire; and except that it shall be permissible to use farm machinery with tires having protuberances which will not injure the highway; and except also that it shall be permissible to use tire chains of reasonable proportions upon any vehicle when required for safety because of snow, ice, or other conditions tending to cause a vehicle to skid.

(4) The department of transportation and local authorities in their respective jurisdictions, in their discretion, may issue special permits authorizing the operation upon a highway of traction engines or tractors having movable tracks with transverse corrugations upon the periphery of such movable tracks or farm tractors or other farm machinery, the operation of which upon a highway would otherwise be prohibited under this Code.

(5) (a) No person shall drive or move a motor vehicle on any highway unless such vehicle is equipped with tires in safe operating condition in accordance with this subsection (5) and any supplemental rules and regulations promulgated by the executive director of the department.

(b) The executive director of the department shall promulgate such rules as the executive director deems necessary setting forth requirements of safe operating conditions for tires. These rules shall be utilized by law enforcement officers for visual inspection of tires and shall include methods for simple gauge measurement of tire tread depth.

(c) A tire shall be considered unsafe if it has:

- (I) Any bump, bulge, or knot affecting the tire structure;
 - (II) A break which exposes a tire body cord or is repaired with a boot or patch;
 - (III) A tread depth of less than two thirty-seconds of an inch measured in any two tread grooves at three locations equally spaced around the circumference of the tire, or, on those tires with tread wear indicators, a tire shall be considered unsafe if it is worn to the point that the tread wear indicators contact the road in any two-tread grooves at three locations equally spaced around the circumference of the tire; except that this subparagraph (III) shall not apply to tires on a commercial vehicle as such term is defined in section 235 (1) (a); or
 - (IV) Such other conditions as may be reasonably demonstrated to render it unsafe.
- (6) No passenger car tire shall be used on any motor vehicle which is driven or moved on any highway if such tire was designed or manufactured for nonhighway use.
- (7) No person shall sell any motor vehicle for highway use unless the vehicle is equipped with tires that are in compliance with subsections (5) and (6) of this section and any rules of safe operating condition promulgated by the department.
- (8) Deleted.

229. Safety glazing material in motor vehicles.

(1) No person shall sell any new motor vehicle, nor shall any new motor vehicle be registered, unless such vehicle is equipped with safety glazing material of a type approved by the department for any required front windshield and wherever glazing material is used in doors and windows of said motor vehicle. This section shall apply to all passenger-type motor vehicles, including passenger buses and school buses, but, in respect to camper coaches and trucks, including truck tractors, the requirements as to safety glazing material shall apply only to all glazing material used in required front windshields and that used in doors and windows in the drivers' compartments and such other compartments as are lawfully occupied by passengers in said vehicles.

(2) The term "safety glazing materials" means such glazing materials as will reduce substantially, in comparison with ordinary sheet glass or plate glass, the likelihood of injury to persons by objects from exterior sources or by these safety glazing materials when they may be cracked or broken.

(3) The department shall compile and publish a list of types of glazing material by name approved by it as meeting the requirements of this section, and the department shall not, after January 1, 1958, register any motor vehicle which is subject to the provisions of this section unless it is equipped with an approved type of safety glazing material, and the department shall suspend the registration of any motor vehicle subject to this section which is found to be not so equipped until it is made to conform to the requirements of this section.

(4) No person shall operate a motor vehicle on any highway within this state unless such vehicle is equipped with a front windshield as provided in this section, except as provided in section 232 (1) and except for motor vehicles registered as collectors' items under section 219.

(5) Deleted.

230. Emergency lighting equipment - who must carry.

(1) No motor vehicle carrying a truck license and weighing six thousand pounds or more and no passenger bus shall be operated over the highways of this state at any time without carrying in an accessible place inside or on the outside of the vehicle three bidirectional emergency reflective triangles of a type approved by the department, but the use of such

equipment is not required in municipalities where there are street lights within not more than one hundred feet.

(2) Whenever a motor vehicle referred to in subsection (1) of this section is stopped upon the traveled portion of a highway or the shoulder of a highway for any cause other than necessary traffic stops, the driver of the stopped motor vehicle shall immediately activate the vehicular hazard warning signal flashers and continue the flashing until the driver places the bidirectional emergency reflective triangles as directed in subsection (3) of this section.

(3) Except as provided in subsection (2) of this section, whenever a motor vehicle referred to in subsection (1) of this section is stopped upon the traveled portion of a highway or the shoulder of a highway for any cause other than necessary traffic stops, the driver shall, as soon as possible, but in any event within ten minutes, place the bidirectional emergency reflective triangles in the following manner:

(a) One at the traffic side of the stopped vehicle, within ten feet of the front or rear of the vehicle;

(b) One at a distance of approximately one hundred feet from the stopped vehicle in the center of the traffic lane or shoulder occupied by the vehicle and in the direction toward traffic approaching in that lane; and

(c) One at a distance of approximately one hundred feet from the stopped vehicle in the opposite direction from those placed in accordance with paragraphs (a) and (b) of this subsection (3) in the center of the traffic lane or shoulder occupied by the vehicle; or

(d) If the vehicle is stopped within five hundred feet of a curve, crest of a hill, or other obstruction to view, the driver shall place the emergency equipment required by this subsection (3) in the direction of the obstruction to view at a distance of one hundred feet to five hundred feet from the stopped vehicle so as to afford ample warning to other users of the highway; or

(e) If the vehicle is stopped upon the traveled portion or the shoulder of a divided or one way highway, the driver shall place the emergency equipment required by this subsection (3), one at a distance of two hundred feet and one at a distance of one hundred feet in a direction toward approaching traffic in the center of the lane or shoulder occupied by the vehicle, and one at the traffic side of the vehicle within ten feet of the rear of the vehicle.

(4) No motor vehicle operating as a wrecking car at the scene of an accident shall move or attempt to move any wrecked vehicle without first complying with those sections of the law concerning emergency lighting.

(5) Deleted.

231. Parking lights.

When lighted lamps are required by section 204, no vehicle shall be driven upon a highway with the parking lights lighted except when the lights are being used as signal lamps and except when the head lamps are lighted at the same time. Parking lights are those lights permitted by section 215 and any other lights mounted on the front of the vehicle, designed to be displayed primarily when the vehicle is parked.

232. Minimum safety standards for motorcycles and low-power scooters.

(1) No person shall operate any motorcycle or low-power scooter on any public highway in this state unless such person and any passenger thereon is wearing goggles or eyeglasses with lenses made of safety glass or plastic; except that this subsection (1) shall not apply to a person wearing a helmet containing eye protection made of safety glass or plastic.

(2) Any motorcycle carrying a passenger, other than in a sidecar or enclosed cab, shall be equipped with footrests for such passengers.

(3) Deleted.

233. Alteration of suspension system.

(1) No person shall operate a motor vehicle of a type required to be registered under the laws of this state upon a public highway with either the rear or front suspension system altered or changed from the manufacturer's original design except in accordance with specifications permitting such alteration established by the department. Nothing contained in this section shall prevent the installation of manufactured heavy duty equipment to include shock absorbers and overload springs, nor shall anything contained in this section prevent a person from operating a motor vehicle on a public highway with normal wear of the suspension system if normal wear shall not affect the control of the vehicle.

(2) This section shall not apply to motor vehicles designed or modified primarily for off-highway racing purposes, and such motor vehicles may be lawfully towed on the highways of this state.

(3) Deleted.

234. Slow-moving vehicles - display of emblem.

(1) (a) All machinery, equipment, and vehicles, except bicycles, electrical assisted bicycles, and other human-powered vehicles, designed to operate or normally operated at a speed of less than twenty-five miles per hour on a public highway shall display a triangular slow-moving vehicle emblem on the rear.

(b) The department shall set standards for a triangular slow-moving emblem for use on low-speed electric vehicles.

(c) Bicycles, electrical assisted bicycles, and other human-powered vehicles shall be permitted but not required to display the emblem specified in this subsection (1).

(2) The executive director of the department shall adopt standards and specifications for such emblem, position of the mounting thereof, and requirements for certification of conformance with the standards and specifications adopted by the American society of agricultural engineers concerning such emblems. The requirements of such emblem shall be in addition to any lighting device required by law.

(3) The use of the emblem required under this section shall be restricted to the use specified in subsection (1) of this section, and its use on any other type of vehicle or stationary object shall be prohibited.

(4) Deleted.

235. Minimum standards for commercial vehicles – spot inspections.

(1) A police officer may, at any time, require the driver of any commercial vehicle, as defined in section 42-4-235, C.R.S., to stop so that the officer may inspect the vehicle and all required documents for compliance with the rules and regulations promulgated by the Colorado Department of Public Safety, Colorado Code of Regulations, "Minimum Standards for the Operation of Commercial Vehicles."

(2) A police officer may immobilize, impound, or otherwise direct the disposition of a commercial vehicle when it is determined that the motor vehicle or operation thereof is unsafe and when such immobilization, impoundment, or disposition is appropriate under the rules and

regulations promulgated by the Colorado Department of Public Safety, Colorado Code of Regulations.

236. Child restraint systems required - definitions - exemptions.

(1) As used in this section, unless the context otherwise requires:

(a) “Child care center” means a facility required to be licensed under the “Child Care Licensing Act”, Code 6 of title 26, C.R.S.

(a.3) “Child booster seat” means a child passenger restraint system that meets the federal motor vehicle safety standards set forth in section 49 CFR 571.213, as amended, that is designed to elevate a child to properly sit in a federally approved safety belt system.

(a.5) “Child restraint system” means a specially designed seating system that is designed to protect, hold, or restrain a child in a motor vehicle in such a way as to prevent or minimize injury to the child in the event of a motor vehicle accident that is either permanently affixed to a motor vehicle or is affixed to such vehicle by a safety belt or a universal attachment system, and that meets the federal motor vehicle safety standards set forth in section 49 CFR 571.213, as amended.

(a.7) “Child safety belt-positioning device” means a device that positions a safety belt around a child in a manner that safely restrains such child in a seating position that conforms to all applicable federal motor vehicle safety standards.

(b) “Safety belt” means a lap belt, a shoulder belt, or any other belt or combination of belts installed in a motor vehicle to restrain drivers and passengers, except any such belt that is physically a part of a child restraint system. “Safety belt” includes the anchorages, the buckles, and all other equipment directly related to the operation of safety belts.

(c) “Seating position” means any motor vehicle interior space intended by the motor vehicle manufacturer to provide seating accommodation while the motor vehicle is in motion.

(2) (a) Unless exempted pursuant to subsection (3) of this section, every child, who is under four years of age and weighs under forty pounds, being transported in this state in a privately owned noncommercial passenger vehicle or in a vehicle operated by a child care center, shall be provided with one of the following child restraint systems suitable for the child’s size and shall be properly fastened into such child restraint system which is in a seating position which is equipped with a safety belt or other means to secure the system according to the manufacturer’s instructions:

(I) If the child is less than one year of age and weighs less than twenty pounds, the child shall be properly restrained in a rear-facing child restraint system.

(II) If the child is one year of age or older, but less than four years of age, and weighs less than forty pounds, but at least twenty pounds, the child shall be properly restrained in a forward-facing child restraint system.

(b) Unless excepted pursuant to subsection (3) of this section, every child, who is at least four years of age or weighs forty pounds or more, being transported in this state in a privately owned noncommercial vehicle or in a vehicle operated by a child care center, shall be properly secured by one of the following safety devices approved for a child of such age or weight by the United States department of transportation, or in a safety belt, whichever is appropriate for the child:

(I) Except as otherwise provided in subparagraph (I.5) of this paragraph (b), if the child is at least four years of age but less than six years of age and is less than fifty-five inches tall, the

child shall be properly restrained in a child booster seat or with a child safety belt-positioning device.

(I.5) If the child is at least four years of age but less than six years of age and is less than fifty-five inches tall, and if the child is being transported in a vehicle equipped with only a two-point lap-belt-only system available for the child, the child shall be properly restrained with a lap belt.

(II) If the child is six years of age or older or is fifty-five inches tall or more, the child shall be properly restrained with the motor vehicle's safety belt properly adjusted and fastened around the child's body.

(c) It is the responsibility of the driver transporting children, subject to the requirements of this section, to ensure that such children are provided with and that they properly use a child restraint system or safety belt system.

(3) Except as provided in section 42-2-105.5 (4) C.R.S., the requirements of subsection (2) of this section shall not apply to a child who:

(a) Repealed.

(b) Is being transported in a motor vehicle as a result of a medical emergency;

(c) Is being transported in a commercial motor vehicle, as defined in section 42-2-402(4)(a), that is operated by a child care center; or

(d) Is the driver of a motor vehicle and is subject to the safety belt requirements provided in section 237.

(4) No person shall use a safety belt or child restraint system, whichever is applicable under the provisions of this section, for children under sixteen years of age in a motor vehicle unless it conforms to all applicable federal motor vehicle safety standards.

(5) Any violation of this section shall not constitute negligence per se or contributory negligence per se.

(6) Deleted.

(8) Deleted.

(9) No driver in a motor vehicle shall be cited for a violation of subparagraph (I) of paragraph (b) of subsection (2) of this section unless such driver was stopped by a law enforcement officer for an alleged violation of Codes 1 to 4 of this title other than a violation of this section or section 237.

(10) Repealed.

237. Safety belt systems – mandatory use - exemptions - penalty.

(1) As used in this section:

(a) "Motor vehicle" means a self-propelled vehicle intended primarily for use and operation on the public highways, including passenger cars, station wagons, vans, taxicabs, ambulances, motor homes, and pickups. The term does not include motorcycles, low-power scooters, passenger buses, school buses, and farm tractors and implements of husbandry designed primarily or exclusively for use in agricultural operations.

(b) "Safety belt system" means a system utilizing a lap belt, a shoulder belt, or any other belt or combination of belts installed in a motor vehicle to restrain drivers and passengers, which system conforms to federal motor vehicle safety standards.

(2) Unless exempted pursuant to subsection (3) of this section, every driver of and every front seat passenger in a motor vehicle equipped with a safety belt system shall wear a fastened safety belt while the motor vehicle is being operated on a street or highway in this state.

(3) Except as provided in section 42-2-105.5 C.R.S., the requirement of subsection (2) of this section shall not apply to:

- (a) A child required by section 236 to be restrained by a child restraint system;
- (b) A member of an ambulance team, other than the driver, while involved in patient care;
- (c) A peace officer as described in section 16-2.5-101, C.R.S., while performing official duties so long as the performance of said duties is in accordance with rules and regulations applicable to said officer which are at least as restrictive as subsection (2) of this section and which only provide exceptions necessary to protect the officer;
- (d) A person with a physically or psychologically disabling condition whose physical or psychological disability prevents appropriate restraint by a safety belt system if such person possesses a written statement by a physician certifying the condition, as well as stating the reason why such restraint is inappropriate;
- (e) A person driving or riding in a motor vehicle not equipped with a safety belt system due to the fact that federal law does not require such vehicle to be equipped with a safety belt system;
- (f) A rural letter carrier of the United States postal service while performing duties as a rural letter carrier; and
- (g) A person operating a motor vehicle which does not meet the definition of “commercial vehicle” as that term is defined in section 42-4-235(1)(a) C.R.S. for commercial or residential delivery or pickup service; except that such person shall be required to wear a fastened safety belt during the time period prior to the first delivery or pickup of the day and during the time period following the last delivery or pickup of the day.

(4) Deleted.

(5) No driver in a motor vehicle shall be cited for a violation of subsection (2) of this section unless such driver was stopped by a law enforcement officer for an alleged violation of Codes 1 to 4 of this title other than a violation of this section.

(6) Testimony at a trial for a violation charged pursuant to subsection (4) of this section may include:

- (a) Testimony by a law enforcement officer that the officer observed the person charged operating a motor vehicle while said operator or any passenger was in violation of the requirement of subsection (2) of this section; or
- (b) Evidence that the driver removed the safety belts or knowingly drove a vehicle from which the safety belts had been removed.

(7) Evidence of failure to comply with the requirement of subsection (2) of this section shall be admissible to mitigate damages with respect to any person who was involved in a motor vehicle accident and who seeks in any subsequent litigation to recover damages for injuries resulting from the accident. Such mitigation shall be limited to awards for pain and suffering and shall not be used for limiting recovery of economic loss and medical payments.

238. Blue and red lights - illegal use or possession.

(1) A person shall not be in actual physical control of a vehicle, except an authorized emergency vehicle as defined in section 42-1-102 (6), that the person knows contains a lamp or device that is designed to display, or that is capable of displaying if affixed or attached to the vehicle, a red or blue light visible directly in front of the center of the vehicle.

(2) It shall be an affirmative defense that the defendant was:

- (a) A peace officer as described in section 16-2.5-101, C.R.S.; or

(b) In actual physical control of a vehicle expressly authorized by a chief of police or sheriff to contain a lamp or device that is designed to display, or that is capable of displaying if affixed or attached to the vehicle, a red or blue light visible from directly in front of the center of the vehicle; or

(c) A member of a volunteer fire department or a volunteer ambulance service who possesses a permit from the fire chief of the fire department or chief executive officer of the ambulance service through which the volunteer serves to operate a vehicle pursuant to section 222 (1) (b); or

(d) A vendor who exhibits, sells, or offers for sale a lamp or device designed to display, or that is capable of displaying, if affixed or attached to the vehicle, a red or blue light; or

(e) A collector of fire engines, fire suppression vehicles, or ambulances and the vehicle to which the red or blue lamps were affixed is valued for the vehicle's historical interest or as a collector's item.

(3) Deleted.

239. Misuse of a wireless telephone – definitions - penalty - preemption.

(1) As used in this section, unless the context otherwise requires:

(a) "Emergency" means a situation in which a person:

(I) Has reason to fear for such person's life or safety or believes that a criminal act may be perpetrated against such person or another person, requiring the use of a wireless telephone while the car is moving; or

(II) Reports a fire, a traffic accident in which one or more injuries are apparent, a serious road hazard, a medical or hazardous materials emergency, or a person who is driving in a reckless, careless, or otherwise unsafe manner.

(b) "Operating a motor vehicle" means driving a motor vehicle on a public highway, but "operating a motor vehicle" shall not mean maintaining the instruments of control while the motor vehicle is at rest in a shoulder lane or lawfully parked.

(c) "Use" means talking on or listening to a wireless telephone or engaging the wireless telephone for text messaging or other similar forms of manual data entry or transmission.

(d) "Wireless telephone" means a telephone that operates without a physical, wireline connection to the provider's equipment. The term includes, without limitation, cellular and mobile telephones.

(2) A person under eighteen years of age shall not use a wireless telephone while operating a motor vehicle.

(3) A person eighteen years of age or older shall not use a wireless telephone for the purpose of engaging in text messaging or other similar forms of manual data entry or transmission while operating a motor vehicle.

(4) Subsection (2) or (3) of this section shall not apply to a person who is using the wireless telephone:

(a) To contact a public safety entity; or

(b) During an emergency.

(5) Deleted.

(6) (a) An operator of a motor vehicle shall not be cited for a violation of subsection (2) of this section unless the operator was under eighteen years of age and a law enforcement officer saw the operator use, as defined in paragraph (c) of subsection (1) of this section, a wireless telephone.

(b) An operator of a motor vehicle shall not be cited for a violation of subsection (3) of this section unless the operator was eighteen years of age or older and a law enforcement officer saw

the operator use a wireless telephone for the purpose of engaging in text messaging or other similar forms of manual data entry or transmission.

(7) The provisions of this section shall not be construed to authorize the seizure and forfeiture of a wireless telephone, unless otherwise provided by law.

(8) This section does not restrict operation of an amateur radio station by a person who holds a valid amateur radio operator license issued by the federal communications commission.

(9) The general assembly finds and declares that use of wireless telephones in motor vehicles is a matter of statewide concern.

240. Low-speed electric vehicle equipment requirements.

A low-speed electric vehicle shall conform with applicable federal manufacturing equipment standards.

PART 5
SIZE - WEIGHT - LOAD

501. Size and weight violations - penalty.

Except as provided in section 509, it is a traffic infraction for any person to drive or move or for the owner to cause or knowingly permit to be driven or moved on any highway any vehicle or vehicles of a size or weight exceeding the limitations stated in sections 502 to 512 or otherwise in violation of said sections or section 1407, except as permitted in section 510. The maximum size and weight of vehicles specified in said sections shall be lawful throughout this state, and local authorities shall have no power or authority to alter said limitations, except as express authority may be granted in section 42-4-106 C.R.S.

502. Width of vehicles.

(1) The total outside width of any vehicle or the load thereon shall not exceed eight feet six inches, except as otherwise provided in this section.

(2) (a) A load of loose hay, including loosely bound, round bales, whether horse drawn or by motor, shall not exceed twelve feet in width.

(b) A vehicle and trailer may transport a load of rectangular hay bales if such vehicle and load do not exceed ten feet six inches in width.

(3) It is unlawful for any person to operate a vehicle or a motor vehicle which has attached thereto in any manner any chain, rope, wire, or other equipment which drags, swings, or projects in any manner so as to endanger the person or property of another.

(4) The total outside width of buses and coaches used for the transportation of passengers shall not exceed eight feet six inches.

(5) (a) The total outside width of vehicles as included in this section shall not be construed so as to prohibit the projection beyond such width of clearance lights, rearview mirrors, or other accessories required by federal, state, or city laws or regulations.

(b) The width requirements imposed by subsection (1) of this section shall not include appurtenances on recreational vehicles, including but not limited to motor homes, travel trailers, fifth wheel trailers, camping trailers, recreational park trailers, multipurpose trailers, and truck campers, all as defined in section 24-32-902, C.R.S., so long as such recreational vehicle, including such appurtenances, does not exceed a total outside width of nine feet six inches.

(6) Deleted.

503. Projecting loads on passenger vehicles.

No passenger-type vehicle, except a motorcycle, a bicycle, or an electrical assisted bicycle shall be operated on any highway with any load carried thereon extending beyond the line of the fenders on the left side of such vehicle nor extending more than six inches beyond the line of the fenders on the right side thereof.

504. Height and length of vehicles.

(1) No vehicle unladen or with load shall exceed a height of thirteen feet; except that vehicles with a height of fourteen feet six inches shall be operated only on highways designated by the department of transportation.

(2) No single motor vehicle shall exceed a length of forty-five feet extreme overall dimension, inclusive of front and rear bumpers. The length of vehicles used for the mass transportation of passengers wholly within the limits of a town, city, or municipality or within a radius of fifteen miles thereof may extend to sixty feet. The length of school buses may extend to forty feet.

(3) Buses used for the transportation of passengers between towns, cities, and municipalities in the state of Colorado may be sixty feet extreme overall length, inclusive of front and rear bumpers but shall not exceed a height of thirteen feet six inches, if such buses are equipped to conform with the load and weight limitations set forth in section 508; except that buses with a height of fourteen feet six inches which otherwise conform to the requirements of this subsection (3) shall be operated only on highways designated by the department of transportation.

(4) No combination of vehicles coupled together shall consist of more than four units, and no such combination of vehicles shall exceed a total overall length of seventy feet. Said length limitation shall not apply to unladen truck tractor-semitrailer combinations when the semitrailer is fifty-seven feet four inches or less in length or to unladen truck tractor-semitrailer-trailer combinations when the semitrailer and the trailer are each twenty-eight feet six inches or less in length. Said length limitations shall also not apply to vehicles operated by a public utility when required for emergency repair of public service facilities or properties or when operated under special permit as provided in section 42-4-510, but, in respect to night transportation, every such vehicle and the load thereon shall be equipped with a sufficient number of clearance lamps on both sides and marker lamps upon the extreme ends of any projecting load to clearly mark the dimensions of such load.

(4.5) Notwithstanding the provisions of subsection (4) of this section, the following combinations of vehicles shall not exceed seventy-five feet in total overall length:

- (a) Saddlemount combinations consisting of no more than four units;
- (b) Laden truck tractor-semitrailer combinations; and
- (c) Specialized equipment used in combination for transporting automobiles or boats. The overall length of such combination shall be exclusive of:
 - (I) Safety devices; however, such safety devices shall not be designed or used for carrying cargo;
 - (II) Automobiles or boats being transported;
 - (III) Any extension device that may be used for loading beyond the extreme front or rear ends of a vehicle or combination of vehicles; except that the projection of a load, including any extension devices loaded to the front of the vehicle, shall not extend more than four feet beyond the extreme front of the grill of such vehicle and no load or extension device may extend more than six feet to the extreme rear of the vehicle.

(5) The load upon any vehicle operated alone or the load upon the front vehicle of a combination of vehicles shall not extend beyond the front wheels of such vehicles or vehicle or the front most point of the grill of such vehicle; but a load may project not more than four feet beyond the front most point of the grill assembly of the vehicle engine compartment of such a vehicle at a point above the cab of the driver's compartment so long as that part of any load projecting ahead of the rear of the cab or driver's compartment shall be so loaded as not to obscure the vision of the driver to the front or to either side.

(6) The length limitations of vehicles and combinations of vehicles provided for in this section as they apply to vehicles being operated and utilized for the transportation of steel,

fabricated beams, trusses, utility poles, and pipes shall be determined without regard to the projection of said commodities beyond the extreme front or rear of the vehicle or combination of vehicles; except that the projection of a load to the front shall be governed by the provisions of subsection (5) of this section, and no load shall project to the rear more than ten feet.

(7) Deleted.

505. Longer vehicle combinations.

(1)(a) Notwithstanding any other provision of this Code to the contrary, the department of transportation, in the exercise of its discretion, may issue permits for the use of longer vehicle combinations. An annual permit for such use may be issued to each qualified carrier company. The carrier company shall maintain a copy of such annual permit in each vehicle operating as a longer vehicle combination; except that, if a peace officer, as described in section 16-2.5-101, C.R.S., or an authorized agent of the department of transportation may determine that the permit can be electronically verified at the time of contact, a copy of the permit need not be in each vehicle. The fee for the permit shall be two hundred fifty dollars per year.

(2) The permits shall allow operation, over designated highways, of the following vehicle combinations of not more than three cargo units and neither fewer than six axles nor more than nine axles:

(a) An unladen truck tractor, a semitrailer, and two trailers. A semitrailer used with a converter dolly shall be considered a trailer. Semitrailers and trailers shall be of approximately equal lengths not to exceed twenty-eight feet six inches in length.

(b) An unladen truck tractor, a semitrailer, and a single trailer. A semitrailer used with a converter dolly shall be considered a trailer. Semitrailers and trailers shall be of approximately equal lengths not to exceed forty-eight feet in length. Notwithstanding any other restriction set forth in this section, such combination may have up to eleven axles when used to transport empty trailers.

(c) An unladen truck tractor, a semitrailer, and a single trailer, one trailer of which is not more than forty-eight feet long, the other trailer of which is not more than twenty-eight feet six inches long. A semitrailer used with a converter dolly shall be considered a trailer. The shorter trailer shall be operated as the rear trailer.

(d) A truck and single trailer, having an overall length of not more than eighty-five feet, the truck of which is not more than thirty-five feet long and the trailer of which is not more than forty feet long. For the purposes of this paragraph (d), a semitrailer used with a converter dolly shall be considered a trailer.

(3) The long combinations shall be limited to interstate highway 25, interstate highway 76, interstate highway 70 west of its intersection with state highway 13 in Garfield county, interstate highway 70 east of its intersection with U.S. 40 and state highway 26, the circumferential highways designated I-225 and I-270, and state highway 133 in Delta county from mile marker 8.9 to mile marker 9.7. The department of transportation shall promulgate rules and regulations to provide carriers with reasonable ingress to and egress from such designated highway segments.

(4) The department of transportation shall promulgate rules and regulations governing the issuance of the permits, including, but not limited to, selection of carriers, driver qualifications, equipment selection, hours of operation, and safety considerations; except that they shall not include hazardous materials subject to regulation by the provisions of Code 20 of this title.

(5) Deleted.

506. Trailers and towed vehicles.

(1) When one vehicle is towing another, the drawbar or other connection shall be of sufficient strength to pull all weight towed thereby, and said drawbar or other connection shall not exceed fifteen feet from one vehicle to the other, except the connection between any two vehicles transporting poles, pipe, machinery, or other objects of a structural nature which cannot readily be dismembered and except connections between vehicles in which the combined lengths of the vehicles and the connection does not exceed an overall length of fifty-five feet and the connection is of rigid construction included as part of the structural design of the towed vehicle.

(2) When one vehicle is towing another and the connection consists of a chain, rope, or cable, there shall be displayed upon such connection a white flag or cloth not less than twelve inches square.

(3) Whenever one vehicle is towing another, in addition to the drawbar or other connection, except a fifth wheel connection meeting the requirements of the department of transportation, safety chains or cables arranged in such a way that it will be impossible for the vehicle being towed to break loose from the vehicle towing in the event the drawbar or other connection were to be broken, loosened, or otherwise damaged shall be used. This subsection (3) shall apply to all motor vehicles, to all trailers, except semitrailers connected by a proper fifth wheel, and to any dolly used to convert a semitrailer to a full trailer.

(4) Deleted.

507. Wheel and axle loads.

(1) The gross weight upon any wheel of a vehicle shall not exceed the following:

(a) When the wheel is equipped with a solid rubber or cushion tire, eight thousand pounds;

(b) When the wheel is equipped with a pneumatic tire, nine thousand pounds.

(2) The gross weight upon any single axle or tandem axle of a vehicle shall not exceed the following:

(a) When the wheels attached to said axle are equipped with solid rubber or cushion tires, sixteen thousand pounds;

(b) Except as provided in paragraph (b.5) of this subsection (2), when the wheels attached to a single axle are equipped with pneumatic tires, twenty thousand pounds;

(b.5) When the wheels attached to a single axle are equipped with pneumatic tires and the vehicle or vehicle combination is a digger derrick or bucket boom truck operated by an electric utility on a highway that is not on the interstate system as defined in section 43-2-101 (2), C.R.S., twenty-one thousand pounds;

(c) When the wheels attached to a tandem axle are equipped with pneumatic tires, thirty-six thousand pounds for highways on the interstate system and forty thousand pounds for highways not on the interstate system.

(3) Vehicles equipped with a self-compactor and used solely for the transporting of trash are exempted from the provisions of paragraph (b) of subsection (2) of this section.

(4) For the purposes of this section:

(a) A single axle is defined as all wheels, whose centers may be included within two parallel transverse vertical planes not more than forty inches apart, extending across the full width of the vehicle.

(b) A tandem axle is defined as two or more consecutive axles, the centers of which may be included between parallel vertical planes spaced more than forty inches and not more than ninety-six inches apart, extending across the full width of the vehicle.

(5) The gross weight upon any one wheel of a steel-tired vehicle shall not exceed five hundred pounds per inch of cross-sectional width of tire.

(6) Deleted.

508. Gross weight of vehicles and loads.

(1) Except as provided in subsection (1.5) of this section, no vehicle or combination of vehicles shall be moved or operated on any highway or bridge when the gross weight thereof exceeds the limits specified below:

(a) (I) The gross weight upon any one axle of a vehicle shall not exceed the limits prescribed in section 507.

(II) Subject to the limitations prescribed in section 507, the gross weight of a vehicle having two axles shall not exceed thirty-six thousand pounds.

(III) Subject to the limitations prescribed in section 507, the gross weight of a single vehicle having three or more axles shall not exceed fifty-four thousand pounds.

(b) Subject to the limitations prescribed in section 507, the maximum gross weight of any vehicle or combination of vehicles shall not exceed that determined by the formula W equals $1,000(L + 40)$, W = the gross weight in pounds, L = the length in feet between the centers of the first and last axles of such vehicle or combination of vehicles, but in computation of this formula no gross vehicle weight shall exceed eighty-five thousand pounds. For the purposes of this section, where a combination of vehicles is used, no vehicle shall carry a gross weight of less than ten percent of the overall gross weight of the combination of vehicles; except that these limitations shall not apply to specialized trailers of fixed public utilities whose axles may carry less than ten percent of the weight of the combination. The limitations provided in this section shall be strictly construed and enforced.

(c) Notwithstanding any other provisions of this section, except as may be authorized under section 510, no vehicle or combination of vehicles shall be moved or operated on any highway or bridge which is part of the national system of interstate and defense highways, also known as the interstate system, when the gross weight of such vehicle or combination of vehicles exceeds the following specified limits:

(I) Subject to the limitations prescribed in section 507, the gross weight of a vehicle having two axles shall not exceed thirty-six thousand pounds.

(II) Subject to the limitations prescribed in section 507, the gross weight of a single vehicle having three or more axles shall not exceed fifty-four thousand pounds.

(III) (A) Subject to the limitations prescribed in section 507, the maximum gross weight of any vehicle or combination of vehicles shall not exceed that determined by the formula $W = 500 [(LN/N-1) + 12N + 36]$.

(B) In using the formula in sub-subparagraph (A) of this subparagraph (III), W equals overall gross weight on any group of two or more consecutive axles to the nearest 500 pounds, L equals distance in feet between the extreme of any group of two or more consecutive axles, and N equals number of axles in the group under consideration; but in computations of this formula no gross vehicle weight shall exceed eighty thousand pounds, except as may be authorized under section 510.

(IV) For the purposes of this subsection (1), where a combination of vehicles is used, no vehicle shall carry a gross weight of less than ten percent of the overall gross weight of the combination of vehicles; except that this limitation shall not apply to specialized trailers whose specific use is to haul poles and whose axles may carry less than ten percent of the weight of the combination.

(1.5) The gross weight limits provided in subsection (1) of this section are increased by one thousand pounds for any vehicle or combination of vehicles if the vehicle or combination of vehicles contains an alternative fuel system and operates on alternative fuel or both alternative and conventional fuel. The provisions of this subsection (1.5) apply only when the vehicle or combination of vehicles is operated on a highway that is not on the interstate system as defined in section 43-2-101 (2), C.R.S. For the purposes of this subsection (1.5), "alternative fuel" has the same meaning provided in section 25-7-106.8 (1)(a), C.R.S.

509. Vehicles weighed – excess removed.

(1) Any police or peace officer, as described in section 16-2.5-101, C.R.S., having reason to believe that the weight of a vehicle and load is unlawful is authorized to require the driver to stop and submit to a weighing of the same by means of either portable or stationary scales or shall require that such vehicle be driven to the nearest public scales in the event such scales are within five miles.

(2) (a) Except as provided in paragraph (b) of this subsection (2), whenever an officer upon weighing a vehicle and load as provided in subsection (1) of this section determines that the weight is unlawful, such officer shall require the driver to stop the vehicle in a suitable place and remain standing until such portion of the load is removed as may be necessary to reduce the gross weight of such vehicle to such limit as permitted under sections 501 to 512 and 1407. All material so unloaded shall be cared for by the owner or operator of such vehicle at the risk of such owner or operator.

(b) Whenever an officer upon weighing a vehicle and load as provided in subsection (1) of this section determines that the weight is unlawful and the load consists solely of either explosives or hazardous materials, as defined in section 42-1-102 (32) C.R.S., such officer shall permit the driver of such vehicle to proceed to the driver's destination without requiring the driver to unload the excess portion of such load.

(3) Any driver of a vehicle who fails or refuses to stop and submit the vehicle and load to a weighing or who fails or refuses when directed by an officer upon a weighing of the vehicle to stop the vehicle and otherwise comply with the provisions of this section violates this code.

510. Permits for excess size and weight and for manufactured homes - rules.

(1) (a) Any local authority with respect to highways under its jurisdiction may, upon application in writing and good cause being shown therefor, issue a single trip, a special, or an annual permit in writing authorizing the applicant to operate or move a vehicle or combination of vehicles of a size or weight of vehicle or load exceeding the maximum specified in this Code or otherwise not in conformity with the provisions of this Code upon any highway under the jurisdiction of the party granting such permit and for the maintenance of which said party is responsible; except that permits for the movement of any manufactured home shall be issued as provided in subsection (2) of this section.

(b) (I) The application for any permit shall specifically describe the vehicle and load to be operated or moved and the particular highways for which the permit to operate is requested, and

whether such permit is for a single trip, a special, or an annual operation, and the time of such movement. All local permits shall be issued in the discretion of the local authority pursuant to rules adopted in accordance with section 511. Any rules of local authorities shall not conflict with this section.

(II) An overweight permit issued pursuant to this section shall be available for overweight divisible loads if:

(A) The vehicle has a quad axle grouping and the maximum gross weight of the vehicle does not exceed one hundred ten thousand pounds; or

(B) The vehicle is operated in combination with a trailer or semitrailer, which is commonly referred to as a tractor-trailer, the trailer has a tandem or triple axle grouping, and the maximum gross weight of the vehicle does not exceed ninety-seven thousand pounds; and

(C) The owner and operator of the motor vehicle are in compliance with the federal "Motor Carrier Safety Improvement Act of 1999", Pub.L. 106-159, as amended, as applicable to commercial vehicles; and

(D) The vehicle complies with rules promulgated by the department of transportation concerning the distribution of the load upon the vehicle's axles.

(III) A permit issued pursuant to this paragraph (b) shall not authorize the operation or movement of a motor vehicle on the interstate highway in violation of federal law.

(c) (I) A single trip or annual permit shall be issued pursuant to this section for a self-propelled fixed load crane that exceeds legal weight limits if it does not exceed the weight limits authorized by the department of transportation. A boom trailer or boom dolly shall not be permitted unless the boom trailer or boom dolly is attached to the crane in a manner and for the purpose of distributing load to meet the weight requirements established by the department. A self-propelled fixed load crane may be permitted with counterweights when a boom trailer or boom dolly is used if the counterweights do not exceed the manufacturer's rated capacity of the self-propelled fixed load crane and do not cause the vehicle to exceed permitted axle or gross weight limits. A permit issued pursuant to this paragraph (c) shall not authorize movement on interstate highways if not approved by federal law.

(II) For the purposes of this paragraph (c), "self-propelled fixed load crane" means a self powered mobile crane designed with equipment or parts permanently attached to the body of the crane. A self-propelled fixed load crane includes, without limitation, the crane's shackles and slings.

(2) (a) An authentication of paid ad valorem taxes, after notification of such movement to the county treasurer, may serve as a permit for movement of manufactured homes on public streets or highways under the county's jurisdiction. An authentication of paid ad valorem taxes from the county treasurer of the county from which the manufactured home is to be moved, after notification of such movement has been provided to the county assessor of the county to which the manufactured home is to be moved, pursuant to section 39-5-205, C.R.S., may also serve as a permit for the movement of manufactured homes from one adjoining county to an adjoining county on streets and highways under local jurisdiction. The treasurer shall issue along with the authentication of paid ad valorem taxes a transportable manufactured home permit. The treasurer may establish and collect a fee, which shall not exceed ten dollars, for issuing the authentication of paid ad valorem taxes and the transportable manufactured home permit. Such transportable manufactured home permit shall be printed on an eleven inch by six inch fluorescent orange card and shall contain the following information: The name and address of the owner of the mobile home; the name and address of the mover; the transport number of the

mover, a description of the mobile home including the make, year, and identification or serial number; the county authentication number; and an expiration date. The expiration date shall be set by the treasurer, but in no event shall the expiration date be more than thirty days after the date of issue of the permit. Such transportable manufactured home permit shall be valid for a single trip only. The transportable manufactured home permit shall be prominently displayed on the rear of the mobile home during transit of the mobile home. Peace officers and local tax and assessment officials may request, and upon demand shall be shown, all moving permits, tax receipts, or certificates required by this subsection (2). Nothing in this section shall require a permit from a county treasurer for the movement of a new manufactured home. For the purposes of this section, a new manufactured home is one in transit under invoice or manufacturer's statement of origin which has not been previously occupied for residential purposes.

(b) All applications for permits to move manufactured homes over state highways shall comply with the following special provisions:

(I) Each such application shall be for a single trip, a special permit, an annual permit, or, subject to the requirements of paragraph (a) of subsection (1.5) of this section, an annual fleet permit. The application shall be accompanied by a certificate or other proof of public liability insurance in amounts of not less than one hundred thousand dollars per person and three hundred thousand dollars per accident for all manufactured homes moved within this state by the permit holder during the effective term of the permit. Each application for a single trip permit shall be accompanied by an authentication of paid ad valorem taxes on the used manufactured home.

(II) Holders of permits shall keep and maintain, for not less than three calendar years, records of all manufactured homes moved in whole or in part within this state, which records shall include the plate number of the towing vehicle; the year, make, serial number, and size of the unit moved, together with date of the move; the place of pickup; and the exact address of the final destination and the county of final destination and the name and address of the landowner of the final destination. These records shall be available upon request within this state for inspection by the state of Colorado or any of its ad valorem taxing governmental subdivisions.

(III) Holders of permits shall obtain an authentication of paid ad valorem taxes through the date of the move from the owner of a used manufactured home or from the county treasurer of the county from which the used manufactured home is being moved. Permit holders shall notify the county treasurer of the county from which the manufactured home is being moved of the new exact address of the final destination and the county of final destination of the manufactured home and the name and address of the landowner of the final destination, and, if within the state, the county treasurer shall forward copies of the used manufactured home tax certificate to the county assessor of the destination county. County treasurers may compute ad valorem manufactured home taxes due based upon the next preceding year's assessment prorated through the date of the move and accept payment of such as payment in full.

(IV) No owner of a manufactured home shall move the manufactured home or provide for the movement of the manufactured home without being the holder of a paid ad valorem tax certificate and a transportable manufactured home permit thereon, and no person shall assist such an owner in the movement of such owner's manufactured home, including a manufactured home dealer. Except as otherwise provided in this paragraph (b), a permit holder who moves any manufactured home within this state shall be liable for all unpaid ad valorem taxes thereon through the date of such move if movement is made prior to payment of the ad valorem taxes due on the manufactured home moved.

(V) In the event of an imminent natural or man-made disaster or emergency, including, but not limited to, rising waters, flood, or fire, the owner, owner's representative or agent, occupant, or tenant of a manufactured home or the mobile home park owner or manager, lienholder, or manufactured home dealer is specifically exempted from the need to obtain a permit pursuant to this section and may move the endangered manufactured home out of the danger area to a temporary or new permanent location and may move such manufactured home back to its original location without a permit or penalty or fee requirement. Upon any such move to a temporary location as a result of a disaster or emergency, the person making the move or such person's agent or representative shall notify the county assessor in the county to which the manufactured home has been moved, within twenty days after such move, of the date and circumstances pertaining to the move and the temporary or permanent new location of the manufactured home. If the manufactured home is moved to a new permanent location from a temporary location as a result of a disaster or emergency, a permit for such move shall be issued but no fee shall be assessed.

(3) Any local authority is authorized to issue or withhold a permit, as provided in this section, and, if such permit is issued, to limit the number of trips, or to establish seasonal or other time limitations within which the vehicles described may be operated on the highways indicated, or otherwise to limit or prescribe conditions of operation of such vehicles, when necessary to protect the safety of highway users, to protect the efficient movement of traffic from unreasonable interference, or to protect the highways from undue damage to the road foundations, surfaces, or structures and may require such undertaking or other security as may be deemed necessary to compensate for any injury to any highway or highway structure.

(4) The original or a copy of every such permit shall be carried in the vehicle or combination of vehicles to which it refers and shall be open to inspection by any police officer or authorized agent of any authority granting such permit; except that, if a peace officer, as described in section 16-2.5-101, C.R.S., or an authorized agent of the authority that granted a permit may determine that the permit can be electronically verified at the time of contact, a copy of the permit need not be carried in the vehicle or combination of vehicles to which it refers. No person shall violate any of the terms or conditions of such permit.

(5) No vehicle having a permit under this section shall be remodeled, rebuilt, altered, or changed except in such a way as to conform to those specifications and limitations established in sections 501 to 507 and 1407.

(6) Any person who has obtained a valid permit for the movement of any oversize vehicle or load may attach to such vehicle or load or to any vehicle accompanying the same not more than three illuminated flashing yellow signals as warning devices.

(7) No permit shall be necessary for the operation of authorized emergency vehicles, public transportation vehicles operated by municipalities or other political subdivisions of the state, county road maintenance and county road construction equipment temporarily moved upon the highway, implements of husbandry, and farm tractors temporarily moved upon the highway, including transportation of such tractors or implements by a person dealing therein to such person's place of business within the state or to the premises of a purchaser or prospective purchaser within the state; nor shall such vehicles or equipment be subject to the size and weight provisions of this part 5.

511. Permit standards - state and local.

(1) (a) Any permits which may be required by local authorities shall be issued in accordance with rules adopted by the respective local authorities after a public hearing at which testimony is received from affected motor vehicle owners and operators. Notice of such public hearing shall be published in a newspaper having general circulation within the local authority's jurisdiction. Such notice shall not be less than eight days prior to the date of hearing. The publication shall not be placed in that portion of the newspaper in which legal notices or classified advertisements appear. Such notice shall state the purpose of the hearing, the time and place of the hearing, and that the general public, including motor vehicle owners and operators to be affected, may attend and make oral or written comments regarding the proposed rule. Notice of any subsequent hearing shall be published in the same manner as for the original hearing.

(b) At least thirty days prior to such public hearing, the local authority shall transmit a copy of the proposed rule to the department of transportation for its comments, and said department shall make such comments in writing to the local authority prior to such public hearing.

(c) Effective July 1, 1996, any local authority that adopts or has adopted an ordinance or resolution governing permits for the movement of oversize or overweight vehicles or loads shall file a copy of such ordinance or resolution with the department of transportation and the motor carrier services division of the department of revenue.

511.2.

512. Liability for damage to highway.

(1) No person shall drive, operate, or move upon or over any highway or highway structure any vehicle, object, or contrivance in such a manner so as to cause damage to said highway or highway structure. When the damage sustained to said highway or highway structure is the result of the operating, driving, or moving of such vehicle, object, or contrivance weighing in excess of the maximum weight authorized by sections 501 to 512 and 1407, it shall be no defense to any action, either civil or criminal, brought against such person that the weight of the vehicle was authorized by special permit issued in accordance with sections 501 to 512 and 1407.

(2) Every person violating the provisions of subsection (1) of this section shall be liable for all damage which said highway or highway structure may sustain as a result thereof. Whenever the driver of such vehicle, object, or contrivance is not the owner thereof but is operating, driving, or moving such vehicle, object, or contrivance with the express or implied consent of the owner thereof, then said owner or driver shall be jointly and severally liable for any such damage. The liability for damage sustained by any such highway or highway structure may be enforced by a civil action by the authorities in control of such highway or highway structure. No satisfaction of such civil liability, however, shall be deemed to be a release or satisfaction of any criminal liability for violation of the provisions of subsection (1) of this section.

(3) Deleted.

514. Weight limits on certain streets or parts thereof.

(1) When official signs are erected giving notice thereof, no person shall operate any vehicle with a weight limit in excess of the weight specified on the sign(s) at any time upon any of the streets or parts thereof, excluding bridges, viaducts, and culverts.

(2) When official signs are erected giving notice thereof, no person shall operate any vehicle in excess of the weight specified on the sign(s) at any time upon any bridge, viaduct, or culvert.

(3) Notwithstanding the provisions of subsections (1) and (2) above, no vehicle with a gross weight over 8,000 pounds shall be allowed within any residential district unless the vehicle has obtained a transportation permit from the Department of Public Works or is performing a service for a destination within the neighborhood where such vehicle is operating. It is specifically provided that the excluded vehicles which are permitted access to the streets and roadways pursuant to this section must enter the street at the intersection nearest the destination of the vehicle and proceed thereon no farther than the nearest intersection thereafter.

PART 6
SIGNALS - SIGNS – MARKINGS

601. Local governments to sign highways, where.

This local government shall place and maintain such traffic control devices, conforming to the "Manual of Uniform Traffic Control Devices" and specifications, upon streets and highways as it deems necessary to indicate and to carry out the provisions of this Code or to regulate, warn, or guide traffic.

602. Local traffic control devices.

(1) No local authority shall erect or maintain any stop sign or traffic control signal at any location so as to require the traffic on any state highway to stop before entering or crossing any intersecting highway unless approval in writing has first been obtained from the department of transportation.

(2) Where practical no local authority shall maintain three traffic control signals located on a roadway so as to be within one minute's driving time (to be determined by the speed limit) from any one of the signals to the other without synchronizing the lights to enhance the flow of traffic and thereby reduce air pollution.

603. Obedience to official traffic control devices.

(1) No driver of a vehicle shall disobey the instructions of any official traffic control device including any official hand signal device placed or displayed in accordance with the provisions of this Code unless otherwise directed by a police officer subject to the exceptions in this Code granted the driver of an authorized emergency vehicle.

(2) No provision of this Code for which official traffic control devices are required shall be enforced against an alleged violator if at the time and place of the alleged violation an official device is not in proper position and sufficiently legible to be seen by an ordinarily observant person. Whenever a particular section does not state that official traffic control devices are required, such section shall be effective even though no devices are erected or in place.

(3) Whenever official traffic control devices are placed in position approximately conforming to the requirements of this Code, such devices shall be presumed to have been so placed by the official act or direction of lawful authority unless the contrary is established by competent evidence.

(4) Any official traffic control device placed pursuant to the provisions of this Code and purporting to conform to the lawful requirements pertaining to such devices shall be presumed to comply with the requirements of this Code unless the contrary is established by competent evidence.

(5) The city is authorized to use red-light cameras to detect violations of this section at signalized intersections in accordance with this subsection.

(a) When a peace officer, based on evidence obtained in whole or in part by means of a red-light camera, has probable cause to believe that a vehicle has been driven in violation of this section, the peace officer may issue, or caused to be issued through a contractor designated by the city, a notice of violation or a summons and complaint charging the person in whose name the vehicle is registered with a violation of this section. If, however, the vehicle is registered in more than one (1) person's name, the notice of violation or summons and complaint shall be issued to

the registrant whom the issuing peace officer determines, under all the facts and circumstances, was the person most likely depicted in the photographs or video produced by the red-light camera. A notice of violation or summons and complaint shall contain the signature, or reasonable facsimile thereof, of the issuing peace officer.

(b) When a red-light camera detects any alleged violation of this section, service of a notice of violation or a summons and complaint for the alleged violation shall be made on the defendant no later than ninety (90) days after the alleged violation occurred. A notice of violation shall be served on the defendant either personally or via U.S. First-Class Mail sent to the defendant's last known address. Service of the notice of violation via U.S. First-Class Mail shall be deemed effective upon mailing. Services of a summons and complaint shall be governed by the Colorado Municipal Court Rules of Procedure. In the event a notice of violation is first served on the defendant, and a summons and complaint is later served on the same defendant for the same violation, such summons and complaint shall be served no later than ninety (90) days after the alleged violation occurred.

(c) When a person is served with a notice of violation under this section, the person shall take one (1) of the following actions:

(I) If admitting the charge, return the notice of violation form, together with payment of the fine assessed, before the date specified in the notice of violation to the address provided on the notice of violation or in person to the Commerce City Police Department;

(II) If the pictured driver of the vehicle is someone other than the person charged, complete the affidavit of non-responsibility and return to the Commerce City Police Department as directed; or

(III) If otherwise contesting the charge, (i) meet with an officer at the Commerce City Police Department to complete a review of the violation; (ii) receive a notice of review from the officer; and (iii) if not dismissed, present the notice of review to the municipal court to be assigned a hearing date.

(d) In the event a defendant served with a notice of violation in accordance with this section fails to take one (1) of the actions set forth in subsection 603(5)(c) above, such defendant may be served with a summons and complaint as provided herein. Furthermore, a defendant charged with a violation of this section may be served with a summons and complaint in lieu of a notice of violation if the city's records indicate any unresolved prior charge for a violation of this section detected by a red-light camera. For the purposes of this subsection, the term "unresolved" means that the defendant both failed to admit the prior charge pursuant to subsection 603(5)(c)(1) and failed to appear in municipal court for arraignment on the prior charge pursuant to subsection 603(5)(c)(2) hereinabove, regardless of whether the prior charge was ultimately dismissed by the municipal court.

(e) Proof that a particular vehicle entered an intersection in violation of this section as detected by a red-light camera and as shown by the photographs or video produced by the red-light camera, together with proof that the particular vehicle is registered in the charged person's name, shall raise the evidentiary presumption and constitute prima facie evidence in any prosecution of a violation under this section of the fact that the charged person was the person driving the vehicle depicted in the photograph or video. However, such evidence and presumption may be rebutted by the presentation of any probative and competent evidence that the charged person was not the driver shown in the photograph or video.

(f) In any proceeding in the municipal court to prosecute a violation of this section, any photograph or video of the violation produced by a red-light camera that is of sufficient quality to

permit identification of the driver of the vehicle shall be admissible in court as prima facie evidence of a violation of this section, provided that a peace officer testifies as to the location of the red-light camera and the accuracy of the scene depicted in the photograph or video.

(g) In any proceeding under subsection 603(5), the court may impose, as an additional cost, the cost of service of the notice of violation or summons and complaint upon the defendant. If such service is affected through certified mail as set forth in the Colorado Municipal Court Rules of Procedure, the court may impose the actual cost of such service so long as the costs are reasonable; provided, however, that such costs shall not exceed thirty dollars (\$30.00). If a summons and complaint is personally served, the cost imposed upon the defendant shall be no more than the actual costs of service of process.

(h) The maximum penalty, including surcharges, that may be imposed for a violation of this section detected by a red-light camera is seventy-five dollars (\$75.00).

(i) In the event any person served with a notice of violation in accordance with this section 603(5) fails to comply with subsection (c) hereof, the city is authorized to take any action allowed by law to recover or collect any fines, late fees, interest or administrative costs owing under this section 603(5), including, but not limited to, referring the matter for collection by whatever means are available to the city.

604. Traffic control signal legend.

(1) If traffic is controlled by traffic control signals exhibiting different colored lights, or colored lighted arrows, successively one at a time or in combination as declared in the traffic control manual adopted by the department of transportation, only the colors green, yellow, and red shall be used, except for special pedestrian-control signals carrying a word or symbol legend as provided in section 802, and said lights, arrows, and combinations thereof shall indicate and apply to drivers of vehicles and pedestrians as follows:

(a) Green indication:

(I) Vehicular traffic facing a circular green signal may proceed straight through or turn right or left unless a sign at such place prohibits such turn; but vehicular traffic, including vehicles turning right or left, shall yield the right-of-way to other vehicles and to pedestrians lawfully within the intersection and to pedestrians lawfully within an adjacent crosswalk at the time such signal is exhibited.

(II) Vehicular traffic facing a green arrow signal, shown alone or in combination with another indication, may cautiously enter the intersection only to make the movement indicated by such arrow or such other movement as is permitted by other indications shown at the same time. Such vehicular traffic shall yield the right-of-way to pedestrians lawfully within an adjacent crosswalk and to other traffic lawfully using the intersection.

(III) Unless otherwise directed by a pedestrian-control signal as provided in section 42-4-802, pedestrians facing any green signal, except when the sole green signal is a turn arrow, may proceed across the roadway within any marked or unmarked crosswalk.

(b) Steady yellow indication:

(I) Vehicular traffic facing a steady circular yellow or yellow arrow signal is thereby warned that the related green movement is being terminated or that a red indication will be exhibited immediately thereafter.

(II) Pedestrians facing a steady circular yellow or yellow arrow signal, unless otherwise directed by a pedestrian-control signal as provided in section 802, are thereby advised that there

is insufficient time to cross the roadway before a red indication is shown, and no pedestrian shall then start to cross the roadway.

(c) Steady red indication:

(I) Vehicular traffic facing a steady circular red signal alone shall stop at a clearly marked stop line but, if none, before entering the crosswalk on the near side of the intersection or, if none, then before entering the intersection and shall remain standing until an indication to proceed is shown; except that:

(A) Such vehicular traffic, after coming to a stop and yielding the right-of-way to pedestrians lawfully within an adjacent crosswalk and to other traffic lawfully using the intersection, may make a right turn, unless state or local road authorities within their respective jurisdictions have by rule prohibited any such right turn and have erected an official sign at each intersection where such right turn is prohibited.

(B) Such vehicular traffic, when proceeding on a one-way street and after coming to a stop, may make a left turn onto a one-way street upon which traffic is moving to the left of the driver. Such turn shall be made only after yielding the right-of-way to pedestrians and other traffic proceeding as directed. No turn shall be made pursuant to this sub-subparagraph (B) if local authorities have by rule prohibited any such left turn and erected a sign giving notice of any such prohibition at each intersection where such left turn is prohibited.

(C) To promote uniformity in traffic regulation throughout the state and to protect the public peace, health, and safety, the general assembly declares that no local authority shall have any discretion other than is expressly provided in this subparagraph (I).

(II) Pedestrians facing a steady circular red signal alone shall not enter the roadway, unless otherwise directed by a pedestrian-control signal as provided in section 802.

(III) Vehicular traffic facing a steady red arrow signal may not enter the intersection to make the movement indicated by such arrow and, unless entering the intersection to make such other movement as is permitted by other indications shown at the same time, shall stop at a clearly marked stop line but, if none, before entering the crosswalk on the near side of the intersection or, if none, then before entering the intersection and shall remain standing until an indication to make the movement indicated by such arrow is shown.

(IV) Pedestrians facing a steady red arrow signal shall not enter the roadway, unless otherwise directed by a pedestrian-control signal as provided in section 802.

(d) Nonintersection signal: In the event an official traffic control signal is erected and maintained at a place other than an intersection, the provisions of this section shall be applicable except as to those provisions which by their nature can have no application. Any stop required shall be made at a sign or pavement marking indicating where the stop shall be made, but in the absence of any such sign or marking the stop shall be made at the signal.

(e) Lane-use-control signals: Whenever lane-use-control signals are placed over the individual lanes of a street or highway, as declared in the traffic control manual adopted by the department of transportation, such signals shall indicate and apply to drivers of vehicles as follows:

(I) Downward-pointing green arrow (steady): A driver facing such signal may drive in any lane over which said green arrow signal is located.

(II) Yellow "X" (steady): A driver facing such signal is warned that the related green arrow movement is being terminated and shall vacate in a safe manner the lane over which said steady yellow signal is located to avoid if possible occupying that lane when the steady red "X" signal is exhibited.

(III) Yellow “X” (flashing): A driver facing such signal may use the lane over which said flashing yellow signal is located for the purpose of making a left turn or a passing maneuver, using proper caution, but for no other purpose.

(IV) Red “X” (steady): A driver facing such signal shall not drive in any lane over which said red signal is exhibited.

(2) Deleted.

605. Flashing signals.

(1) Whenever an illuminated flashing red or yellow signal is used in conjunction with a traffic sign or a traffic signal or as a traffic beacon, it shall require obedience by vehicular traffic as follows:

(a) When a red lens is illuminated with rapid intermittent flashes, drivers of vehicles shall stop at a clearly marked stop line but, if none, before entering the crosswalk on the near side of the intersection or, if none, then at the point nearest the intersecting roadway where the driver has a view of approaching traffic on the intersecting roadway before entering the intersection, and the right to proceed shall be subject to the rules applicable after making a stop at a stop sign.

(b) When a yellow lens is illuminated with rapid intermittent flashes, drivers of vehicles may proceed past such signal and through the intersection or other hazardous location only with caution.

(2) This section shall not apply at railroad grade crossings. Conduct of drivers of vehicles approaching railroad crossings shall be governed by the provisions of sections 706 to 708.

(3) Deleted.

606. Display of unauthorized signs or devices.

(1) No person shall place, maintain, or display upon or in view of any highway any unauthorized sign, signal, marking, or device which purports to be or is an imitation of or resembles an official traffic control device or railroad sign or signal, or which attempts to direct the movement of traffic, or which hides from view or interferes with the effectiveness of any official traffic control device or any railroad sign or signal, and no person shall place or maintain nor shall any public authority permit upon any highway any traffic sign or signal bearing thereon any commercial advertising. The provisions of this section shall not be deemed to prohibit the use of motorist services information of a general nature on official highway guide signs if such signs do not indicate the brand, trademark, or name of any private business or commercial enterprise offering the service, nor shall this section be deemed to prohibit the erection upon private property adjacent to highways of signs giving useful directional information and of a type that cannot be mistaken for official signs.

(2) Every such prohibited sign, signal, or marking is declared to be a public nuisance, and the authority having jurisdiction over the highway is empowered to remove the same or cause it to be removed without notice.

(3) Deleted.

(4) The provisions of this section shall not be applicable to informational sites authorized under section 43-1-405, C.R.S.

(5) The provisions of this section shall not be applicable to specific information signs authorized under section 43-1-420, C.R.S.

607. Interference with official devices.

(1) (a) No person shall, without lawful authority, attempt to or in fact alter, deface, injure, knock down, remove, or interfere with the effective operation of any official traffic control device or any railroad sign or signal or any inscription, shield, or insignia thereon or any other part thereof.

(b) No person shall possess or sell, without lawful authority, an electronic device that is designed to cause a traffic light to change.

(2) (a) No person shall use an electronic device, without lawful authority, that causes a traffic light to change.

(b) Delete.

608. Signals by hand or signal device.

(1) Any stop or turn signal when required as provided by section 903 shall be given either by means of the hand and arm as provided by section 609 or by signal lamps or signal device of the type approved by the department, except as otherwise provided in subsection (2) of this section.

(2) Any motor vehicle in use on a highway shall be equipped with, and the required signal shall be given by, signal lamps when the distance from the center of the top of the steering post to the left outside limit of the body, cab, or load of such motor vehicle exceeds twenty-four inches or when the distance from the center of the top of the steering post to the rear limit of the body or load thereof exceeds fourteen feet. The latter measurement shall apply to any single vehicle, also to any combination of vehicles.

(3) Deleted.

609. Method of giving hand and arm signals.

(1) All signals required to be given by hand and arm shall be given from the left side of the vehicle in the following manner, and such signals shall indicate as follows:

(a) Left-turn, hand and arm extended horizontally;

(b) Right-turn, hand and arm extended upward;

(c) Stop or decrease speed, hand and arm extended downward.

(2) Deleted.

610. Unauthorized insignia.

No owner shall display upon any part of the owner's vehicle any official designation, sign, or insignia of any public or quasi-public corporation or municipal, state, or national department or governmental subdivision without authority of such agency or any insignia, badge, sign, emblem, or distinctive mark of any organization or society of which the owner is not a bona fide member or otherwise authorized to display such sign or insignia.

611. Paraplegic persons or persons with disabilities - distress flag.

1) Any paraplegic person or person with a disability when in motor vehicle distress is authorized to display by the side of such person's disabled vehicle a white flag of approximately seven and one-half inches in width and thirteen inches in length, with the letter "D" thereon in red color with an irregular one-half inch red border. Said flag shall be of reflective material so as

to be readily discernible under darkened conditions, and said reflective material must be submitted to and approved by the department of transportation before the same is used.

(2) A person who is not a paraplegic person or a person with a disability shall not use such flag as a signal or for any other purpose.

612. When signals are inoperative or malfunctioning.

(1) Whenever a driver approaches an intersection and faces a traffic control signal which is inoperative or which remains on steady red or steady yellow during several time cycles, the rules controlling entrance to a through street or highway from a stop street or highway, as provided under section 703, shall apply until a police officer assumes control of traffic or until normal operation is resumed. In the event that any traffic control signal at a place other than an intersection should cease to operate or should malfunction as set forth in this section, drivers may proceed through the inoperative or malfunctioning signal only with caution, as if the signal were one of flashing yellow.

(2) Whenever a pedestrian faces a pedestrian-control signal as provided in section 802 which is inoperative or which remains on "Don't Walk" or "Wait" during several time cycles, such pedestrian shall not enter the roadway unless the pedestrian can do so safely and without interfering with any vehicular traffic.

(3) Deleted.

613. Failure to pay toll established by regional transportation authority.

No person shall fail to pay a required fee, toll, rate, or charge established by a regional transportation authority created pursuant to part 6 of Code 4 of title 43, C.R.S., for the privilege of traveling on or using any property included in a regional transportation system pursuant to part 6 of Code 4 of title 43, C.R.S.

614. Designation of highway maintenance, repair, or construction zones - signs - increase in penalties for speeding violations.

(1) (a) If maintenance, repair, or construction activities are occurring or will occur within four hours on a portion of a state highway, the department of transportation may designate such portion of the highway as a highway maintenance, repair, or construction zone. Any person who commits a moving violation in a maintenance, repair, or construction zone that is designated pursuant to this section subject to twice the fine that would otherwise be imposed.

(b) If maintenance, repair, or construction activities are occurring or will occur within four hours on a portion of a roadway that is not a state highway, the public entity conducting the activities may designate such portion of the roadway as a maintenance, repair, or construction zone. Any person who commits a moving violation in a maintenance, repair, or construction zone that is designated pursuant to this section shall be subject to twice the fine that would otherwise be imposed.

(2) Local authorities, within their jurisdiction, shall designate a maintenance, repair, or construction zone by erecting or placing an appropriate sign in a conspicuous place before the area where the maintenance, repair, or construction activity is taking place or will be taking place within four hours. Such sign shall notify the public that increased penalties for traffic violations are in effect in such zone. Local authorities shall erect or place a second sign after such zone indicating that the increased penalties for traffic violations are no longer in effect. A maintenance, repair, or construction zone begins at the location of the sign indicating that

increased penalties are in effect and ends at the location of the sign indicating that the increased penalties are no longer in effect.

(3) Signs used for designating the beginning and end of a maintenance, construction, or repair zone shall conform to department of transportation requirements. Local authorities may display such signs on any fixed, variable, or movable stand. Local authorities may place such a sign on a moving vehicle if required for certain activities, including, but not limited to, highway painting work.

615. School zones - increase in penalties for moving traffic violations.

(1) Any person who commits a moving traffic violation in a school zone shall be subject to twice the fine that would otherwise be imposed.

(2) For the purposes of this section, "school zone" means an area that is designated as a school zone and has appropriate signs posted indicating that the penalties and surcharges will be doubled. The state or local government having jurisdiction over the placement of traffic signs and traffic control devices in the school zone area shall designate when the area will be deemed to be a school zone for the purposes of this section. In making such designation, the state or local government shall consider when increased penalties are necessary to protect the safety of school children.

(3) This section does not apply if the penalty and surcharge for a violation has been doubled pursuant to section 614 because such violation also occurred within a highway maintenance, repair, or construction zone.

617. High traffic hazard routes.

(1) The city may designate streets and highways within its jurisdiction as high traffic hazard routes based upon relevant factors, including, but not limited to, history of traffic accidents, history of traffic violations, or conditions on the street or on adjacent property that might contribute to causing hazards, such as limited sight distance, side street traffic, pedestrian traffic, construction area, school zone, truck traffic, number of driveways opening onto the street or other hazardous conditions.

(2) Upon designation of a street or highway or portion thereof as a high traffic hazard route, the city shall erect or place an appropriate sign in a conspicuous place immediately preceding the commencement of a high-traffic hazard route notifying the public that increased penalties for traffic violations are in effect in such zone. A second sign shall be erected after such zone indicating that the increased penalties for traffic violations are no longer in effect.

(3) Any person who commits a moving traffic violation in a designated high-traffic hazard route shall be subject to twice the fine that would otherwise be imposed.

PART 7
RIGHTS-OF-WAY

701. Vehicles approaching or entering intersection.

(1) When two vehicles approach or enter an intersection from different highways at approximately the same time, the driver of the vehicle on the left shall yield the right-of-way to the vehicle on the right.

(2) The foregoing rule is modified at through highways and otherwise as stated in sections 702 to 704.

(3) Deleted.

702. Vehicle turning left.

The driver of a vehicle intending to turn to the left within an intersection or into an alley, private road, or driveway shall yield the right-of-way to any vehicle approaching from the opposite direction which is within the intersection or so close thereto as to constitute an immediate hazard.

703. Entering through highway - stop or yield intersection.

(1) The department of transportation and local authorities, within their respective jurisdictions, may erect and maintain stop signs, yield signs, or other official traffic control devices to designate through highways or to designate intersections or other roadway junctions at which vehicular traffic on one or more of the roadways is directed to yield or to stop and yield before entering the intersection or junction. In the case of state highways, such regulations shall be subject to the provisions of section 43-2-135 (1) (g), C.R.S.

(2) Every sign erected pursuant to subsection (1) of this section shall be a standard sign adopted by the department of transportation.

(3) Except when directed to proceed by a police officer, every driver of a vehicle approaching a stop sign shall stop at a clearly marked stop line, but if none, before entering the crosswalk on the near side of the intersection, or if none, then at the point nearest the intersecting roadway where the driver has a view of approaching traffic on the intersecting roadway before entering it. After having stopped, the driver shall yield the right-of-way to any vehicle in the intersection or approaching on another roadway so closely as to constitute an immediate hazard during the time when such driver is moving across or within the intersection or junction of roadways.

(4) The driver of a vehicle approaching a yield sign, in obedience to such sign, shall slow to a speed reasonable for the existing conditions and, if required for safety to stop, shall stop at a clearly marked stop line, but if none, before entering the crosswalk on the near side of the intersection, or if none, then at the point nearest the intersecting roadway where the driver has a view of approaching traffic on the intersecting roadway before entering it. After slowing or stopping, the driver shall yield the right-of-way to any vehicle in the intersection or approaching on another roadway so closely as to constitute an immediate hazard during the time such driver is moving across or within the intersection or junction of roadways; except that, if a driver is involved in a collision with a vehicle in the intersection or junction of roadways after driving past a yield sign without stopping, such collision shall be deemed prima facie evidence of the driver's failure to yield right-of-way.

(5) Deleted.

704. Vehicle entering roadway.

The driver of a vehicle about to enter or cross a roadway from any place other than another roadway shall yield the right-of-way to all vehicles approaching on the roadway to be entered or crossed.

705. Operation of vehicle approached by emergency vehicle - operation of vehicle approaching stationary emergency vehicle.

(1) Upon the immediate approach of an authorized emergency vehicle making use of audible or visual signals meeting the requirements of section 213 or 222, the driver of every other vehicle shall yield the right-of-way and where possible shall immediately clear the farthest left hand lane lawfully available to through traffic and shall drive to a position parallel to, and as close as possible to, the right-hand edge or curb of a roadway clear of any intersection and shall stop and remain in that position until the authorized emergency vehicle has passed, except when otherwise directed by a police officer.

(2) (a) A driver in a vehicle that is approaching or passing a stationary authorized emergency vehicle that is giving a visual signal by means of flashing, rotating, or oscillating red, blue, or white lights as permitted by section 213 or 222, shall exhibit due care and caution and proceed as described in paragraphs (b) and (c) of this subsection (2).

(b) On a highway with at least two adjacent lanes proceeding in the same direction on the same side of the highway where a stationary authorized emergency vehicle is located, the driver of an approaching or passing vehicle shall proceed with due care and caution and yield the right-of-way by moving into a lane at least one moving lane apart from the stationary authorized emergency vehicle, unless directed otherwise by a peace officer or other authorized emergency personnel. If movement to an adjacent moving lane is not possible due to weather, road conditions, or the immediate presence of vehicular or pedestrian traffic, the driver of the approaching vehicle shall proceed in the manner described in paragraph (c) of this subsection (2).

(c) On a highway that does not have at least two adjacent lanes proceeding in the same direction on the same side of the highway where a stationary authorized emergency vehicle is located, or if movement by the driver of the approaching vehicle into an adjacent moving lane, as described in paragraph (b) of this subsection (2), is not possible, the driver of an approaching vehicle shall reduce and maintain a safe speed with regard to the location of the stationary authorized vehicle, weather conditions, road conditions, and vehicular or pedestrian traffic and proceed with due care and caution, or as directed by a peace officer or other authorized emergency personnel.

(2.5) (a) A driver in a vehicle that is approaching or passing a maintenance, repair, or construction vehicle that is moving at less than twenty miles per hour shall exhibit due care and caution and proceed as described in paragraphs (b) and (c) of this subsection (2.5).

(b) On a highway with at least two adjacent lanes proceeding in the same direction on the same side of the highway where a stationary or slow-moving maintenance, repair, or construction vehicle is located, the driver of an approaching or passing vehicle shall proceed with due care and caution and yield the right-of-way by moving into a lane at least one moving lane apart from the vehicle, unless directed otherwise by a peace officer or other authorized emergency personnel. If movement to an adjacent moving lane is not possible due to weather, road conditions, or the

immediate presence of vehicular or pedestrian traffic, the driver of the approaching vehicle shall proceed in the manner described in paragraph (c) of this subsection (2.5).

(c) On a highway that does not have at least two adjacent lanes proceeding in the same direction on the same side of the highway where a stationary or slow-moving maintenance, repair, or construction vehicle is located, or if movement by the driver of the approaching vehicle into an adjacent moving lane, as described in paragraph (b) of this subsection (2.5), is not possible, the driver of an approaching vehicle shall reduce and maintain a safe speed with regard to the location of the stationary or slow-moving maintenance, repair, or construction vehicle, weather conditions, road conditions, and vehicular or pedestrian traffic, and shall proceed with due care and caution, or as directed by a peace officer or other authorized emergency personnel.

(2.6) (a) A driver in a vehicle that is approaching or passing a motor vehicle where the tires are being equipped with chains on the side of the highway shall exhibit due care and caution and proceed as described in paragraphs (b) and (c) of this subsection (2.6).

(b) On a highway with at least two adjacent lanes proceeding in the same direction on the same side of the highway where chains are being applied to the tires of a motor vehicle, the driver of an approaching or passing vehicle shall proceed with due care and caution and yield the right-of-way by moving into a lane at least one moving lane apart from the vehicle, unless directed otherwise by a peace officer or other authorized emergency personnel. If movement to an adjacent moving lane is not possible due to weather, road conditions, or the immediate presence of vehicular or pedestrian traffic, the driver of the approaching vehicle shall proceed in the manner described in paragraph (c) of this subsection (2.6).

(c) On a highway that does not have at least two adjacent lanes proceeding in the same direction on the same side of the highway where chains are being applied to the tires of a motor vehicle, or if movement by the driver of the approaching vehicle into an adjacent moving lane, as described in paragraph (b) of this subsection (2.6), is not possible, the driver of an approaching vehicle shall reduce and maintain a safe speed with regard to the location of the motor vehicle where chains are being applied to the tires, weather conditions, road conditions, and vehicular or pedestrian traffic, and shall proceed with due care and caution, or as directed by a peace officer or other authorized emergency personnel.

(3) Deleted.

706. Obedience to railroad signal.

(1) Any driver of a motor vehicle approaching a railroad crossing sign shall slow down to a speed that is reasonable and safe for the existing conditions. If required to stop for a traffic control device, flagperson, or safety before crossing the railroad grade crossing, the driver shall stop at the marked stop line, if any. If no such stop line exists, the driver shall:

(a) Stop not less than fifteen feet nor more than fifty feet from the nearest rail of the railroad grade crossing and shall not proceed until the railroad grade can be crossed safely; or

(b) In the event the driver would not have a reasonable view of approaching trains when stopped pursuant to paragraph (a) of this subsection (1), stop before proceeding across the railroad grade crossing at the point nearest such crossing where the driver has a reasonable view of approaching trains and not proceed until the railroad grade can be crossed safely.

(2) No person shall drive any vehicle through, around, or under any crossing gate or barrier at a railroad crossing while such gate or barrier is closed or is being opened or closed, nor shall any pedestrian pass through, around, over, or under any crossing gate or barrier at a railroad grade crossing while such gate or barrier is closed or is being opened or closed.

(3) Deleted.

707. Certain vehicles must stop at railroad grade crossings.

(1) Except as otherwise provided in this section, the driver of a school bus, as defined in paragraph (b) of subsection (5) of this section, carrying any schoolchild, the driver of a vehicle carrying hazardous materials that is required to be placarded in accordance with regulations issued pursuant to section 42-20-108 CRS, or the driver of a commercial vehicle, as defined in section 42-4-235 CRS, that is transporting passengers, before crossing at grade any tracks of a railroad, shall stop such vehicle within fifty feet but not less than fifteen feet from the nearest rail of such railroad and while so stopped shall listen and look in both directions along such track for any approaching train and for signals indicating the approach of a train and shall not proceed until the driver can do so safely. After stopping as required in this section and upon proceeding when it is safe to do so, the driver of any said vehicle shall cross only in such gear of the vehicle that there will be no necessity for changing gears while traversing such crossing, and the driver shall not manually shift gears while crossing the tracks.

(2) This section shall not apply at street railway grade crossings within a business district.

(3) When stopping as required at such railroad crossing, the driver shall keep as far to the right of the roadway as possible and shall not form two lanes of traffic unless the roadway is marked for four or more lanes of traffic.

(4) Subsection (1) of this section shall not apply at:

(a) (Deleted by amendment, L. 2006, p. 42, §1, effective July 1, 2006.)

(b) Any railroad grade crossing at which traffic is regulated by a traffic control signal;

(c) Any railroad grade crossing at which traffic is controlled by a police officer or human flagperson;

(d) Any railroad crossing where state or local road authorities within their respective jurisdictions have determined that trains are not operating during certain periods or seasons of the year and have erected an official sign carrying the legend “exempt”, which shall give notice when so posted that such crossing is exempt from the stopping requirement provided for in this section.

(5) For the purposes of this section:

(a) The definition of hazardous materials shall be the definition contained in the rules adopted by the chief of the Colorado state patrol pursuant to section 42-20-108 CRS.

(b) “School bus” means only those school buses that are required to bear on the front and rear of such school bus the words “SCHOOL BUS” and display visual signal lights pursuant to section 42-4-1903(2)(a) C.R.S.

(6) Deleted.

708. Moving heavy equipment at railroad grade crossing.

(1) No person shall operate or move any crawler-type tractor, steam shovel, derrick, or roller or any equipment or structure having a normal operating speed of ten or less miles per hour or a vertical body or load clearance of less than nine inches above the level surface of a roadway upon or across any tracks at a railroad grade crossing without first complying with this section.

(2) Notice of any such intended crossing shall be given to a superintendent of such railroad and a reasonable time be given to such railroad to provide proper protection at such crossing.

(3) Before making any such crossing, the person operating or moving any such vehicle or equipment shall first stop the same not less than fifteen feet nor more than fifty feet from the

nearest rail of such railroad, and while so stopped shall listen and look in both directions along such track for any approaching train and for signals indicating the approach of a train, and shall not proceed until the crossing can be made safely.

(4) No such crossing shall be made when warning is given by automatic signal or crossing gates or a flagperson or otherwise of the immediate approach of a railroad train or car.

(5) Subsection (3) of this section shall not apply at any railroad crossing where state or local road authorities within their respective jurisdictions have determined that trains are not operating during certain periods or seasons of the year and have erected an official sign carrying the legend "exempt", which shall give notice when so posted that such crossing is exempt from the stopping requirement provided in this section.

(6) Deleted.

709. Stop when traffic obstructed.

No driver shall enter an intersection or a marked crosswalk or drive onto any railroad grade crossing unless there is sufficient space on the other side of the intersection, crosswalk, or railroad grade crossing to accommodate the vehicle the driver is operating without obstructing the passage of other vehicles, pedestrians, or railroad trains, notwithstanding the indication of any traffic control signal to proceed.

710. Emerging from or entering alley, driveway, or building.

1) The driver of a vehicle emerging from an alley, driveway, building, parking lot, or other place, immediately prior to driving onto a sidewalk or into the sidewalk area extending across any such alleyway, driveway, or entranceway, shall yield the right-of-way to any pedestrian upon or about to enter such sidewalk or sidewalk area extending across such alleyway, driveway, or entranceway, as may be necessary to avoid collision, and when entering the roadway shall comply with the provisions of section 704.

(2) The driver of a vehicle entering an alley, driveway, or entranceway shall yield the right-of-way to any pedestrian within or about to enter the sidewalk or sidewalk area extending across such alleyway, driveway, or entranceway.

(3) No person shall drive any vehicle other than a bicycle, electric assisted bicycle, or any other human-powered vehicle upon a sidewalk or sidewalk area, except upon a permanent or duly authorized temporary driveway.

(4) Deleted.

711. Deleted.

712. Driving in highway work area.

(1) The driver of a vehicle shall yield the right-of-way to any authorized vehicle or pedestrian engaged in work upon a highway within any highway construction or maintenance work area indicated by official traffic control devices.

(2) The driver of a vehicle shall yield the right-of-way to any authorized service vehicle engaged in work upon a highway whenever such vehicle displays flashing lights meeting the requirements of section 214.

(3) Local road authorities, within their respective jurisdictions and in cooperation with law enforcement agencies, may train and appoint adult civilian personnel for special traffic duty as highway flagpersons within any highway maintenance or construction work area. Whenever such duly authorized flagpersons are wearing the badge, insignia, or uniform of their office, are

engaged in the performance of their respective duties, and are displaying any official hand signal device of a type and in the manner prescribed in the adopted state traffic control manual or supplement thereto for signaling traffic in such areas to stop or to proceed, no person shall willfully fail or refuse to obey the visible instructions or signals so displayed by such flagpersons. Any alleged willful failure or refusal of a driver to comply with such instructions or signals, including information as to the identity of the driver and the license plate number of the vehicle alleged to have been so driven in violation, shall be reported by the work area supervisor in charge at the location to the district attorney for appropriate penalizing action in a court of competent jurisdiction.

713. Yielding right-of-way to transit buses - definitions - penalty.

- (1) As used in this section, unless the context otherwise requires:
 - (a) "Public mass transit operator" has the same meaning as in section 43-1-102 (5), C.R.S.
 - (b) "Transit bus" means a bus operated by a public mass transit operator.
- (2) Drivers of vehicles in the same lane of traffic and behind a transit bus shall yield the right-of-way to the bus if:
 - (a) The driver of the transit bus, after stopping to allow passengers to board or exit, is signaling an intention to enter a traffic lane; and
 - (b) A yield sign as described in subsection (3) of this section is displayed and illuminated on the back of the transit bus.
- (3) The yield sign referred to in paragraph (b) of subsection (2) of this section shall:
 - (a) Warn a driver of a vehicle behind the transit bus that the driver is required to yield when the bus is entering a traffic lane; and
 - (b) Be illuminated when the driver of the transit bus is attempting to enter a traffic lane.
- (4) This section does not require a public mass transit operator to install yield signs as described in subsection (3) of this section on transit buses operated by the public mass transit operator.
- (5) This section does not relieve a driver of a transit bus from the duty to drive with due regard for the safety of all persons using the roadway.

**PART 8
PEDESTRIANS**

801. Pedestrian obedience to traffic control devices and traffic regulations.

(1) A pedestrian shall obey the instructions of any official traffic control device specifically applicable to the pedestrian, unless otherwise directed by a police officer.

(2) Pedestrians shall be subject to traffic and pedestrian-control signals as provided in sections 604 and 802 (5).

(3) At all other places, pedestrians shall be accorded the privileges and shall be subject to the restrictions stated in this Code.

(4) Deleted.

802. Pedestrians' right-of-way in crosswalks.

(1) When traffic control signals are not in place or not in operation, the driver of a vehicle shall yield the right-of-way, slowing down or stopping if need be to so yield, to a pedestrian crossing the roadway within a crosswalk when the pedestrian is upon the half of the roadway upon which the vehicle is traveling or when the pedestrian is approaching so closely from the opposite half of the roadway as to be in danger.

(2) Subsection (1) of this section shall not apply under the conditions stated in section 803.

(3) No pedestrian shall suddenly leave a curb or other place of safety and ride a bicycle, ride an electrical assisted bicycle, walk, or run into the path of a moving vehicle that is so close as to constitute an immediate hazard.

(4) Whenever any vehicle is stopped at a marked crosswalk or at any unmarked crosswalk at an intersection to permit a pedestrian to cross the roadway, the driver of any other vehicle approaching from the rear shall not overtake and pass such stopped vehicle.

(5) Whenever special pedestrian-control signals exhibiting "Walk" or "Don't Walk" word or symbol indications are in place, as declared in the traffic control manual adopted by the department of transportation, such signals shall indicate and require as follows:

(a) "Walk" (steady): While the "Walk" indication is steadily illuminated, pedestrians facing such signal may proceed across the roadway in the direction of the signal indication and shall be given the right-of-way by the drivers of all vehicles.

(b) "Don't Walk" (steady): While the "Don't Walk" indication is steadily illuminated, no pedestrian shall enter the roadway in the direction of the signal indication.

(c) "Don't Walk" (flashing): Whenever the "Don't Walk" indication is flashing, no pedestrian shall start to cross the roadway in the direction of such signal indication, but any pedestrian who has partly completed crossing during the "Walk" indication shall proceed to a sidewalk or to a safety island, and all drivers of vehicles shall yield to any such pedestrian.

(d) Whenever a signal system provides for the stopping of all vehicular traffic and the exclusive movement of pedestrians and "Walk" and "Don't Walk" signal indications control such pedestrian movement, pedestrians may cross in any direction between corners of the intersection offering the shortest route within the boundaries of the intersection while the "Walk" indication is exhibited, if signals and other official devices direct pedestrian movement in such manner consistent with section 803 (4).

(6) Deleted.

803. Crossing at other than crosswalks.

(1) Every pedestrian crossing a roadway at any point other than within a marked crosswalk or within an unmarked crosswalk at an intersection shall yield the right-of-way to all vehicles upon the roadway.

(2) Any pedestrian crossing a roadway at a point where a pedestrian tunnel or overhead pedestrian crossing has been provided shall yield the right-of-way to all vehicles upon the roadway.

(3) Between adjacent intersections at which traffic control signals are in operation, pedestrians shall not cross at any place except in a marked crosswalk.

(4) No pedestrian shall cross a roadway intersection diagonally unless authorized by official traffic control devices; and, when authorized to cross diagonally, pedestrians shall cross only in accordance with the official traffic control devices pertaining to such crossing movements.

(5) Deleted

804. Pedestrian to use right half of crosswalk. (Repealed)

805. Pedestrians walking or traveling in a wheelchair on highways.

(1) Pedestrians walking or traveling in a wheelchair along and upon highways where sidewalks are not provided shall walk or travel only on a road shoulder as far as practicable from the edge of the roadway. Where neither a sidewalk nor road shoulder is available, any pedestrian walking or traveling in a wheelchair along and upon a highway shall walk as near as practicable to an outside edge of the roadway and, in the case of a two-way roadway, shall walk or travel only on the left side of the roadway facing traffic that may approach from the opposite direction; except that any person lawfully soliciting a ride may stand on either side of such two-way roadway where there is a view of traffic approaching from both directions.

(2) No person shall stand in a roadway for the purpose of soliciting a ride from the driver of any private vehicle. For the purposes of this subsection (2), "roadway" means that portion of the road normally used by moving motor vehicle traffic.

(3) It is unlawful for any person who is under the influence of alcohol or of any controlled substance, as defined in section 12-22-303 (7), C.R.S., or of any stupefying drug to walk or be upon that portion of any highway normally used by moving motor vehicle traffic.

(4) This section applying to pedestrians shall also be applicable to riders of animals.

(5) The city may regulate the use by pedestrians of streets and highways under its jurisdiction to the extent authorized under subsection (6) of this section and sections 42-4-110 and 111, C.R.S., but no rule regulating such use of streets and highways in a manner differing from this section shall be effective until official signs or devices giving notice thereof have been placed as required by section 42-4-111(2), C.R.S.

(6) No person shall solicit a ride on any highway included in the interstate system, as defined in section 43-2-101 (2), C.R.S., except at an entrance to or exit from such highway or at places specifically designated by the department of transportation; or, in an emergency affecting a vehicle or its operation, a driver or passenger of a disabled vehicle may solicit a ride on any highway.

(7) Pedestrians shall only be picked up where there is adequate road space for vehicles to pull off and not endanger and impede the flow of traffic.

(8) Upon the immediate approach of an authorized emergency vehicle making use of audible or visual signals meeting the requirements of section 213 or of a police vehicle properly and lawfully making use of an audible signal only, every pedestrian shall yield the right-of-way to the authorized emergency vehicle and shall leave the roadway and remain off the same until the authorized emergency vehicle has passed, except when otherwise directed by a police officer. This subsection (8) shall not relieve the driver of an authorized emergency vehicle from the duty to use due care as provided in sections 108(4) and 807.

(9) Deleted.

806. Driving through safety zone prohibited.

No vehicle at any time shall be driven through or within a safety zone.

807. Drivers to exercise due care.

Notwithstanding any of the provisions of this Code, every driver of a vehicle shall exercise due care to avoid colliding with any pedestrian upon any roadway and shall give warning by sounding the horn when necessary and shall exercise proper precaution upon observing any child or any obviously confused or incapacitated person upon a roadway.

808. Drivers and pedestrians, other than persons in wheelchairs, to yield to persons with disabilities.

Any pedestrian, other than a person in a wheelchair, or any driver of a vehicle who approaches a person who has an obviously apparent disability of blindness, deafness, or mobility impairment shall immediately come to a full stop and take such precautions before proceeding as are necessary to avoid an accident or injury to said person. A disability shall be deemed to be obviously apparent if, by way of example and without limitation, the person is using a cane or crutches, is assisted by an assistance dog, as defined in section 24-34-803 (7), C.R.S., is being assisted by another person, is in a wheelchair, or is walking with an obvious physical impairment.

PART 9
TURNING – STOPPING

901. Required position and method of turning.

(1) The driver of a motor vehicle intending to turn shall do so as follows:

(a) **Right turns.** Both the approach for a right turn and a right turn shall be made as close as practicable to the right-hand curb or edge of the roadway.

(b) **Left turns.** The driver of a vehicle intending to turn left shall approach the turn in the extreme left-hand lane lawfully available to traffic moving in the direction of travel of such vehicle. Whenever practicable, the left turn shall be made to the left of the center of the intersection so as to leave the intersection or other location in the extreme left-hand lane lawfully available to traffic moving in the same direction as such vehicle on the roadway being entered.

(c) **Two-way left-turn lanes.** Where a special lane for making left turns by drivers proceeding in opposite directions has been indicated by official traffic control devices in the manner prescribed in the state traffic control manual, a left turn shall not be made from any other lane, and a vehicle shall not be driven in said special lane except when preparing for or making a left turn from or into the roadway or when preparing for or making a U-turn when otherwise permitted by law.

(2) Local authorities in their respective jurisdictions may cause official traffic control devices to be placed and thereby require and direct that a different course from that specified in this section be traveled by turning vehicles, and, when such devices are so placed, no driver shall turn a vehicle other than as directed and required by such devices. In the case of streets which are a part of the state highway system, the local regulation shall be subject to the approval of the department of transportation as provided in section 43-2-135 (1) (g), C.R.S.

(3) Deleted.

902. Limitations on turning around.

(1) No vehicle shall be turned so as to proceed in the opposite direction upon any curve or upon the approach to or near the crest of a grade where such vehicle cannot be seen by the driver of any other vehicle approaching from either direction within such distance as is necessary to avoid interfering with or endangering approaching traffic.

(2) The driver of any vehicle shall not turn such vehicle at an intersection or any other location so as to proceed in the opposite direction unless such movement can be made in safety and without interfering with or endangering other traffic.

(3) Local authorities, within their respective jurisdictions, subject to the provisions of section 43-2-135 (1) (g), C.R.S., in the case of streets which are state highways, may erect “U-turn” prohibition or restriction signs at intersections or other locations where such movements are deemed to be hazardous, and, whenever official signs are so erected, no driver of a vehicle shall disobey the instructions thereof.

(4) Deleted.

903. Turning movements and required signals.

(1) No person shall turn a vehicle at an intersection unless the vehicle is in proper position upon the roadway as required in section 901, or turn a vehicle to enter a private road or driveway,

or otherwise turn a vehicle from a direct course or move right or left upon a roadway unless and until such movement can be made with reasonable safety and then only after giving an appropriate signal in the manner provided in sections 608 and 609.

(2) A signal of intention to turn right or left shall be given continuously during not less than the last one hundred feet traveled by the vehicle before turning in urban or metropolitan areas and shall be given continuously for at least two hundred feet on all four-lane highways and other highways where the prima facie or posted speed limit is more than forty miles per hour. Such signals shall be given regardless of existing weather conditions.

(3) No person shall stop or suddenly decrease the speed of a vehicle without first giving an appropriate signal in the manner provided in sections 608 and 609 to the driver of any vehicle immediately to the rear when there is opportunity to give such signal.

(4) The signals provided for in section 608 (2) shall be used to indicate an intention to turn, change lanes, or start from a parked position and shall not be flashed on one side only on a parked or disabled vehicle or flashed as a courtesy or "do pass" signal to operators of other vehicles approaching from the rear.

(5) Deleted.

PART 10
DRIVING - OVERTAKING – PASSING

1001. Drive on right side - exceptions.

(1) Upon all roadways of sufficient width, a vehicle shall be driven upon the right half of the roadway, except as follows:

(a) When overtaking and passing another vehicle proceeding in the same direction under the rules governing such movement;

(b) When an obstruction exists making it necessary to drive to the left of the center of the highway; but any person so doing shall yield the right-of-way to all vehicles traveling in the proper direction upon the unobstructed portion of the highway within such distance as to constitute an immediate hazard;

(c) Upon a roadway divided into three lanes for traffic under the rules applicable thereon;
or

(d) Upon a roadway restricted to one-way traffic as indicated by official traffic control devices.

(2) Upon all roadways any vehicle proceeding at less than the normal speed of traffic at the time and place and under the conditions then existing shall be driven in the right-hand lane then available for traffic or as close as practicable to the right-hand curb or edge of the roadway, except when overtaking and passing another vehicle proceeding in the same direction or when preparing for a left turn at an intersection or into a private road or driveway.

(3) Upon any roadway having four or more lanes for moving traffic and providing for two-way movement of traffic, no vehicle shall be driven to the left of the center line of the roadway, except when authorized by official traffic control devices designating certain lanes to the left side of the center of the roadway for use by traffic not otherwise permitted to use such lanes or except as permitted under subsection (1) (b) of this section. However, this subsection (3) does not prohibit the crossing of the center line in making a left turn into or from an alley, private road, or driveway when such movement can be made in safety and without interfering with, impeding, or endangering other traffic lawfully using the highway.

(4) Deleted.

1002. Passing oncoming vehicles.

(1) Drivers of vehicles proceeding in opposite directions shall pass each other to the right, and, upon roadways having width for not more than one lane of traffic in each direction, each driver shall give to the other at least one-half of the main traveled portion of the roadway as nearly as possible.

(2) A driver shall not pass a bicyclist moving in the same direction and in the same lane when there is oncoming traffic unless the driver can simultaneously:

(a) Allow oncoming vehicles at least one-half of the main-traveled portion of the roadway in accordance with subsection (1) of this section; and

(b) Allow the bicyclist at least a three-foot separation between the right side of the driver's vehicle, including all mirrors or other projections, and the left side of the bicyclist at all times.

(3) Deleted.

1003. Overtaking a vehicle on the left.

(1) The following rules shall govern the overtaking and passing of vehicles proceeding in the same direction, subject to the limitations, exceptions, and special rules stated in this section and sections 1004 to 1008:

(a) The driver of a vehicle overtaking another vehicle proceeding in the same direction shall pass to the left of the vehicle at a safe distance and shall not again drive to the right side of the roadway until safely clear of the overtaken vehicle.

(b) The driver of a motor vehicle overtaking a bicyclist proceeding in the same direction shall allow the bicyclist at least a three-foot separation between the right side of the driver's vehicle, including all mirrors or other projections, and the left side of the bicyclist at all times.

(c) Except when overtaking and passing on the right is permitted, the driver of an overtaken vehicle shall give way to the right in favor of the overtaking vehicle on audible signal and shall not increase the speed of the driver's vehicle until completely passed by the overtaking vehicle.

(2) Deleted.

1004. When overtaking on the right is permitted.

(1) The driver of a vehicle may overtake and pass upon the right of another vehicle only under the following conditions:

(a) When the vehicle overtaken is making or giving indication of making a left turn;

(b) Upon a street or highway with unobstructed pavement not occupied by parked vehicles and marked for two or more lanes of moving vehicles in each direction; or

(c) Upon a one-way street or upon any roadway on which traffic is restricted to one direction of movement where the roadway is free from obstructions and marked for two or more lanes of moving vehicles.

(1.5) The driver of a motor vehicle upon a one-way roadway with two or more marked traffic lanes, when overtaking a bicyclist proceeding in the same direction and riding on the left-hand side of the road, shall allow the bicyclist at least a three-foot separation between the left side of the driver's vehicle, including all mirrors or other projections, and the right side of the bicyclist at all times.

(2) The driver of a vehicle may overtake and pass another vehicle upon the right only under conditions permitting such movement in safety. In no event shall such movement be made by driving off the pavement or main-traveled portion of the roadway.

(3) Deleted.

1005. Limitations on overtaking on the left.

(1) No vehicle shall be driven to the left side of the center of the roadway in overtaking and passing another vehicle proceeding in the same direction unless authorized by the provisions of this Code and unless such left side is clearly visible and is free of oncoming traffic for a sufficient distance ahead to permit such overtaking and passing to be completed without interfering with the operation of any vehicle approaching from the opposite direction or any vehicle overtaken. In every event the overtaking vehicle must return to an authorized lane of travel as soon as practicable and, in the event the passing movement involves the use of a lane authorized for vehicles approaching from the opposite direction, before coming within two hundred feet of any approaching vehicle.

(2) No vehicle shall be driven on the left side of the roadway under the following conditions:

(a) When approaching or upon the crest of a grade or a curve in the highway where the driver's view is obstructed within such distance as to create a hazard in the event another vehicle might approach from the opposite direction;

(b) When approaching within one hundred feet of or traversing any intersection or railroad grade crossing; or

(c) When the view is obstructed upon approaching within one hundred feet of any bridge, viaduct, or tunnel.

(3) Local authorities are authorized to determine those portions of any highway under their respective jurisdictions where overtaking and passing or driving on the left side of the roadway would be especially hazardous and may by appropriate signs or markings on the roadway indicate the beginning and end of such zones. Where such signs or markings are in place to define a no-passing zone and such signs or markings are clearly visible to an ordinarily observant person, no driver shall drive on the left side of the roadway within such no-passing zone or on the left side of any pavement striping designed to mark such no-passing zone throughout its length.

(4) The provisions of this section shall not apply:

(a) Upon a one-way roadway;

(b) Under the conditions described in section 1001 (1) (b);

(c) To the driver of a vehicle turning left into or from an alley, private road, or driveway when such movement can be made in safety and without interfering with, impeding, or endangering other traffic lawfully using the highway; or

(d) To the driver of a vehicle passing a bicyclist moving the same direction and in the same lane when such movement can be made in safety and without interfering with, impeding, or endangering other traffic lawfully using the highway.

(5) Deleted.

1006. One-way roadways and rotary traffic islands.

(1) Upon a roadway restricted to one-way traffic, a vehicle shall be driven only in the direction designated at all or such times as shall be indicated by official traffic control devices.

(2) A vehicle passing around a rotary traffic island shall be driven only to the right of such island.

(3) Local authorities with respect to highways under their respective jurisdictions may designate any roadway, part of a roadway, or specific lanes upon which vehicular traffic shall proceed in one direction at all or such times as shall be indicated by official traffic control devices. In the case of streets which are a part of the state highway system, the regulation shall be subject to the approval of the department of transportation pursuant to section 43-2-135 (1) (g), C.R.S.

(4) Deleted.

1007. Driving on roadways laned for traffic.

(1) Whenever any roadway has been divided into two or more clearly marked lanes for traffic, the following rules in addition to all others consistent with this section shall apply:

(a) A vehicle shall be driven as nearly as practicable entirely within a single lane and shall not be moved from such lane until the driver has first ascertained that such movement can be made with safety.

(b) Upon a roadway which is divided into three lanes and provides for two-way movement of traffic, a vehicle shall not be driven in the center lane except when overtaking and passing another vehicle traveling in the same direction where the roadway is clearly visible and such center lane is clear of traffic within a safe distance, or in preparation for a left turn, or where such center lane is at the time allocated exclusively to the traffic moving in the direction the vehicle is proceeding and is designated by official traffic control devices to give notice of such allocation. Under no condition shall an attempt be made to pass upon the shoulder or any portion of the roadway remaining to the right of the indicated right-hand traffic lane.

(c) Official traffic control devices may be erected directing specified traffic to use a designated lane or designating those lanes to be used by traffic moving in a particular direction regardless of the center of the roadway, and drivers of vehicles shall obey the directions of every such device.

(d) Official traffic control devices may be installed prohibiting the changing of lanes on sections of roadway, and drivers of vehicles shall obey the directions of every such device.

(2) Deleted.

1008. Following too closely.

(1) The driver of a motor vehicle shall not follow another vehicle more closely than is reasonable and prudent, having due regard for the speed of such vehicles and the traffic upon and the condition of the highway.

(2) The driver of any motor truck or motor vehicle drawing another vehicle when traveling upon a roadway outside of a business or residence district and which is following another motor truck or motor vehicle drawing another vehicle shall, whenever conditions permit, leave sufficient space so that an overtaking vehicle may enter and occupy such space without danger; except that this shall not prevent a motor truck or motor vehicle drawing another vehicle from overtaking and passing any like vehicle or other vehicle.

(3) Motor vehicles being driven upon any roadway outside of a business or residence district in a caravan or motorcade, whether or not towing other vehicles, shall be so operated as to allow sufficient space between each such vehicle or combination of vehicles so as to enable any other vehicle to enter and occupy such space without danger. This provision shall not apply to funeral processions.

(4) Deleted.

1008.5. Crowding or threatening bicyclist.

(1) The driver of a motor vehicle shall not, in a careless and imprudent manner, drive the vehicle unnecessarily close to, toward, or near a bicyclist.

(2) Any person who violates subsection (1) of this section commits careless driving as described in section 1402.

1009. Coasting prohibited.

(1) The driver of any motor vehicle when traveling upon a downgrade shall not coast with the gears or transmission of such vehicle in neutral.

(2) The driver of a truck or bus when traveling upon a downgrade shall not coast with the clutch disengaged.

(3) Deleted.

1010. Driving on divided or controlled-access highways.

(1) Whenever any highway has been divided into separate roadways by leaving an intervening space or by a physical barrier or clearly indicated dividing section so constructed as to impede vehicular traffic, every vehicle shall be driven only upon the right-hand roadway, unless directed or permitted to use another roadway by official traffic control devices. No vehicle shall be driven over, across, or within any such dividing space, barrier, or section, except through an opening in such physical barrier or dividing section or space or at a crossover or intersection as established, unless specifically prohibited by official signs and markings or by the provisions of section 42-4-902. However, this subsection (1) does not prohibit a left turn across a median island formed by standard pavement markings or other mountable or traversable devices as prescribed in the state traffic control manual when such movement can be made in safety and without interfering with, impeding, or endangering other traffic lawfully using the highway.

(2) (a) No person shall drive a vehicle onto or from any controlled-access roadway except at such entrances and exits as are established by public authority.

(b) Wherever an acceleration lane has been provided in conjunction with a ramp entering a controlled-access highway and the ramp intersection is not designated or signed as a stop or yield intersection as provided in section 703 (1), drivers may use the acceleration lane to attain a safe speed for merging with through traffic when conditions permit such acceleration with safety. Traffic so merging shall be subject to the rule governing the changing of lanes as set forth in section 1007 (1) (a).

(c) Wherever a deceleration lane has been provided in conjunction with a ramp leaving a controlled-access highway, drivers shall use such lane to slow to a safe speed for making an exit turn after leaving the mainstream of faster-moving traffic.

(3) Local authorities may prohibit the use of any controlled-access such highway by any class or kind of traffic which is found to be incompatible with the normal and safe movement of traffic. After adopting such prohibitory regulations shall install official traffic control devices in conformity with the standards established by sections 601 and 602 at entrance points or along the highway on which such regulations are applicable. When such devices are so in place, giving notice thereof, no person shall disobey the restrictions made known by such devices.

1011. Use of runaway vehicle ramps.

(1) No person shall use a runaway vehicle ramp unless such person is in an emergency situation requiring use of the ramp to stop such person's vehicle.

(2) No person shall stop, stand, or park a vehicle on a runaway vehicle ramp or in the pathway of the ramp.

(3) Any person who violates any provision of this section commits a class A traffic infraction.

1012. High occupancy vehicle (HOV) and high occupancy toll (HOT) lanes.

(1)(a) Local authorities, with respect to streets and highways under their respective jurisdictions, may designate exclusive or preferential lanes for vehicles that carry a specified number of persons. The occupancy level of vehicles and the time of day when lane usage is

restricted to high occupancy vehicles, if applicable, shall be designated by official traffic control devices.

(2) A motorcycle may be operated upon high occupancy vehicle lanes pursuant to section 163 of Public Law 97-424 or upon high occupancy toll lanes, unless prohibited by official traffic control devices.

(2.5) (a) (I) Except as otherwise provided in paragraph (d) of this subsection (2.5), a motor vehicle with a gross vehicle weight of twenty-six thousand pounds or less that is either an inherently low-emission vehicle or a hybrid vehicle may be operated upon high occupancy vehicle lanes without regard to the number of persons in the vehicle and without payment of a special toll or fee. The exemption relating to hybrid vehicles shall apply only if such exemption does not affect the receipt of federal funds and does not violate any federal laws or regulations.

(II) As used in this subsection (2.5), “inherently low-emission vehicle” or “ILEV” means:

(A) A light-duty vehicle or light-duty truck, regardless of whether such vehicle or truck is part of a motor vehicle fleet, that has been certified by the federal environmental protection agency as conforming to the ILEV guidelines, procedures, and standards as published in the federal register at 58 FR 11888 (March 1, 1993) and 59 FR 50042 (September 30, 1994), as amended from time to time; and

(B) A heavy-duty vehicle powered by an engine that has been certified as set forth in subparagraph (A) of this subparagraph (II).

(III) As used in this subsection (2.5), “hybrid vehicle” means a motor vehicle with a hybrid propulsion system that uses an alternative fuel by operating on both an alternative fuel, including electricity, and a traditional fuel.

(b) No person shall operate a vehicle upon a high occupancy vehicle lane pursuant to this subsection (2.5) unless the vehicle:

(I) Meets all applicable federal emission standards set forth in 40 CFR sec. 88.311-93, as amended from time to time, or, subject to subparagraph (I) of paragraph (a) of this subsection (2.5), is a hybrid vehicle; and

(II) Is identified by means of a circular sticker or decal at least four inches in diameter, made of bright orange reflective material, and affixed either to the windshield, to the front of the side view mirror on the driver’s side, or to the front bumper of the vehicle. Said sticker or decal shall be approved by the Colorado department of transportation.

(c) Local authorities, with respect to streets and highways under their respective jurisdictions, shall provide information via official traffic control devices to indicate that ILEVs and, subject to subparagraph (I) of paragraph (a) of this subsection (2.5), hybrid vehicles may be operated upon high occupancy vehicle lanes pursuant to this section. Such information may, but need not, be added to existing printed signs, but as existing printed signs related to high occupancy vehicle lane use are replaced or new ones are erected, such information shall be added. In addition, whenever existing electronic signs are capable of being reprogrammed to carry such information, they shall be so reprogrammed by September 1, 2003.

(d) (I) In consultation with the regional transportation district, the department of transportation and local authorities, with respect to streets and highways under their respective jurisdictions, shall, in connection with their periodic level-of-service evaluation of high occupancy vehicle lanes, perform a level-of-service evaluation of the use of high occupancy vehicle lanes by ILEVs and hybrid vehicles. If the use of high occupancy vehicle lanes by ILEVs or hybrid vehicles is determined to cause a significant decrease in the level of service for other

bona fide users of such lanes, then the department of transportation or a local authority may restrict or eliminate use of such lanes by ILEVs or hybrid vehicles.

(II) If the United States secretary of transportation makes a formal determination that, by giving effect to paragraph (a) of this subsection (2.5) on a particular highway or lane, the state of Colorado would disqualify itself from receiving federal highway funds the state would otherwise qualify to receive or would be required to refund federal transportation grant funds it has already received, then said paragraph (a) shall not be effective as to such highway or lane.

(3) Deleted.

1013. Passing lane - definitions - penalty.

(1) A person shall not drive a motor vehicle in the passing lane of a highway if the speed limit is sixty-five miles per hour or more unless such person is passing other motor vehicles that are in a non-passing lane or turning left, or unless the volume of traffic does not permit the motor vehicle to safely merge into a non-passing lane.

(2) For the purposes of this section:

(a) "Non-passing lane" means any lane that is to the right of the passing lane if there are two or more adjacent lanes of traffic moving in the same direction in one roadway.

(b) "Passing lane" means the farthest to the left lane if there are two or more adjacent lanes of traffic moving in the same direction in one roadway; except that, if such left lane is restricted to high occupancy vehicle use or is designed for left turns only, the passing lane shall be the lane immediately to the right of such high occupancy lane or left-turn lane.

(3) Deleted.

PART 11
SPEED REGULATIONS

1101. Speed limits.

(1) No person shall drive a vehicle on a highway at a speed greater than is reasonable and prudent under the conditions then existing.

(2) Except when a special hazard exists that requires a lower speed, the following speeds shall be lawful:

(a) Twenty miles per hour on narrow, winding mountain highways or on blind curves;

(b) Twenty-five miles per hour in any business district, as defined in section 42-1-102 (11) CRS;

(c) Thirty miles per hour in any residence district, as defined in section 42-1-102 (80) CRS;

(d) Forty miles per hour on open mountain highways;

(e) Forty-five miles per hour for all single rear axle vehicles in the business of transporting trash that exceed twenty thousand pounds, where higher speeds are posted, when said vehicle is loaded as an exempted vehicle pursuant to section 507 (3);

(f) Fifty-five miles per hour on other open highways which are not on the interstate system, as defined in section 43-2-101 (2), C.R.S., and are not surfaced, four-lane freeways or expressways;

(g) Sixty-five miles per hour on surfaced, four-lane highways which are on the interstate system, as defined in section 43-2-101 (2), C.R.S., or are freeways or expressways;

(h) Any speed not in excess of a speed limit designated by an official traffic control device.

(3) No driver of a vehicle shall fail to decrease the speed of such vehicle from an otherwise lawful speed to a reasonable and prudent speed when a special hazard exists with respect to pedestrians or other traffic or by reason of weather or highway conditions.

(4) Except as otherwise provided in paragraph (c) of subsection (8) of this section, any speed in excess of the lawful speeds set forth in subsection (2) of this section shall be prima facie evidence that such speed was not reasonable or prudent under the conditions then existing. As used in this subsection (4), "prima facie evidence" means evidence which is sufficient proof that the speed was not reasonable or prudent under the conditions then existing, and which will remain sufficient proof of such fact, unless contradicted and overcome by evidence bearing upon the question of whether or not the speed was reasonable and prudent under the conditions then existing.

(5) In every charge of violating subsection (1) of this section, the complaint, summons and complaint, or penalty assessment notice shall specify the speed at which the defendant is alleged to have driven and also the alleged reasonable and prudent speed applicable at the specified time and location of the alleged violation.

(6) The provisions of this section shall not be construed to relieve the party alleging negligence under this section in any civil action for damages from the burden of proving that such negligence was the proximate cause of an accident.

(7) Notwithstanding paragraphs (a), (b), and (c) of subsection (2) of this section, the city may adopt absolute speed limits as the maximum lawful speed limits in its jurisdiction, and such speed limits shall not be subject to the provisions of subsection (4) of this section.

(8) (a) (Deleted by amendment, L. 96, p. 578, § 2, effective May 25, 1996.)

(b) Notwithstanding any other provisions of this section, no person shall drive a vehicle on a highway at a speed in excess of a maximum lawful speed limit of seventy-five miles per hour.

(c) The speed limit set forth in paragraph (b) of this subsection (8) is the maximum lawful speed limit and is not subject to the provisions of subsection (4) of this section.

(d) Local authorities within their respective jurisdictions shall not authorize any speed limit which exceeds seventy-five miles per hour on any highway.

(e) The provisions of this subsection (8) are declared to be matters of both local and statewide concern requiring uniform compliance throughout the state.

(f) In every charge of a violation of paragraph (b) of this subsection (8), the complaint, summons and complaint, or penalty assessment notice shall specify the speed at which the defendant is alleged to have driven and also the maximum lawful speed limit of seventy-five miles per hour.

(g) Notwithstanding any other provision of this section, no person shall drive a low-power scooter on a roadway at a speed in excess of forty miles per hour. Local authorities shall not authorize low-power scooters to exceed forty miles per hour on a roadway.

(9) The conduct of a driver of a vehicle which would otherwise constitute a violation of this section is justifiable and not unlawful when:

(a) It is necessary as an emergency measure to avoid an imminent public or private injury which is about to occur by reason of a situation occasioned or developed through no conduct of said driver and which is of sufficient gravity that, according to ordinary standards of intelligence and morality, the desirability and urgency of avoiding the injury clearly outweigh the desirability of avoiding the consequences sought to be prevented by this section; or

(b) With respect to authorized emergency vehicles, the applicable conditions for exemption, as set forth in section 108, exist.

(10) The minimum requirement for commission of a traffic infraction or misdemeanor traffic offense under this section is the performance by a driver of prohibited conduct, which includes a voluntary act or the omission to perform an act which said driver is physically capable of performing.

(11) It shall not be a defense to prosecution for a violation of this section that:

(a) The defendant's conduct was not performed intentionally, knowingly, recklessly, or with criminal negligence; or

(b) The defendant's conduct was performed under a mistaken belief of fact, including, but not limited to, a mistaken belief of the defendant regarding the speed of the defendant's vehicle; or

(c) The defendant's vehicle has a greater operating or fuel-conserving efficiency at speeds greater than the reasonable and prudent speed under the conditions then existing or at speeds greater than the maximum lawful speed limit.

(12) The city is authorized to use automated vehicle identification systems to detect violation of this section.

1102. Altering of speed limits.

(1)(a) Whenever local authorities determine upon the basis of a traffic investigation or survey or upon the basis of appropriate design standards and projected traffic volumes in the case of newly constructed highways or segments thereof that any speed specified or established as

authorized under sections 1101 to 1104 is greater or less than is reasonable or safe under the road and traffic conditions at any intersection or other place or upon any part of a state highway under its jurisdiction, said local authority shall determine and declare a reasonable and safe speed limit thereat which shall be effective when appropriate signs giving notice thereof are erected at such intersection or other place or upon the approaches thereto; except that no speed limit in excess of seventy-five miles per hour shall be authorized by said local authority.

(b) Repealed.

(2) Whenever county or municipal authorities within their respective jurisdictions determine upon the basis of a traffic investigation or survey, or upon the basis of appropriate design standards and projected traffic volumes in the case of newly constructed highways or segments thereof, that any speed specified or established as authorized under sections 1101 to 1104 is greater or less than is reasonable or safe under the road and traffic conditions at any intersection or other place or upon any part of a street or highway in its jurisdiction, said local authority shall determine and declare a reasonable and safe speed limit thereat which shall be effective when appropriate signs giving notice thereof are erected at such intersection or other place or upon the approaches thereto. No such local authority shall have the power to alter the basic rules set forth in section 1101 (1) or in any event to authorize by resolution or ordinance a speed in excess of seventy-five miles per hour.

(3) Local municipal authorities within their respective jurisdictions shall determine upon the basis of a traffic investigation or survey the proper speed for all arterial streets and shall declare a reasonable and safe speed limit thereon which may be greater or less than the speed specified under section 1101 (2) (b) or (2) (c). Such speed limit shall not exceed seventy-five miles per hour and shall become effective when appropriate signs are erected giving notice thereof. For purposes of this subsection (3), an "arterial street" means any United States or state-numbered route, controlled-access highway, or other major radial or circumferential street or highway designated by local authorities within their respective jurisdictions as part of a major arterial system of streets or highways.

(4) No alteration of speed limits on state highways within cities, cities and counties, and incorporated towns shall be effective until such alteration has been approved in writing by the department of transportation. Upon the request of any incorporated city or town having a population of five thousand or less, the department of transportation shall conduct any traffic investigation or survey that is deemed to be warranted for determination of a safe and reasonable speed limit on any street or portion thereof that is a state highway. Any speed limit so determined by said department shall then become effective when declared by the local authority and made known by official signs conforming to the state traffic control manual.

(5) Whenever the local authorities, within their respective jurisdictions, determine upon the basis of a traffic investigation or survey that a reduced speed limit is warranted in a school or construction area or other place during certain hours or periods of the day when special or temporary hazards exist, the department or the concerned local authority may erect or display official signs of a type prescribed in the state traffic control manual giving notice of the appropriate speed limit for such conditions and stating the time or period the regulation is effective. When such signs are erected or displayed, the lawful speed limit at the particular time and place shall be that which is then indicated upon such signs; except that no such speed limit shall be less than twenty miles per hour on a state highway or other arterial street as defined in subsection (3) of this section nor less than fifteen miles per hour on any other road or street, nor shall any such reduced speed limit be made applicable at times when the special conditions for

which it is imposed cease to exist. Such reduced speed limits on streets which are state highways shall be subject to the written approval of the department of transportation before becoming effective.

(6) In its discretion, the city may impose and enforce stop sign regulations and speed limits, not inconsistent with the provisions of sections 1101 to 1104, upon any way which is open to travel by motor vehicles and which is privately maintained in mobile home parks, when appropriate signs giving notice of such enforcement are erected at the entrances to such ways. Unless there is an agreement to the contrary, the jurisdiction ordering the regulations shall be responsible for the erection and maintenance of the signs.

(7) Any powers granted in this section may be exercised by such authorities or by any municipal officer or employee who is designated to exercise such powers.

1103. Minimum speed regulation.

(1) No person shall drive a motor vehicle on any highway at such a slow speed as to impede or block the normal and reasonable forward movement of traffic, except when a reduced speed is necessary for safe operation of such vehicle or in compliance with law.

(2) Whenever the department of transportation or local authorities within their respective jurisdictions determine, on the basis of an engineering and traffic investigation as described in the state traffic control manual, that slow speeds on any part of a highway consistently impede the normal and reasonable movement of traffic, said department or such local authority may determine and declare a minimum speed limit below which no person shall drive a vehicle, except when necessary for safe operation or in compliance with law.

(3) Notwithstanding any minimum speed that may be authorized and posted pursuant to this section, if any person drives a motor vehicle on a highway outside an incorporated area or on any controlled-access highway at a speed less than the normal and reasonable speed of traffic under the conditions then and there existing and by so driving at such slower speed impedes or retards the normal and reasonable movement of vehicular traffic following immediately behind, then such driver shall:

(a) Where the width of the traveled way permits, drive in the right-hand lane available to traffic or on the extreme right side of the roadway consistent with the provisions of section 1001 (2) until such impeded traffic has passed by; or

(b) Pull off the roadway at the first available place where such movement can safely and lawfully be made until such impeded traffic has passed by.

(4) Wherever special uphill traffic lanes or roadside turnouts are provided and posted, drivers of all vehicles proceeding at less than the normal and reasonable speed of traffic shall use such lanes or turnouts to allow other vehicles to pass or maintain normal traffic flow.

(5) Deleted.

1104. Speed limits on elevated structures.

(1) No person shall drive a vehicle over any bridge or other elevated structure constituting a part of a highway at a speed which is greater than the maximum speed which can be maintained with safety to such bridge or structure, when such structure is signposted as provided in this section.

(2) The department of transportation upon request from any local authority shall, or upon its own initiative may, conduct an investigation of any bridge or other elevated structure constituting a part of a highway, and, if it finds that such structure cannot with safety to itself

withstand vehicles traveling at the speed otherwise permissible under sections 1101 to 1104, said department shall determine and declare the maximum speed of vehicles which such structure can withstand and shall cause or permit suitable standard signs stating such maximum speed to be erected and maintained before each end of such structure in conformity with the state traffic control manual.

(3) Upon the trial of any person charged with a violation of this section, proof of said determination of the maximum speed by said department and the existence of said signs shall constitute conclusive evidence of the maximum speed which can be maintained with safety to such bridge or structure.

(4) Deleted.

1105. Speed contests - speed exhibitions - aiding and facilitating - immobilization of motor vehicle - definitions.

(1) (a) Except as otherwise provided in subsection (4) of this section, it is unlawful for a person to knowingly engage in a speed contest on a highway.

(b) For purposes of this section, "speed contest" means the operation of one or more motor vehicles to conduct a race or a time trial, including but not limited to rapid acceleration, exceeding reasonable and prudent speeds for highways and existing traffic conditions, vying for position, or performing one or more lane changes in an attempt to gain advantage over one or more of the other race participants.

(c) Deleted.

(2) (a) Except as otherwise provided in subsection (4) of this section, it is unlawful for a person to knowingly engage in a speed exhibition on a highway.

(b) For purposes of this section, "speed exhibition" means the operation of a motor vehicle to present a display of speed or power. "Speed exhibition" includes, but is not limited to, squealing the tires of a motor vehicle while it is stationary or in motion, rapid acceleration, rapid swerving or weaving in and out of traffic, producing smoke from tire slippage, or leaving visible tire acceleration marks on the surface of the highway or ground.

(c) Deleted.

(3) (a) Except as otherwise provided in subsection (4) of this section, a person shall not, for the purpose of facilitating or aiding or as an incident to any speed contest or speed exhibition upon a highway, in any manner obstruct or place a barricade or obstruction, or assist or participate in placing any such barricade or obstruction, upon a highway.

(b) A person who violates any provision of this subsection (3) commits, pursuant to section 1703, the offense that the person aided in or facilitated the commission of. Nothing in this subsection (3) shall be construed to preclude charging a person under section 1703 for otherwise being a party to the crime of engaging in a speed contest or engaging in a speed exhibition.

(4) The provisions of this section shall not apply to the operation of a motor vehicle in an organized competition according to accepted rules on a designated and duly authorized race track, race course, or drag strip.

(5) (a) In addition to a sentence imposed pursuant to this section or pursuant to any other provision of law:

(I) Upon the second conviction for an offense specified in subsection (1) or (2) of this section, or any other crime, the underlying factual basis of which has been found by the court to include an act of operating a motor vehicle in violation of subsection (1) or (2) of this section, the court may, in its discretion, order the primary law enforcement agency involved with the case to

place an immobilization device on the motor vehicle or motor vehicles so operated for a period of up to fourteen days.

(II) Upon the third or subsequent conviction for an offense specified in subsection (1) or (2) of this section, or any other crime, the underlying factual basis of which has been found by the court to include an act of operating a motor vehicle in violation of subsection (1) or (2) of this section, the court may, in its discretion, order the primary law enforcement agency involved with the case to place an immobilization device on the motor vehicle or motor vehicles so operated for a period of up to thirty days but more than fourteen days.

(b) The period during which a motor vehicle may be fitted with an immobilization device pursuant to paragraph (a) of this subsection (5) shall be in addition to any period during which the motor vehicle was impounded prior to sentencing.

(c) An order issued under this subsection (5) shall state the requirements included in subsections (7) and (8) of this section.

(d) For purposes of this section, “immobilization device” means a device locked into place over a wheel of a motor vehicle that prevents the motor vehicle from being moved. “Immobilization device” includes but is not limited to a device commonly referred to as a “traffic boot” or “boot”.

(6) (a) Except as otherwise provided in subsection (9) of this section, a law enforcement agency that is ordered to place an immobilization device on a motor vehicle pursuant to subsection (5) of this section shall attempt to locate the motor vehicle within its jurisdiction. The law enforcement agency may, in its discretion, attempt to locate the motor vehicle outside of its jurisdiction.

(b) Nothing in this subsection (6) shall be construed to:

(I) Prohibit a law enforcement agency from seeking the assistance of another law enforcement agency for the purpose of placing an immobilization device on a motor vehicle or removing the device in accordance with this section; or (II) Require a law enforcement agency to expend excessive time or commit excessive staff to the task of locating a motor vehicle subject to immobilization under this section.

(c) The time spent by a law enforcement agency in locating a motor vehicle in accordance with this subsection (6) shall not alter the immobilization period ordered by the court under subsection (5) of this section.

(d) A law enforcement agency that places an immobilization device on a motor vehicle pursuant to this section shall affix a notice to the immobilized motor vehicle stating the information described in subsections (7) and (8) of this section.

(e) A peace officer who locates or attempts to locate a motor vehicle, or who places or removes, or assists with the placement or removal of, an immobilization device in accordance with the provisions of this section shall be immune from civil liability for damages, except for damages arising from willful and wanton conduct.

(7) (a) The owner of a motor vehicle immobilized under this section shall be assessed a fee of thirty-five dollars for each day the motor vehicle is ordered immobilized and, except as otherwise provided in paragraph (d) of this subsection (7), thirty-five dollars for each day up to fourteen days after the immobilization period that the fee for the immobilization period is not paid. The owner shall pay the fee to the law enforcement agency that places the immobilization device on the motor vehicle.

(b) The owner, within fourteen days after the end of the immobilization period ordered by the court, may obtain removal of the immobilization device by the law enforcement agency that

placed it by requesting the removal and paying the fee required under paragraph (a) of this subsection (7).

(c) The failure of the owner of the immobilized motor vehicle to request removal of the immobilization device and pay the fee within fourteen days after the end of the immobilization period ordered by the court or within the additional time granted by the court pursuant to paragraph (d) of this subsection (7), whichever is applicable, shall result in the motor vehicle being deemed an “abandoned motor vehicle”, as defined in sections 1802 (1) (d) and 2102 (1) (d), and subject to the provisions of part 18 or 21 of this Code, whichever is applicable. The law enforcement agency entitled to payment of the fee under this subsection (7) shall be eligible to recover the fee if the abandoned motor vehicle is sold, pursuant to section 1809 (2)(b.5) or 2108 (2) (a.5).

(d) Upon application of the owner of an immobilized motor vehicle, the court that ordered the immobilization may, in its discretion, grant additional time to pay the immobilization fee required under paragraph (a) of this subsection (7). If additional time is granted, the court shall notify the law enforcement agency that placed the immobilization device.

(8) (a) A person may not remove an immobilization device that is placed on a motor vehicle pursuant to this section during the immobilization period ordered by the court.

(b) No person may remove the immobilization device after the end of the immobilization period except the law enforcement agency that placed the immobilization device and that has been requested by the owner to remove the device and to which the owner has properly paid the fee required by subsection (7) of this section. Nothing in this subsection (8) shall be construed to prevent the removal of an immobilization device in order to comply with the provisions of part 18 or 21 of this Code.

(c) Deleted.

(9) (a) A law enforcement agency that is ordered to place an immobilization device on a motor vehicle pursuant to subsection (5) of this section shall inform the court at sentencing if it is unable to comply with the court’s order either because the law enforcement agency is not yet equipped with an immobilization device or because it does not have a sufficient number of immobilization devices. The court, upon being so informed, shall, in lieu of ordering immobilization, order the law enforcement agency to impound the motor vehicle for the same time period that the court initially ordered the motor vehicle to be immobilized.

(b) If a motor vehicle is ordered to be impounded pursuant to paragraph (a) of this subsection (9), the provisions of subsections (6) to (8) of this section shall not apply.

PART 12 PARKING

1201. Moving parked vehicle.

No person shall move a vehicle which is stopped, standing, or parked unless and until such movement can be made with reasonable safety.

1202. Parking or abandonment of vehicles.

(1) No person shall stop, park, or leave standing any vehicle, either attended or unattended, outside of a business or a residential district, upon the paved or improved and main-traveled part of the highway. Nothing contained in this section shall apply to the driver of any vehicle which is disabled while on the paved or improved and main-traveled portion of a highway in such manner and to such extent that it is impossible to avoid stopping and temporarily leaving such disabled vehicle in such position, subject, when applicable, to the emergency lighting requirements set forth in section 230.

(2) Deleted.

1203. Parking for certain purposes prohibited.

(1) No person shall park a vehicle upon a public roadway for the principal purpose of:

(a) Greasing, painting, or repairing the vehicle except for repairs necessitated by an emergency; or

(b) Displaying advertising.

(2) Semitrailers shall not be parked within the public right-of-way for the purpose of exchanging trailers or parked on the public right-of-way without being connected to a semi-tractor. Except on that portion of Elm Street between 69th and E. 72nd Avenues which remains unpaved, semi-trailers shall not be stored on public rights-of-way,

1204. Stopping, standing, or parking prohibited in specified places.

(1) Except as otherwise provided in subsection (4) of this section, no person shall stop, stand, or park a vehicle, except when necessary to avoid conflict with other traffic or in compliance with the directions of a police officer or an official traffic control device, in any of the following places:

(a) On a sidewalk;

(b) Within an intersection;

(c) On a crosswalk;

(d) Between a safety zone and the adjacent curb or within thirty feet of points on the curb immediately opposite the ends of a safety zone, unless the traffic authority indicates a different length by signs or markings;

(e) Alongside or opposite any street excavation or obstruction when stopping, standing, or parking would obstruct traffic;

(f) On the roadway side of any vehicle stopped or parked at the edge or curb of a street;

(g) Upon any bridge or other elevated structure upon a highway or within a highway tunnel;

(h) On any railroad tracks;

(i) On any controlled-access highway;

(j) In the area between roadways of a divided highway, including crossovers;

(k) At any other place where official signs prohibit stopping.

(2) Except as otherwise provided in subsection (4) of this section, in addition to the restrictions specified in subsection (1) of this section, no person shall stand or park a vehicle, except when necessary to avoid conflict with other traffic or in compliance with the directions of a police officer or an official traffic control device, in any of the following places:

(a) Within five feet of a public or private driveway;

(b) Within fifteen feet of a fire hydrant;

(c) Within twenty feet of a crosswalk at an intersection;

(d) Within thirty feet upon the approach to any flashing beacon or signal, stop sign, yield sign, or traffic control signal located at the side of a roadway;

(e) Within twenty feet of the driveway entrance to any fire station or, on the side of a street opposite the entrance to any fire station, within seventy-five feet of said entrance when properly signposted;

(f) At any other place where official signs prohibit standing.

(3) In addition to the restrictions specified in subsections (1) and (2) of this section, no person shall park a vehicle, except when necessary to avoid conflict with other traffic or in compliance with the directions of a police officer or official traffic control device, in any of the following places:

(a) Within fifty feet of the nearest rail of a railroad crossing;

(b) At any other place where official signs prohibit parking.

(4) (a) Paragraph (a) of subsection (1) of this section shall not prohibit persons from parking bicycles or electrical assisted bicycles on sidewalks in accordance with the provisions of section 1412 (11) (a) and (11) (b).

(b) Paragraph (f) of subsection (1) of this section shall not prohibit persons from parking two or more bicycles or electrical assisted bicycles abreast in accordance with the provisions of section 1412 (11) (d).

(c) Paragraphs (a), (c), and (d) of subsection (2) of this section shall not apply to bicycles or electrical assisted bicycles parked on sidewalks in accordance with section 1412 (11) (a) and (11) (b).

(5) No person shall move a vehicle not lawfully under such person's control into any such prohibited area or away from a curb such distance as is unlawful.

(6) This local authority, with respect to highways under its jurisdiction, may place official traffic control devices prohibiting, limiting, or restricting the stopping, standing, or parking of vehicles on any highway where it is determined, upon the basis of a traffic investigation or study, that such stopping, standing, or parking is dangerous to those using the highway or where the stopping, standing, or parking of vehicles would unduly interfere with the free movement of traffic thereon. No person shall stop, stand, or park any vehicle in violation of the restrictions indicated by such devices.

(7) Deleted.

(8) A political subdivision may not adopt or enforce an ordinance or regulation that prohibits the parking of more than one motorcycle within a space served by a single parking meter.

1205. Parking at curb or edge of roadway.

(1) Except as otherwise provided in this section, every vehicle stopped or parked upon a two-way roadway shall be so stopped or parked with the right-hand wheels parallel to and within

twelve inches of the right-hand curb or as close as practicable to the right edge of the right-hand shoulder.

(2) Except as specifically provided otherwise, every vehicle stopped or parked upon a one-way roadway shall be so stopped or parked parallel to the curb or edge of the roadway in the direction of authorized traffic movement, with its right-hand wheels within twelve inches of the right-hand curb or as close as practicable to the right edge of the right-hand shoulder or with its left-hand wheels within twelve inches of the left-hand curb or as close as practicable to the left edge of the left-hand shoulder.

(3) Local authorities may permit angle parking on any roadway; except that angle parking shall not be permitted on any state highway unless the department of transportation has determined by resolution or order entered in its minutes that the roadway is of sufficient width to permit angle parking without interfering with the free movement of traffic.

(4) Deleted.

1206. Unattended motor vehicle.

No person driving or in charge of a motor vehicle shall permit it to stand unattended without first stopping the engine, locking the ignition, removing the key from the ignition, and effectively setting the brake thereon, and, when standing upon any grade, said person shall turn the front wheels to the curb or side of the highway in such a manner as to prevent the vehicle from rolling onto the traveled way.

1207. Opening and closing vehicle doors.

No person shall open the door of a motor vehicle on the side available to moving traffic unless and until it is reasonably safe to do so and can be done without interfering with the movement of other traffic; nor shall any person leave a door open on the side of a vehicle available to moving traffic for a period of time longer than necessary to load or unload passengers.

1208. Parking privileges for persons with disabilities - applicability.

(1) As used in this section:

(a) "License plate or placard" means a license plate or placard issued pursuant to section 42-3-204(2), C.R.S.

(b) "Person with a disability" has the meaning provided for such term in section 42-3-204(1), C.R.S.

(2) A vehicle with a license plate or a placard may be parked in public parking areas along public streets regardless of any time limitation imposed upon parking in such area; except that such privilege does not apply to zones in which:

(a) Stopping, standing, or parking of all vehicles is prohibited;

(b) Only special vehicles may be parked;

(c) Parking is not allowed during specific periods of the day in order to accommodate heavy traffic.

(3) (a) A person with a disability may park in a parking space identified as being reserved for use by persons with disabilities whether on public property or private property available for public use. A license plate or placard shall be displayed at all times on the vehicle while parked in such space.

(b) The owner of private property available for public use may request the installation of official signs identifying parking spaces reserved for use by persons with disabilities. Such a request shall be a waiver of any objection the owner may assert concerning enforcement of this section by peace officers of any political subdivision of this state, and such officers are hereby authorized and empowered to so enforce this section, provisions of law to the contrary notwithstanding.

(c) Each parking space reserved for use by persons with disabilities whether on public property or private property shall be marked with an official upright sign, which sign may be stationary or portable, identifying such parking space as reserved for use by persons with disabilities.

(4) Persons with disabilities from states other than Colorado shall be allowed to use parking spaces for persons with disabilities in Colorado so long as such persons have valid license plates or placards from their home states.

(5) It is unlawful for any person other than a person with a disability to park in a parking space on public or private property that is clearly identified by an official sign as being reserved for use by persons with disabilities unless:

(a) Such person is parking the vehicle for the direct benefit of a person with a disability to enter or exit the vehicle while it is parked in the space reserved for use by persons with disabilities; and

(b) A license plate or placard is displayed in such vehicle.

(6) Any person who violates this section shall be subject to twice the fine that would otherwise be imposed.

(7) Deleted.

(8) Any law enforcement officer or authorized and uniformed parking enforcement official may check the identification of any person using a license plate or placard for persons with disabilities in order to determine whether such use is authorized.

(9) Any state agency or division thereof that transports persons with disabilities may obtain a placard for persons with disabilities in the same manner provided in this section for any other person. In the event that such a placard is used by any employee of such state agency or division when not transporting persons with disabilities, the executive director of such agency and the offending employee shall be subject to a fine of one hundred dollars. The provisions of this subsection (9) shall apply to any corporation or independent contractor as determined by rule of the department to be eligible to transport persons with disabilities; except that the chief executive officer or an equivalent of the corporation or independent contractor and the offending employee shall be subject to the fine.

(10) It is unlawful for any person to park a vehicle so as to block reasonable access to curb ramps or passenger loading zones that are clearly identified and are adjacent to a parking space reserved for use by persons with disabilities unless such person is loading or unloading a person with a disability.

(11) No person shall knowingly or fraudulently obtain, possess, use, or transfer any license plate or placard. No person shall knowingly make, possess, use, or transfer what purports to be, but is not, a license plate or placard. Any person who knowingly and willfully receives remuneration for violating this subsection (11) shall be subject to twice the civil and criminal fine that would otherwise be imposed.

(12) (a) Certification of the entry of judgment for each violation of subsection (11) of this section may be sent by the entering court to the department of revenue.

(13) (a) For purposes of this subsection (13), “holder” means a person with a disability who has lawfully obtained a license plate or placard.

(b) Notwithstanding any other provision of this section to the contrary, a holder is liable for any penalty or fine as set forth in this section for any misuse of a disabled license plate or placard, including the use of such plate or placard by any person other than a holder, unless the holder can furnish sufficient evidence that the license plate or placard was, at the time of the violation, in the care, custody, or control of another person without the holder’s knowledge or consent.

(c) A holder may avoid the liability described in paragraph (b) of this subsection (13) if, within a reasonable time after notification of the violation, the holder furnishes to the prosecutorial division of the appropriate jurisdiction the name and address of the person who had the care, custody, or control of such license plate or placard at the time of the violation or the holder reports said license plate or placard lost or stolen to both the appropriate local law enforcement agency and the department.

1209. Owner liability for parking violations.

In addition to any other liability provided for in this Code, the owner of a motor vehicle who is engaged in the business of leasing or renting motor vehicles is liable for payment of a parking violation fine unless the owner of the leased or rented motor vehicle can furnish sufficient evidence that the vehicle was, at the time of the parking violation, in the care, custody, or control of another person. To avoid liability for payment the owner of the motor vehicle is required, within a reasonable time after notification of the parking violation, to furnish to the prosecutorial division of the appropriate jurisdiction the name and address of the person or company who leased, rented, or otherwise had the care, custody, or control of such vehicle. As a condition to avoid liability for payment of a parking violation, any person or company who leases or rents motor vehicles to another person shall attach to the leasing or rental agreement a notice stating that, pursuant to the requirements of this section, the operator of the vehicle is liable for payment of a parking violation fine incurred when the operator has the care, custody, or control of the motor vehicle. The notice shall inform the operator that the operator’s name and address shall be furnished to the prosecutorial division of the appropriate jurisdiction when a parking violation fine is incurred by the operator.

1210. Parking in residential districts.

No person shall park in a residential district on any surface other than a driveway or other approved parking area or on that portion of the street where parking is permitted. No person shall park on any portion of the street where parking is permitted for more than five (5) hours unless the location on the street where the person is parked is immediately adjacent to property owned or occupied by such person. Any motor vehicle that is parked in violation of this section more than twice in any twelve (12) month period may be towed in accordance with the provisions of the city’s municipal code or state law relating to public tows.

1211. Limitations on backing.

(1) (a) The driver of a vehicle, whether on public property or private property which is used by the general public for parking purposes, shall not back the same unless such movement can be made with safety and without interfering with other traffic.

(b) The driver of a vehicle shall not back the same upon any shoulder or roadway of any controlled-access highway.

(2) Deleted.

PART 14
OTHER OFFENSES

1401. Reckless driving.

(1) A person who drives a motor vehicle, bicycle, electrical assisted bicycle, or low-power scooter in such a manner as to indicate either a wanton or a willful disregard for the safety of persons or property is guilty of reckless driving. A person convicted of reckless driving of a bicycle or electrical assisted bicycle shall not be subject to the provisions of section 127.

(2) Deleted.

1402. Careless driving.

(1) A person who drives a motor vehicle, bicycle, electrical assisted bicycle, or low-power scooter in a careless and imprudent manner, without due regard for the width, grade, curves, corners, traffic, and use of the streets and highways and all other attendant circumstances, is guilty of careless driving. A person convicted of careless driving of a bicycle or electrical assisted bicycle shall not be subject to the provisions of section 127.

(2) Deleted.

1403. Following fire apparatus prohibited.

The driver of any vehicle other than one on official business shall not follow any fire apparatus traveling in response to a fire alarm closer than five hundred feet or drive into or park such vehicle within the block where fire apparatus has stopped in answer to a fire alarm.

1404. Crossing fire hose.

No vehicle shall be driven over any unprotected hose of a fire department used at any fire, alarm of fire, or practice runs or laid down on any street, private driveway, or highway without the consent of the fire department official in command.

1405. Riding in trailers.

No person shall occupy a trailer while it is being moved upon a public highway.

1406. Foreign matter on highway prohibited.

(1) (a) No person shall throw or deposit upon or along any highway any glass bottle, glass, stones, nails, tacks, wire, cans, container of human waste, or other substance likely to injure any person, animal, or vehicle upon or along such highway.

(b) No person shall throw, drop, or otherwise expel a lighted cigarette, cigar, match, or other burning material from a motor vehicle upon any highway.

(2) Any person who drops, or permits to be dropped or thrown, upon any highway or structure any destructive or injurious material or lighted or burning substance shall immediately remove the same or cause it to be removed.

(3) Any person removing a wrecked or damaged vehicle from a highway shall remove any glass or other injurious substance dropped upon the highway from such vehicle.

(4) No person shall excavate a ditch or other aqueduct, or construct any flume or pipeline or any steam, electric, or other railway, or construct any approach to a public highway without written consent of the authority responsible for the maintenance of that highway.

(5) Deleted.

(6) As used in this section:

(a) "Container" includes, but is not limited to, a bottle, a can, a box, or a diaper.

(b) "Human waste" means urine or feces produced by a human.

1407. Spilling loads on highways prohibited - prevention of spilling of aggregate, trash, or recyclables.

(1) No vehicle shall be driven or moved on any highway unless such vehicle is constructed or loaded or the load thereof securely covered to prevent any of its load from blowing, dropping, sifting, leaking, or otherwise escaping therefrom; except that material may be dropped for the purpose of securing traction or water or other substance may be sprinkled on a roadway in cleaning or maintaining such roadway.

(2) (Deleted by amendment, L. 99, p. 295, §1, effective July 1, 1999.)

(2.4) (a) A vehicle shall not be driven or moved on a highway if the vehicle is transporting trash or recyclables unless at least one of the following conditions is met:

(I) The load is covered by a tarp or other cover in a manner that prevents the load from blowing, dropping, shifting, leaking, or otherwise escaping from the vehicle;

(II) The vehicle utilizes other technology that prevents the load from blowing, dropping, shifting, leaking, or otherwise escaping from the vehicle;

(III) The load is required to be secured under and complies with 49 CFR parts 392 and 393; or

(IV) The vehicle is loaded in such a manner or the load itself has physical characteristics such that the contents will not escape from the vehicle. Such a load may include, but is not limited to, heavy scrap metal or hydraulically compressed scrap recyclables.

(b) Paragraph (a) of this subsection (2.4) shall not apply to a motor vehicle in the process of collecting trash or recyclables within a one mile radius of the motor vehicle's last collection point.

(2.5) (a) No vehicle shall be driven or moved on any highway for a distance of more than two miles if the vehicle is transporting aggregate material with a diameter of one inch or less unless:

(I) The load is covered by a tarp or other cover in a manner that prevents the aggregate material from blowing, dropping, sifting, leaking, or otherwise escaping from the vehicle; or

(II) The vehicle utilizes other technology that prevents the aggregate material from blowing, dropping, sifting, leaking, or otherwise escaping from the vehicle.

(b) Nothing in this subsection (2.5) shall apply to a vehicle:

(I) Operating entirely within a marked construction zone;

(II) Involved in maintenance of public roads during snow or ice removal operations; or

(III) Involved in emergency operations when requested by a law enforcement agency or an emergency response authority designated in or pursuant to section 29-22-102, C.R.S.

(2.7) For the purposes of this section:

(a) "Aggregate material" means any rock, clay, silts, gravel, limestone, dimension stone, marble, and shale; except that "aggregate material" does not include hot asphalt, including asphalt patching material, wet concrete, or other materials not susceptible to blowing.

(b) "Recyclables" means material or objects that can be reused, reprocessed, remanufactured, reclaimed, or recycled.

(c) "Trash" means material or objects that have been or are in the process of being discarded or transported.

(3) Deleted

1407.5. Splash guards - when required.

(1) As used in this section, unless the context otherwise requires:

(a) "Splash guards" means mud flaps, rubber, plastic or fabric aprons, or other devices directly behind the rear-most wheels, designed to minimize the spray of water and other substances to the rear.

(b) "Splash guards" must, at a minimum, be wide enough to cover the full tread of the tire or tires being protected, hang perpendicular from the vehicle not more than ten inches above the surface of the street or highway when the vehicle is empty, and generally maintain their perpendicular relationship under normal driving conditions.

(2) Except as otherwise permitted in this section, no vehicle or motor vehicle shall be driven or moved on any street or highway unless the vehicle or motor vehicle is equipped with splash guards. However, vehicles and motor vehicles with splash guards that violate this section shall be allowed to remain in service for the time necessary to continue to a place where the deficient splash guards will be replaced. Such replacement shall occur at the first reasonable opportunity.

(3) This section does not apply to:

(a) Passenger-carrying motor vehicles registered pursuant to section 42-3-305 (2) CRS;

(b) Trucks and truck tractors registered pursuant to section 42-3-305 (4) or (5) CRS having an empty weight of ten thousand pounds or less;

(c) Trailers equipped with fenders or utility pole trailers;

(d) Vehicles while involved in chip and seal or paving operations or road widening equipment;

(e) Truck tractors or converter dollies when used in combination with other vehicles;

(f) Vehicles drawn by animals; or

(g) Bicycles or electrical assisted bicycles.

(4) Deleted.

1408. Operation of motor vehicles on property under control of or owned by parks and recreation districts.

(1) Any metropolitan recreation district, any park and recreation district organized pursuant to Code 1 of title 32, C.R.S., or any recreation district organized pursuant to the provisions of part 7 of Code 20 of title 30, C.R.S., referred to in this section as a "district", shall have the authority to designate areas on property owned or controlled by the district in which the operation of motor vehicles shall be prohibited. Areas in which it shall be prohibited to operate motor vehicles shall be clearly posted by a district.

(2) It is unlawful for any person to operate a motor vehicle in an area owned or under the control of a district if the district has declared the operation of motor vehicles to be prohibited in such area, as provided in subsection (1) of this section.

(3) Deleted.

1409. Compulsory insurance - penalty - legislative intent.

(1) No owner of a motor vehicle or low-power scooter required to be registered in this state shall operate the vehicle or permit it to be operated on the public highways of this state when the owner has failed to have a complying policy or certificate of self-insurance in full force and effect as required by law.

(2) No person shall operate a motor vehicle or low-power scooter on the public highways of this state without a complying policy or certificate of self-insurance in full force and effect as required by law.

(3) When an accident occurs, or when requested to do so following any lawful traffic contact or during any traffic investigation by a peace officer, no owner or operator of a motor vehicle or low-power scooter shall fail to present to the requesting officer immediate evidence of a complying policy or certificate of self-insurance in full force and effect as required by law.

(4) Deleted.

(5) Testimony of the failure of any owner or operator of a motor vehicle or low-power scooter to present immediate evidence of a complying policy or certificate of self-insurance in full force and effect as required by law, when requested to do so by a peace officer, shall constitute prima facie evidence, at a trial concerning a violation charged under subsection (1) or (2) of this section, that such owner or operator of a motor vehicle violated subsection (1) or (2) of this section..

(6) No person charged with violating subsection (1), (2), or (3) of this section shall be convicted if the person produces in court a bona fide complying policy or certificate of self-insurance that was in full force and effect as required by law at the time of the alleged violation.

(7) The owner of a motor vehicle or low power scooter, upon receipt of an affirmation of insurance as described in section 42-3-113 (2) and (3), shall sign and date such affirmation in the space provided.

(8) (Deleted by amendment, L. 2003, p. 2648, § 7, effective July 1, 2003.)

(9) Deleted.

1410. Controlled access highways.

No person shall use or engage in any form of non-motorized travel including, but not limited to, pedestrian, bicycle, or animal, on any controlled access highway within the jurisdiction of the city.

1411. Use of earphones while driving.

(1) (a) No person shall operate a motor vehicle while wearing earphones.

(b) For purposes of this subsection (1), “earphones” includes any headset, radio, tape player, or other similar device which provides the listener with radio programs, music, or other recorded information through a device attached to the head and which covers all of or a portion of the ears. “Earphones” does not include speakers or other listening devices which are built into protective headgear.

(2) Deleted.

1412. Operation of bicycles and other human-powered vehicles.

(1) Every person riding a bicycle or electrical assisted bicycle shall have all of the rights and duties applicable to the driver of any other vehicle under this Code, except as to special

regulations in this Code and except as to those provisions which by their nature can have no application. Said riders shall comply with the rules set forth in this section and section 221.

(2) It is the intent of the general assembly that nothing contained in House Bill No. 1246, enacted at the second regular session of the fifty-sixth general assembly, shall in any way be construed to modify or increase the duty of the department of transportation or any political subdivision to sign or maintain highways or sidewalks or to affect or increase the liability of the state of Colorado or any political subdivision under the "Colorado Governmental Immunity Act", Code 10 of title 24, C.R.S.

(3) No bicycle or electrical assisted bicycle shall be used to carry more persons at one time than the number for which it is designed or equipped.

(4) No person riding upon any bicycle or electrical assisted bicycle shall attach the same or himself or herself to any motor vehicle upon a roadway.

(5) (a) Any person operating a bicycle or an electrical assisted bicycle upon a roadway at less than the normal speed of traffic shall ride in the right-hand lane, subject to the following conditions:

(I) If the right-hand lane then available for traffic is wide enough to be safely shared with overtaking vehicles, a bicyclist shall ride far enough to the right as judged safe by the bicyclist to facilitate the movement of such overtaking vehicles unless other conditions make it unsafe to do so.

(II) A bicyclist may use a lane other than the right-hand lane when:

(A) Preparing for a left turn at an intersection or into a private roadway or driveway;

(B) Overtaking a slower vehicle; or

(C) Taking reasonably necessary precautions to avoid hazards or road conditions.

(III) Upon approaching an intersection where right turns are permitted and there is a dedicated right-turn lane, a bicyclist may ride on the left-hand portion of the dedicated right-turn lane even if the bicyclist does not intend to turn right.

(b) A bicyclist shall not be expected or required to:

(I) Ride over or through hazards at the edge of a roadway, including but not limited to fixed or moving objects, parked or moving vehicles, bicycles, pedestrians, animals, surface hazards, or narrow lanes; or

(II) Ride without a reasonable safety margin on the right-hand side of the roadway.

(c) A person operating a bicycle or an electrical assisted bicycle upon a one-way roadway with two or more marked traffic lanes may ride as near to the left-hand curb or edge of such roadway as judged safe by the bicyclist, subject to the following conditions:

(I) If the left-hand lane then available for traffic is wide enough to be safely shared with overtaking vehicles, a bicyclist shall ride far enough to the left as judged safe by the bicyclist to facilitate the movement of such overtaking vehicles unless other conditions make it unsafe to do so.

(II) A bicyclist shall not be expected or required to:

(A) Ride over or through hazards at the edge of a roadway, including but not limited to fixed or moving objects, parked or moving vehicles, bicycles, pedestrians, animals, surface hazards, or narrow lanes; or

(B) Ride without a reasonable safety margin on the left-hand side of the roadway.

(6) (a) Persons riding bicycles or electrical assisted bicycles upon a roadway shall not ride more than two abreast except on paths or parts of roadways set aside for the exclusive use of bicycles.

(b) Persons riding bicycles or electrical assisted bicycles two abreast shall not impede the normal and reasonable movement of traffic and, on a laned roadway, shall ride within a single lane.

(7) A person operating a bicycle or electrical assisted bicycle shall keep at least one hand on the handlebars at all times.

(8) (a) A person riding a bicycle or electrical assisted bicycle intending to turn left shall follow a course described in sections 901 (1), 903, and 1007 or may make a left turn in the manner prescribed in paragraph (b) of this subsection (8).

(b) A person riding a bicycle or electrical assisted bicycle intending to turn left shall approach the turn as closely as practicable to the right-hand curb or edge of the roadway. After proceeding across the intersecting roadway to the far corner of the curb or intersection of the roadway edges, the bicyclist shall stop, as much as practicable, out of the way of traffic. After stopping, the bicyclist shall yield to any traffic proceeding in either direction along the roadway that the bicyclist had been using. After yielding and complying with any official traffic control device or police officer regulating traffic on the highway along which the bicyclist intends to proceed, the bicyclist may proceed in the new direction.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this subsection (8), the transportation commission and local authorities in their respective jurisdictions may cause official traffic control devices to be placed on roadways and thereby require and direct that a specific course be traveled.

(9) (a) Except as otherwise provided in this subsection (9), every person riding a bicycle or electrical assisted bicycle shall signal the intention to turn or stop in accordance with section 903; except that a person riding a bicycle or electrical assisted bicycle may signal a right turn with the right arm extended horizontally.

(b) A signal of intention to turn right or left when required shall be given continuously during not less than the last one hundred feet traveled by the bicycle or electrical assisted bicycle before turning and shall be given while the bicycle or electrical assisted bicycle is stopped waiting to turn. A signal by hand and arm need not be given continuously if the hand is needed in the control or operation of the bicycle or electrical assisted bicycle.

(10) (a) A person riding a bicycle or electrical assisted bicycle upon and along a sidewalk or pathway or across a roadway upon and along a crosswalk shall yield the right-of-way to any pedestrian and shall give an audible signal before overtaking and passing such pedestrian. A person riding a bicycle in a crosswalk shall do so in a manner that is safe for pedestrians.

(b) A person shall not ride a bicycle or electrical assisted bicycle upon and along a sidewalk or pathway or across a roadway upon and along a crosswalk where such use of bicycles or electrical assisted bicycles is prohibited by official traffic control devices or local rules. A person riding a bicycle or electrical assisted bicycle shall dismount before entering any crosswalk where required by official traffic control devices or local rules.

(c) A person riding or walking a bicycle or electrical assisted bicycle upon and along a sidewalk or pathway or across a roadway upon and along a crosswalk shall have all the rights and duties applicable to a pedestrian under the same circumstances, including, but not limited to, the rights and duties granted and required by section 802.

(d) (Deleted by amendment, L. 2005, p. 1353, § 1, effective July 1, 2005.)

(11) (a) A person may park a bicycle or electrical assisted bicycle on a sidewalk unless prohibited or restricted by an official traffic control device or local rule.

(b) A bicycle or electrical assisted bicycle parked on a sidewalk shall not impede the normal and reasonable movement of pedestrian or other traffic.

(c) A bicycle or electrical assisted bicycle may be parked on the road at any angle to the curb or edge of the road at any location where parking is allowed.

(d) A bicycle or electrical assisted bicycle may be parked on the road abreast of another such bicycle or bicycles near the side of the road or any location where parking is allowed in such a manner as does not impede the normal and reasonable movement of traffic.

(e) In all other respects, bicycles or electrical assisted bicycles parked anywhere on a highway shall conform to the provisions of part 12 of this Code regulating the parking of vehicles.

(12) Deleted.

(13) Upon request, the law enforcement agency having jurisdiction shall complete a report concerning an injury or death incident that involves a bicycle or electrical assisted bicycle on the roadways of the state, even if such accident does not involve a motor vehicle.

(14) Except as authorized by section 111, the rider of an electrical assisted bicycle shall not use the electrical motor on a bike or pedestrian path.

1413. Eluding or attempting to elude a police officer.

Any operator of a motor vehicle who the officer has reasonable grounds to believe has violated a state law or municipal ordinance, who has received a visual or audible signal such as a red light or a siren from a police officer driving a marked vehicle showing the same to be an official police, sheriff, or Colorado state patrol car directing the operator to bring the operator's vehicle to a stop, and who willfully increases his or her speed or extinguishes his or her lights in an attempt to elude such police officer, or willfully attempts in any other manner to elude the police officer, or does elude such police officer violates this section.

1414. Use of dyed fuel on highways prohibited.

(1) No person shall operate a motor vehicle upon any highway of the state using diesel fuel dyed to show that no taxes have been collected on the fuel.

(2) Deleted.

(3) Any person violating any provision of this section shall be subject to audit by the department regarding payment of motor fuel tax.

1415. Radar jamming devices prohibited - penalty.

(1) (a) No person shall use, possess, or sell a radar jamming device.

(b) No person shall operate a motor vehicle with a radar jamming device in the motor vehicle.

(2) (a) For purposes of this section, "radar jamming device" means any active or passive device, instrument, mechanism, or equipment that is designed or intended to interfere with, disrupt, or scramble the radar or laser that is used by law enforcement agencies and peace officers to measure the speed of motor vehicles. "Radar jamming device" includes but is not limited to devices commonly referred to as "jammers" or "scramblers".

(b) For purposes of this section, "radar jamming device" shall not include equipment that is legal under FCC regulations, such as a citizens' band radio, ham radio, or any other similar electronic equipment.

(3) Radar jamming devices are subject to seizure by any peace officer and may be confiscated and destroyed by order of the court in which a violation of this section is charged.

(4) Deleted.

(5) The provisions of subsection (1) of this section shall not apply to peace officers acting in their official capacity.

1416. Compression release brakes restricted.

Except in the event of an emergency where necessary to prevent injury to person or damage to property, no person shall use a compression release brake (sometimes referred to as "Jake Brakes") on any vehicle driven upon any public or private street within the city.

1417. Unlawful crossing of private property.

(1) It is unlawful for any person to drive from a public street or public way of this city over, across, or through any private property to avoid traffic control signals or traffic control devices, or as a route or shortcut from one public street or public way to another.

(2) As used in this section, "private property" includes, but is not limited to: any property not dedicated as a public street or public way, alley, right-of-way or easement.

(3) It is an affirmative defense to a charge of violation of this section that the person charged is the owner of the property or the owner of a leasehold, possessory interest or easement in or to the property through or across which the motor vehicle is driven.

PART 15 MOTORCYCLES

1501. Traffic laws apply to persons operating motorcycles - special permits.

(1) Every person operating a motorcycle shall be granted all of the rights and shall be subject to all of the duties applicable to the driver of any other vehicle under this Code, except as to special regulations in this Code and except as to those provisions of this Code which by their nature can have no application.

(2) For the purposes of a prearranged organized special event and upon a showing that safety will be reasonably maintained, the department of transportation may grant a special permit exempting the operation of a motorcycle from any requirement of this part 15.

1502. Riding on motorcycles – protective helmet.

(1) A person operating a motorcycle shall ride only upon the permanent and regular seat attached thereto, and such operator shall not carry any other person nor shall any other person ride on a motorcycle unless such motorcycle is designed to carry more than one person, in which event a passenger may ride upon the permanent seat if designed for two persons or upon another seat firmly attached to the motorcycle at the rear or side of the operator.

(2) A person shall ride upon a motorcycle only while sitting astride the seat, facing forward, with one leg on either side of the motorcycle.

(3) No person shall operate a motorcycle while carrying packages, bundles, or other Codes which prevent the person from keeping both hands on the handlebars.

(4) No operator shall carry any person nor shall any person ride in a position that will interfere with the operation or control of the motorcycle or the view of the operator.

(4.5) (a) A person shall not operate or ride as a passenger on a motorcycle or low-power scooter on a roadway unless:

(I) Each person under eighteen years of age is wearing a protective helmet of a type and design manufactured for use by operators of motorcycles;

(II) The protective helmet conforms to the design and specifications set forth in paragraph (b) of this subsection (4.5); and

(III) The protective helmet is secured properly on the person's head with a chin strap while the motorcycle is in motion.

(b) A protective helmet required to be worn by this subsection (4.5) shall:

(I) Be designed to reduce injuries to the user resulting from head impacts and to protect the user by remaining on the user's head, deflecting blows, resisting penetration, and spreading the force of impact;

(II) Consist of lining, padding, and chin strap; and

(III) Meet or exceed the standards established in the United States department of transportation federal motor vehicle safety standard no. 218, 49 CFR 571.218, for motorcycle helmets.

(5) Deleted.

1503. Operating motorcycles on roadways laned for traffic.

(1) All motorcycles are entitled to full use of a traffic lane, and no motor vehicle shall be driven in such a manner as to deprive any motorcycle of the full use of a traffic lane. This subsection (1) shall not apply to motorcycles operated two abreast in a single lane.

(2) The operator of a motorcycle shall not overtake or pass in the same lane occupied by the vehicle being overtaken.

(3) No person shall operate a motorcycle between lanes of traffic or between adjacent lines or rows of vehicles.

(4) Motorcycles shall not be operated more than two abreast in a single lane.

(5) Subsections (2) and (3) of this section shall not apply to police officers in the performance of their official duties.

(6) Deleted.

1504. Clinging to other vehicles.

No person riding upon a motorcycle shall attach himself, herself, or the motorcycle to any other vehicle on a roadway.

DEFINITIONS

As used in this Code, unless the context otherwise requires:

"Acceleration lane" means a speed-change lane, including tapered areas, for the purpose of enabling a vehicle entering a roadway to increase its speed to a rate at which it can more safely merge with through traffic.

"Alley" means a street or highway intended to provide access to the rear or side of lots or buildings in urban areas and not intended for the purpose of through vehicular traffic.

"Apportioned registration" means registration of a vehicle pursuant to a reciprocal agreement under which the fees paid for registration of such vehicle are ultimately divided among the several jurisdictions in which the vehicle travels, based upon the number of miles traveled by the vehicle in each jurisdiction or upon some other agreed criterion.

"Appurtenance" means a piece of equipment that is affixed or attached to a motor vehicle or trailer and is used for a specific purpose or task, including awnings, support hardware, and extractable equipment. "Appurtenance" does not include any item or equipment that is temporarily affixed or attached to the exterior of a motor vehicle for the purpose of transporting such vehicle.

"Authorized emergency vehicle" means such vehicles of the fire department, police vehicles, ambulances, and other special-purpose vehicles as are publicly owned and operated by or for a governmental agency to protect and preserve life and property in accordance with state laws regulating emergency vehicles; said term also means such privately owned vehicles as are designated by the state motor vehicle licensing agency, necessary to the preservation of life and property, to be equipped and to operate as emergency vehicles in the manner prescribed by state law.

"Authorized service vehicle" means such highway or traffic maintenance vehicles as are publicly owned and operated on a highway by or for a governmental agency the function of which requires the use of service vehicle warning lights as prescribed by state law and such other vehicles having a public service function, including, but not limited to, public utility vehicles and tow trucks, as determined by the department of transportation under section 42-4- 214 (5). Some vehicles may be designated as both an authorized emergency vehicle and an authorized service vehicle.

"Automobile" means any motor vehicle.

"Bicycle" means every vehicle propelled solely by human power applied to pedals upon which any person may ride having two tandem wheels or two parallel wheels and one forward wheel, all of which are more than fourteen inches in diameter.

"Business district" means the territory contiguous to and including a highway when within any six hundred feet along such highway there are buildings in use for business or industrial purposes, including but not limited to motels, banks, office buildings, railroad stations, and public buildings which occupy at least three hundred feet of frontage on one side or three hundred feet collectively on both sides of the highway.

"Calendar year" means the twelve calendar months beginning January 1 and ending December 31 of any year.

"Camper coach" means an item of mounted equipment, weighing more than five hundred pounds, which when temporarily or permanently mounted on a motor vehicle adapts such vehicle for use as temporary living or sleeping accommodations.

"Camper trailer" means a wheeled vehicle having an overall length of less than twenty-six feet, without motive power, which is designed to be drawn by a motor vehicle over the public highways and which is generally and commonly used for temporary living or sleeping accommodations.

"Chauffeur" means every person who is employed for the principal purpose of operating a motor vehicle and every person who drives a motor vehicle while in use as a public or common carrier of persons or property.

"Classified personal property" means any personal property which has been classified for the purpose of imposing thereon a graduated annual specific ownership tax.

"Commercial carrier" means any owner of a motor vehicle, truck, laden or unladen truck tractor, trailer, or semitrailer used in the business of transporting persons or property over the public highways for profit, hire, or otherwise in any business or commercial enterprise.

"Commercial vehicle" means a vehicle used to transport cargo or passengers for profit, hire, or otherwise to further the purposes of a business or commercial enterprise. This subsection (17.5) shall not apply for purposes of sections 42-4-235 and 42-4-707 (1).

"Controlled-access highway" means every highway, street, or roadway in respect to which owners or occupants of abutting lands and other persons have no legal right of access to or from the same except at such points only and in such manner as may be determined by the public authority having jurisdiction over such highway, street, or roadway.

"Convicted" or "conviction" means:

- (a) A plea of guilty or nolo contendere;
- (b) A verdict of guilty;
- (c) An adjudication of delinquency under title 19, C.R.S.; and
- (d) The payment of a penalty assessment under section 42-4-1701 C.R.S., or this Code, if the summons states clearly the points to be assessed for the offense.

"Court" means any municipal court, county court, district court, or any court having jurisdiction over offenses against traffic regulations and laws.

"Crosswalk" means that portion of a roadway ordinarily included within the prolongation or connection of the lateral lines of sidewalks at intersections or any portion of a roadway distinctly indicated for pedestrian crossing by lines or other marking on the surface.

"Dealer" means every person engaged in the business of buying, selling, or exchanging vehicles of a type required to be registered under articles 1 to 4 of title 42, C.R.S., and who has an established place of business for such purpose in this state.

"Deceleration lane" means a speed-change lane, including tapered areas, for the purpose of enabling a vehicle that is to make an exit to turn from a roadway to slow to the safe speed on the ramp ahead after it has left the mainstream of faster-moving traffic.

"Declared gross vehicle weight" means the combined weight of the vehicle or combination vehicle and its cargo when operated on the public highways of this state. Such weight shall be declared by the vehicle owner at the time the vehicle is registered. Accurate records shall be kept of all miles operated by each vehicle over the public highways of this state by the owner of each vehicle.

"Department" means the Department of Revenue of this state acting directly or through its duly authorized officers and agents.

"Distinctive special license plate" means a special license plate that is issued to a person because such person has an immutable characteristic or special achievement honor. Such special achievement honor shall not include a common achievement such as graduating from an institution of higher education. Such special achievement shall include honorable service in the armed forces of the United States. "Distinctive special license plate" shall include a license plate that is issued to a person or the person's family to honor such person's service in the armed forces.

"Divided highway" means a highway with separated roadways usually for traffic moving in opposite directions, such separation being indicated by depressed dividing strips, raised curbing, traffic islands, or other physical barriers so constructed as to impede vehicular traffic or otherwise indicated by standard pavement markings or other official traffic control devices as prescribed in the state traffic control manual.

"Drive-away transporter" or **"tow-away transporter"** means every person engaged in the transporting of vehicles which are sold or to be sold and not owned by such transporter, by the drive-away or tow-away methods, where such vehicles are driven, towed, or transported singly, or by saddlemount, towbar, or fullmount methods, or by any lawful combination thereof.

"Driver" means every person, including a minor driver under the age of twenty-one years, who drives or is in actual physical control of a vehicle.

"Empty weight" means the weight of any motor vehicle or trailer or any combination thereof, including the operating body and accessories, as determined by weighing on a scale approved by the department.

"Essential parts" means all integral parts and body parts, the removal, alteration, or substitution of which will tend to conceal the identity or substantially alter the appearance of the vehicle.

"Established place of business" means the place actually occupied either continuously or at regular periods by a dealer or manufacturer where such dealer's or manufacturer's books and records are kept and a large share of his or her business transacted.

"Explosives and hazardous materials" means any substance so defined by the code of federal regulations, title 49, chapter 1, parts 173.50 through 173.389.

"Farm tractor" means every motor vehicle designed and used primarily as a farm implement for drawing plows and mowing machines and other implements of husbandry.

"Flammable liquid" means any liquid which has a flash point of seventy degrees Fahrenheit or less, as determined by a Tagliabue or equivalent closed-cup test device.

"Fleet operator" means any resident who owns or leases ten or more motor vehicles, trailers, or pole trailers and who receives from the department a registration period certificate in accordance with article 3 of title 42, C.R.S.

"Fleet vehicle" means any motor vehicle, trailer, or pole trailer owned or leased by a fleet operator and registered pursuant to section 42-3-125, C.R.S.

"Foreign vehicle" means every motor vehicle, trailer, or semitrailer which is brought into this state otherwise than in the ordinary course of business by or through a manufacturer or dealer and which has not been registered in this state.

"Fullmount" means a vehicle which is mounted completely on the frame of the first vehicle or last vehicle in a saddlemount combination.

"Garage" means any public building or place of business for the storage or repair of automobiles.

“Golf car” means a self-propelled vehicle not designed primarily for operation on roadways and that has:

- (a) A design speed of less than twenty miles per hour;
- (b) At least three wheels in contact with the ground;
- (c) An empty weight of not more than one thousand three hundred pounds; and
- (d) A carrying capacity of not more than four persons.

"Group special license plate" means a special license plate that is not a distinctive plate and is issued to a group of people because such people have a common interest or affinity.

"High occupancy vehicle lane" means a lane designated pursuant to the provisions of section 42-4-1012 (1), C.R.S., or this Code.

"Highway" means the entire width between the boundary lines of every way publicly maintained when any part thereof is open to the use of the public for purposes of vehicular travel or the entire width of every way declared to be a public highway by any law of this state.

"Immediate family" means a person who is related by blood, marriage, or adoption.

"Implement of husbandry" means every vehicle that is designed, adapted, or used for agricultural purposes. It also includes equipment used solely for the application of liquid, gaseous, and dry fertilizers. Transportation of fertilizer, in or on the equipment used for its application, shall be deemed a part of application if it is incidental to such application. It also includes hay balers, hay stacking equipment, combines, tillage and harvesting equipment, agricultural commodity handling equipment, and other heavy movable farm equipment primarily used on farms or in a livestock production facility and not on the highways. Trailers specially designed to move such equipment on highways shall, for the purposes of part 5 of article 4 of this title, be considered as component parts of such implements of husbandry.

"Intersection" means the area embraced within the prolongation of the lateral curb lines or, if none, then the lateral boundary lines of the roadways of two highways which join one another at, or approximately at, right angles, or the area within which vehicles traveling upon different highways joining at any other angle may come in conflict. Where a highway includes two roadways thirty feet or more apart, every crossing of each roadway of such divided highway by an intersecting highway shall be regarded as a separate intersection. In the event such intersecting highway also includes two roadways thirty feet or more apart, every crossing of two roadways of such highways shall be regarded as a separate intersection. The junction of an alley with a street or highway does not constitute an intersection.

"Kit vehicle" means a passenger-type motor vehicle assembled, by other than a licensed manufacturer, from a manufactured kit that includes a prefabricated body and chassis and is accompanied by a manufacturer's statement of origin.

"Lane" means the portion of a roadway for the movement of a single line of vehicles.

"Laned highway" means a highway the roadway of which is divided into two or more clearly marked lanes for vehicular traffic.

"Local authorities" means every county, municipal, and other local board or body having authority to adopt local police regulations under the constitution and laws of this state.

"Low-speed electric vehicle" means a vehicle that:

- (a) Is self-propelled utilizing electricity as its primary propulsion method;
- (b) Has at least three wheels in contact with the ground;
- (c) Does not use handlebars to steer; and
- (d) Exhibits the manufacturer's compliance with 49 CFR 565 or displays a seventeen-character vehicle identification number as provided in 49 CFR 565.

"Manufactured home" means any preconstructed building unit or combination of preconstructed building units, without motive power, where such unit or units are manufactured in a factory or at a location other than the residential site of the completed home, which is designed and commonly used for occupancy by persons for residential purposes, in either temporary or permanent locations, and which unit or units are not licensed as a vehicle.

"Manufacturer" means any person, firm, association, corporation, or trust, whether resident or nonresident, who manufactures or assembles new and unused motor vehicles of a type required to be registered under articles 1 to 4 of title 42, C.R.S.

"Manufacturer's suggested retail price" means the retail price of such motor vehicle suggested by the manufacturer plus the retail price suggested by the manufacturer for each accessory or item of optional equipment physically attached to such vehicle prior to the sale to the retail purchaser.

"Markings" means all lines, patterns, words, colors, or other devices, except signs, set into the surface of, applied upon, or attached to the pavement or curbing or to objects within or adjacent to the roadway, conforming to the state traffic control manual and officially placed for the purpose of regulating, warning, or guiding traffic.

"Metal tires" means all tires the surface of which in contact with the highway is wholly or partly of metal or other hard, nonresilient material.

"Minor driver's license" means the license issued to a person who is at least sixteen years of age but who has not yet attained the age of twenty-one years.

"Mobile machinery" or **"self-propelled construction equipment"** means those vehicles, self-propelled or otherwise, which are not designed primarily for the transportation of persons or cargo over the public highways, and those motor vehicles which may have originally been designed for the transportation of persons or cargo over the public highways, and those motor vehicles which may have originally been designed for the transportation of persons or cargo but which have been redesigned or modified by the mounting thereon of special equipment or machinery, and which may be only incidentally operated or moved over the public highways. This definition includes but is not limited to wheeled vehicles commonly used in the construction, maintenance, and repair of roadways, the drilling of wells, and the digging of ditches.

"Motorcycle" means every motor vehicle designed to travel on not more than three wheels in

contact with the ground, except any such vehicle as may be included within the term "farm tractor" and except a motorized bicycle as defined in paragraph (b) of subsection (60) of this section.

"Motor-driven cycle" means every motorcycle, including every motorscooter, with a motor which produces not to exceed six brake-horsepower and every bicycle with motor attached, but not trail bikes, minibikes, go-carts, golf carts, and similar vehicles which are not designed for or approved by the department for use on the public roads or highways and not motorized bicycles as defined in paragraph (b) of subsection (60) of this section.

"Motor home" means a vehicle designed to provide temporary living quarters and which is built into, as an integral part of or a permanent attachment to, a motor vehicle chassis or van.

"Motor vehicle" means any self-propelled vehicle which is designed primarily for travel on the public highways and which is generally and commonly used to transport persons and property over the public highways, but the term does not include motorized bicycles as defined in paragraph (b) of subsection (60) of this section, wheelchairs as defined by subsection (122) of this section, or vehicles moved solely by human power. "Motor vehicle" includes a neighborhood electric vehicle operated pursuant to section 42-4-111 (1)(aa), C.R.S. For the purposes of the offenses described in sections 42-2-128, 42-4-1301, and 42-4-1401, C.R.S., or this Code, for farm tractors and off-highway vehicles, as defined in section 33-14.5-101 (3), C.R.S., operated on streets and highways, "motor vehicle" includes a farm tractor or an off-highway vehicle which is not otherwise classified as a motor vehicle.

"Motorscooter" and **"motorbicycle"** mean every motor vehicle designed to travel on not more than three wheels in contact with the ground, except any such vehicle as may be included within the term "farm tractor" as defined in this section and any motorized bicycle as defined in paragraph (b) of this subsection (59), which motor vehicle is powered by an engine of not to exceed six brake-horsepower.

"Motorized bicycle" means a vehicle having two or three wheels, a cylinder capacity not exceeding 50 C.C., and an automatic transmission which produces a maximum design speed of not more than thirty miles per hour on a flat surface.

"Mounted equipment" means any item of tangible personal property weighing more than five hundred pounds which is rigidly mounted on or attached to a vehicle subsequent to its manufacture and which, when so mounted on or attached to a vehicle, becomes an integral part thereof essential to the operation of such vehicle in carrying out and accomplishing the purpose for which such vehicle is being used.

"Noncommercial or recreational vehicle" means a truck, or unladen truck tractor, operated singly or in combination with a trailer or utility trailer or a motor home, which truck, or unladen truck tractor, or motor home is used exclusively for personal pleasure, enjoyment, other recreational purposes, or personal or family transportation of the owner, lessee, or occupant and is not used to transport cargo or passengers for profit, hire, or otherwise to further the purposes of a business or commercial enterprise.

"Nonresident" means every person who is not a resident of this state.

"Off-highway vehicle" shall have the same meaning as set forth in section 33-14.5- 101 (3), C.R.S.

"Official traffic control devices" means all signs, signals, markings, and devices, not inconsistent with this title, placed or displayed by authority of a public body or official having jurisdiction, for the purpose of regulating, warning, or guiding traffic.

"Official traffic control signal" means any device, whether manually, electrically, or mechanically operated, by which traffic is alternately directed to stop and to proceed.

"Owner" means a person who holds the legal title of a vehicle; or, if a vehicle is the subject of an agreement for the conditional sale or lease thereof with the right of purchase upon performance of the conditions stated in the agreement and with an immediate right of possession vested in the conditional vendee or lessee or if a mortgagor of a vehicle is entitled to possession, then such conditional vendee or lessee or mortgagor shall be deemed the owner for the purpose of articles 1 to 4 of title 42, C.R.S. The term also includes parties otherwise having lawful use or control or the right to use or control a vehicle for a period of thirty days or more.

"Park" or **"parking"** means the standing of a vehicle, whether occupied or not, other than very briefly for the purpose of and while actually engaged in loading or unloading property or passengers.

"Pedestrian" means any person afoot or any person using a wheelchair.

"Person" means a natural person, firm, copartnership, association, corporation, or business entity.

"Pneumatic tires" means all tires inflated with compressed air.

"Pole", "pipe trailer", or "dolly" means every vehicle of the trailer type having one or more axles not more than forty-eight inches apart and two or more wheels used in connection with a motor vehicle solely for the purpose of transporting poles or pipes and connected with the towing vehicle both by chain, rope, or cable and by the load without any part of the weight of said dolly resting upon the towing vehicle. All the registration provisions of articles 1 to 4 of title 42, C.R.S., shall apply to every pole, pipe trailer, or dolly.

"Police officer" means every officer authorized to direct or regulate traffic or to make arrests for violations of traffic regulations.

"Primary user" means an organization that collects bulk data for the purpose of in-house business use.

"Principal office" means the office in this state designated by a fleet owner as its principal place of business.

"Private road" or "driveway" means every road or driveway not open to the use of the public for purposes of vehicular travel.

"Railroad" means a carrier of persons or property upon cars, other than street cars, operated upon stationary rails;

"Railroad sign or signal" means any sign, signal, or device erected by authority of a public body or official or by a railroad and intended to give notice of the presence of railroad tracks or the approach of a railroad train.

"Reciprocal agreement" or "reciprocity" means an agreement among two or more states, provinces, or other jurisdictions for coordinated, shared, or mutual enforcement or administration of laws relating to the registration, operation, or taxation of vehicles and other personal property in interstate commerce. The term includes without limitation the "international registration plan" and any successor agreement providing for the apportionment, among participating jurisdictions, of vehicle registration fees or taxes.

"Reconstructed vehicle" means any vehicle which has been assembled or constructed largely by means of essential parts, new or used, derived from other vehicles or makes of vehicles of various names, models, and types or which, if originally otherwise constructed, has been materially altered by the removal of essential parts or by the addition or substitution of essential parts, new or used, derived from other vehicles or makes of vehicles.

"Red-light camera" means a device operated by a police officer, or by a contractor designated by the city, that is placed in a fixed location at a signalized intersection and that is programmed to automatically produce photographs or video depicting any vehicle whose driver has violated the provisions of section 603 at the intersection. The photographs or video shall depict the vehicle's location in the intersection, the vehicle's license plate and the driver of the vehicle. Affixed to the photographs or video shall be the date of the violation, the approximate time of the violation and the approximate location of the violation.

"Registration period" or "registration year" means any consecutive twelvemonth period.

"Registration period certificate" means the document issued by the department to a fleet owner, upon application of a fleet owner, which states the month in which registration is required for all motor vehicles owned by the fleet owner.

"Residence district" means the territory contiguous to and including a highway not comprising a business district when the frontage on such highway for a distance of three hundred feet or more is mainly occupied by dwellings or by dwellings and buildings in use for business.

"Resident" means any person who owns or operates any business in this state or any person who has resided within this state continuously for a period of ninety days or has obtained gainful employment within this state, whichever shall occur first.

"Right-of-way" means the right of one vehicle operator or pedestrian to proceed in a lawful manner in preference to another vehicle operator or pedestrian approaching under such circumstances of direction, speed, and proximity as to give rise to danger of collision unless one grants precedence to the other.

"Road" means any highway.

"Road tractor" means every motor vehicle designed and used for drawing other vehicles and not so constructed as to carry any load thereon independently or any part of the weight of a vehicle or load so drawn.

"Roadway" means that portion of a highway improved, designed, or ordinarily used for vehicular travel, exclusive of the sidewalk, berm, or shoulder even though such sidewalk, berm, or shoulder is used by persons riding bicycles or other human-powered vehicles and exclusive of that portion of a highway designated for exclusive use as a bicycle path or reserved for the exclusive use of bicycles, human-powered vehicles, or pedestrians. In the event that a highway includes two or more separate roadways, "roadway" refers to any such roadway separately but not to all such roadways collectively.

"Saddlemount combination" means a combination of vehicles in which a truck or laden or unladen truck tractor tows one or more additional trucks or laden or unladen truck tractors and in which each such towed truck or laden or unladen truck tractor is connected by a saddle to the frame or fifth wheel of the vehicle immediately in front of such truck or laden or unladen truck tractor. For the purposes of this subsection (90), "saddle" means a mechanism which connects the front axle of a towed vehicle to the frame or fifth wheel of a vehicle immediately in front of such towed vehicle and which functions like a fifth wheel kingpin connection. A saddlemount combination may include one fullmount.

"Safety zone" means the area or space officially set aside within a highway for the exclusive use of pedestrians and which is so plainly marked or indicated by proper signs as to be plainly visible at all times while set apart as a safety zone.

"School bus" means every motor vehicle which is owned by or under contract to a public or governmental agency and operated for the transportation of children to or from school or any school-sponsored activities, or which is privately owned and operated for compensation but it does not include informal or intermittent arrangements, such as sharing of actual gasoline expense or participation in a car pool, for the transportation of children to or from school or any school-sponsored activities.

"Semitrailer" means any wheeled vehicle, without motor power, designed to be used in conjunction with a laden or unladen truck tractor so that some part of its own weight and that of its cargo load rests upon or is carried by such laden or unladen truck tractor and that is generally and commonly used to carry and transport property over the public highways.

"Sidewalk" means that portion of a street between the curb lines or the lateral lines of a roadway and the adjacent property lines intended for the use of pedestrians.

"Snowplow" means any vehicle originally designed for highway snow and ice removal or control or subsequently adapted for such purposes which is operated by or for the state of Colorado or any political subdivision thereof.

"Solid rubber tires" means every tire made of rubber other than a pneumatic tire.

"Specially constructed vehicle" means any vehicle which has not been originally

constructed under a distinctive name, make, model, or type by a generally recognized manufacturer of vehicles.

"Stand" or **"standing"** means the halting of a vehicle, whether occupied or not, other than momentarily for the purpose of and while actually engaged in receiving or discharging passengers.

"State" means a state, territory, organized or unorganized, or district of the United States.

"State motor vehicle licensing agency" means the Department of Revenue.

"State traffic control manual" means the most recent edition of the "Manual on Uniform Traffic Control Devices for Streets and Highways", including any supplement thereto, as adopted by the transportation commission.

"Steam and electric trains" includes:

(a) **"Railroad train"**, which means a steam engine, electric, or other motor, with or without cars coupled thereto, operated upon rails, except streetcars;

(b) **"Streetcar"**, which means a car other than a railroad train for transporting persons or property upon rails principally within a municipality.

"Stinger-steered" means a semitrailer combination configuration wherein the fifth wheel is located on a drop frame located behind and below the rearmost axle of the power unit.

"Stop" or **"stopping"** means, when prohibited, any halting, even momentarily, of a vehicle, whether occupied or not, except when necessary to avoid conflict with other traffic or in compliance with the directions of a police officer or official traffic control device.

"Stop line" or **"limit line"** means a line which indicates where drivers shall stop when directed by an official traffic control device or a police officer.

"Street rod vehicle" means a vehicle manufactured in 1948 or earlier with a body design that has been modified for safe road use.

"Supervisor" means the executive director of the department of revenue or head of a group, division, or subordinate department appointed by the executive director in accordance with article 35 of title 24, C.R.S.

"Surge brakes" means a system whereby the brakes of a trailer are actuated as a result of the forward pressure of the trailer against the tow vehicle during deceleration.

"Temporary special event license plate" means a special license plate valid for a limited time period that is issued to a person or group of people in connection with a special

event. "Temporary special event license plate" does not mean a special plate for the purposes of section 42-3-207, C.R.S.

"Through highway" means every highway or portion thereof on which vehicular traffic is given preferential right-of-way and at the entrances to which other vehicular traffic from intersecting highways is required by law to yield the right-of-way to vehicles on such through highway in obedience to a stop sign, yield sign, or other official traffic control device when such signs or devices are erected as provided by law.

"Toy vehicle" means any vehicle, whether or not home-built by the user, that has wheels with an outside diameter of not more than fourteen inches and is not designed, approved, or intended for use on public roadways or highways. "Toy vehicle" includes, but is not limited to, gas-powered or electric-powered vehicles commonly known as mini bikes, "pocket" bikes, kamikaze boards, go-peds, and stand-up scooters.

"Traffic" means pedestrians, ridden or herded animals, and vehicles, streetcars, and other conveyances either singly or together while using any highway for the purposes of travel.

"Trailer" means any wheeled vehicle, without motive power and having an empty weight of more than two thousand pounds, which is designed to be drawn by a motor vehicle and to carry its cargo load wholly upon its own structure and which is generally and commonly used to carry and transport property over the public highways.

"Trailer coach" means any wheeled vehicle having an overall width not exceeding eight feet and an overall length, excluding towing gear and bumpers, of not less than twenty-six feet and not more than forty feet, without motive power, which is designed and generally and commonly used for occupancy by persons for residential purposes, in temporary locations, and which may occasionally be drawn over the public highways by a motor vehicle and is licensed as a vehicle.

"Transporter" means every person engaged in the business of delivering vehicles of a type required to be registered under articles 1 to 4 of this title from a manufacturing, assembling, or distributing plant to dealers or sales agents of a manufacturer.

"Truck" means any motor vehicle equipped with a body designed to carry property and which is generally and commonly used to carry and transport property over the public highways.

"Truck tractor - laden" or **"laden truck tractor"** means any motor vehicle carrying cargo that is generally and commonly designed and used to draw, and is drawing a semitrailer or trailer and its cargo load over the public highways.

"Truck tractor - unladen" or **"unladen truck tractor"** means any motor vehicle not carrying cargo that is generally used to draw a semitrailer or trailer and its cargo load over the public highways.

"Used vehicle" means every motor vehicle which has been sold, bargained for, exchanged, or given away, or has had the title transferred from the person who first acquired it from the

manufacturer or importer, and has been so used as to have become what is commonly known as "secondhand" within the ordinary meaning thereof.

"Utility trailer" means any wheeled vehicle weighing two thousand pounds or less, without motive power, which is designed to be drawn by a motor vehicle and which is generally and commonly used to carry and transport personal effects, articles of household furniture, loads of trash and rubbish, or not to exceed two horses over the public highways.

"Vehicle" means any device which is capable of moving itself, or of being moved, from place to place upon wheels or endless tracks. "Vehicle" includes any bicycle, but such term does not include any wheelchair as defined by subsection (122) of this section, or any off-highway vehicle, snowmobile, any farm tractor, or any implement of husbandry designed primarily or exclusively for use and used in agricultural operations or any device moved by muscular power or moved exclusively over stationary rails or tracks or designed to move primarily through the air.

"Wheelchair" means a motorized or nonmotorized wheeled device designed for use by a person with a physical disability.
